ANNUAL REPORT

OF THE

BUREAU OF INDUSTRIES

FOR THE

PROVINCE OF ONTARIO

1898

(PUBLISHED BY THE ONTARIO DEPARTMENT OF AGRICULTURE, TORONTO.)

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO.

121690
1912/12

TORONTO:

WARWICK BRO'S & RUTTER, Printers and Bookbinders, 68 and 70 Front Street West,
1900.

SEVENTEENTH ANNUAL REPORT

OF THE

BUREAU OF INDUSTRIES

1898.

TO THE HONORABLE THE MINISTER OF AGRICULTURE :

SIR,—I have the honor to present herewith the seventeenth annual report of the Bureau of Industries for the Province of Ontario for the year 1898, consisting of :

- I. The Weather and the Crops ;
- II. Live Stock, the Dairy and the Apiary ;
- III. Values, Rents and Farm Wages ;
- IV. Chattel Mortgages ;
- V. Municipal Statistics ;

I have the honor to be, Sir,

Your obedient servant,

C. O. JAMES,

Secretary.

TORONTO, March 1st, 1900.

CONTENTS.

| | PAGE. |
|--|--------|
| LETTER OF TRANSMISSION. | iii. |
| PART I.—THE WEATHER AND THE CROPS. | |
| THE WEATHER: General review, showing <i>temperature, rainfall and sunshine</i> during the growing season | 1 |
| Notes from Temiscamingue District | 5 |
| FARM LANDS: Statistics by county groups showing <i>rural area assessed, cleared lands, woodland and swamp, marsh or waste lands</i> | 5 |
| Pasture | 5 |
| Acreage under crop and proportion per 1,000 acres of cleared land | 6 |
| FIELD CROPS: General description, showing by county groups the <i>area and production</i> for 1897 and 1898 as compared with the annual averages, with extracts from remarks made by correspondents: | |
| Fall wheat | 7 |
| Spring wheat | 9 |
| Barley | 10 |
| Oats | 10 |
| Rye | 11 |
| Peas | 12 |
| Corn | 14 |
| Buckwheat | 18 |
| Beans | 18 |
| Potatoes | 19 |
| Mangel-wurzels | 20 |
| Carrots | 21 |
| Turnips | 21 |
| Hay and clover | 22 |
| COMPARATIVE YIELD OF FIELD CROPS: Showing ratios of yields to the annual averages | 24 |
| FRUIT AND FRUIT TREES: Showing general condition, and giving statistics by county groups, of <i>orchard and vineyard</i> | 26 |
| TOBACCO: General description with statistics of area and production in 1898 .. | 30 |
| REMARKS OF CORRESPONDENTS: | |
| Flax, 31—Hops, 32—Improvements, 33—Rape, 35—General, 37. | |
| THE WEATHER. Giving statistics in detail by months and stations or districts: | |
| Temperature, 1898 | 40 |
| Temperature, 1882-98 | 41 |
| Sunshine | 42 |
| Rain and snow | 42, 43 |
| The weather at Toronto | 45 |
| The weather at Lake Temiscamingue | 46 |
| RURAL AREA: Showing by counties and districts as taken by municipal assessors for 1898 the total <i>area, acres cleared, acres in woodland and acres in waste lands</i> | 47 |
| FIELD CROPS: Showing by counties and districts the <i>acreage and production</i> of the several field crops for the years 1897 and 1898, with the yearly average for the seventeen years, 1882-98; also the yields per acre: | |
| Fall wheat | 48 |
| Spring wheat | 49 |
| Barley | 50 |
| Oats | 51 |
| Rye | 52 |
| Peas | 53 |
| Corn | 54 |

| | |
|---|----|
| Buckwheat | 55 |
| Beans | 56 |
| Potatoes | 57 |
| Mangel-wurzels | 58 |
| Carrots | 59 |
| Turnips | 60 |
| Hay and clover | 61 |
| Ratios of total production in 1898 to yearly averages of each crop | 62 |
| Ratios of yields per acre in 1898 to yearly averages | 63 |
| ACREAGE UNDER CROP : Showing by counties and districts the aggregate area of the above 14 crops ; also the area in <i>pasture</i> , in <i>orchards</i> and in <i>vineyards</i> | 64 |
| RATIOS OF AREAS UNDER EACH CROP PER 1,000 ACRES OF CLEARED LAND | 65 |
| APPLES : Showing the number of trees | 66 |

PART II.—LIVE STOCK, THE DAIRY, AND THE APIARY.

| | |
|--|----|
| LIVE STOCK ON HAND : General review of the condition of live stock in 1898, and showing by county groups the numbers of the several classes on hand on July 1, with comparative totals for five years. Remarks of correspondents | 67 |
| Horses | 68 |
| Cattle | 68 |
| Hogs | 69 |
| Sheep | 69 |
| The wool clip | 70 |
| Poultry | 72 |
| LIVE STOCK SOLD : Showing the numbers sold or slaughtered in the years ending June 30th, 1897 and 1898 | 70 |
| THE APIARY : General condition, and showing by county groups the number of colonies of bees and their value (including outfit) | 74 |
| THE DAIRY : General condition and remarks of correspondents ; statistics of cheese factories and creameries | 75 |
| Creameries, comparative totals for six years | 77 |
| Cheese factories, comparative totals for sixteen years | 78 |
| STATISTICS OF LIVE STOCK : Showing details of numbers by counties and districts : | |
| Horses | 80 |
| Hogs | 80 |
| Cattle | 81 |
| Sheep | 82 |
| Poultry | 82 |
| Live stock sold | 83 |
| Wool | 84 |
| Bees | 85 |
| STATISTICS OF CHEESE FACTORIES : Showing by counties and districts for 1898 the amount of milk used, the quantity and value of cheese made, the number of patrons and the amounts paid to them, etc | 86 |
| (The list of cheese factories is issued as a separate pamphlet.) | |

PART III.—VALUES, RENTS AND FARM WAGES.

| | |
|--|----|
| VALUES OF FARM PROPERTY : Showing statistics by county groups for 1897 and 1898 of the values placed by farmers on <i>Farm Lands</i> , <i>Farm Buildings</i> , <i>Implements</i> and <i>Live Stock</i> , with comparative totals for sixteen years | 87 |
| Values per acre | 88 |
| Rentals of leased farms | 89 |
| VALUES OF LIVE STOCK : Showing by county groups, in 1898, the values of the several classes of live stock on hand on July 1, and of those sold or slaughtered in the year ending June 30 : | |
| Horses | 89 |
| Cattle | 90 |
| Sheep | 90 |
| Hogs | 90 |

| | |
|---|----------|
| Poultry | 91 |
| Values per head | 91 |
| VALUES OF FIELD CROPS : Showing the values of the total production of the several crops : | |
| Market prices for seventeen years | 92 |
| Value of crops for five years | 93 |
| Value of produce per acre | 94 |
| Ratios of values per acre in 1898 to yearly average of seventeen years | 94 |
| FARM LABOR AND WAGES : Showing general condition, with statistics of average wages by county groups for farm laborers and domestic servants | 95 |
| Remarks by correspondents | 96 |
| FARM PROPERTY : Giving statistics by counties and districts for 1897 and 1898 : | |
| Farm lands | 100 |
| Farm buildings | 100 |
| Implements (including vehicles) | 100 |
| Live stock | 101 |
| Rentals per acre | 101 |
| Values per acre | 102 |
| LIVE STOCK VALUES : Giving statistics by counties and districts for 1897 and 1898 : | |
| Horses | 103 |
| Cattle | 103 |
| Hogs | 104 |
| Sheep | 104 |
| Poultry | 104 |
| Live stock sold | 105 |
| Live stock per head | 106, 107 |
| MARKET PRICES : Showing for the leading markets of Ontario the average prices of agricultural products for the last six months of 1898, with comparative statistics for three years | 108-111 |
| FIELD CROP VALUES : Showing by county groups the values at above market prices of the total production of the several field crops for 1897 and 1898, as compared with the yearly averages derived from seventeen years, 1882-98 : | |
| Fall wheat | 112 |
| Spring wheat | 112 |
| Barley | 113 |
| Oats | 113 |
| Rye | 114 |
| Peas | 114 |
| Corn | 115 |
| Buckwheat | 115 |
| Beans | 116 |
| Potatoes | 116 |
| Mangel-wurzels | 117 |
| Carrots | 117 |
| Turnips | 118 |
| Hay and clover | 118 |
| All field crops as above | 119 |
| VALUE OF THE WOOL CLIP : Statistics by counties and districts | 119 |

PART IV.—CHattel MORTGAGES.

| | |
|--|-----|
| CHattel MORTGAGES ON RECORD : Showing comparative total for ten years ; also by county group for four years | 125 |
| COUNTY DIVISIONS : Showing by counties and districts the total number and amount of chattel mortgages on record and discharged | 126 |
| FARMERS : Showing by counties and districts the number and amount of chattel mortgages registered against Farmers | 127 |
| INDEX | 128 |

PART I.

THE WEATHER.

Temperature, rainfall and sunshine, together with the character of the soil and the nature of the tillage, are the chief factors in determining the quality of crops. Seasonable temperature and timely falls of rain or snow tend to develop a generous and well matured crop, while frosts which come too early or too late, or alternate thawing and freezing in winter, a great drouth during the growing period, or a too frequent or too prolonged rainfall, may mean the failure of a crop. Sunshine also plays an important point in the proper maturing of grain and fruit. The following weather tables, therefore, are full of interesting suggestion to those who may study them.

TEMPERATURE. The following table gives the temperature from April to September inclusive—practically the growing season—at ten well distributed points in the Province, and also the average for the seventeen years, 1882-98 :

| Months. | Saugeen. | Birnam | London. | Woodstock. | Stony Creek | Toronto. | Lindsay. | Gravenhurst | Ottawa. | Rockliffe. | Province average. |
|-----------------------|--------------|--------|---------|------------|-------------|----------|----------|-------------|---------|------------|-------------------|
| | ° | ° | ° | ° | ° | ° | ° | ° | ° | ° | ° |
| April..... | 1898 .. 39.1 | 42.1 | 42.9 | 42.2 | 44.0 | 43.4 | 42.4 | 40.5 | 43.4 | 41.2 | 42.1 |
| | 1897 .. 41.1 | 44.3 | 44.7 | 42.7 | 45.3 | 42.8 | 41.4 | 40.7 | 43.1 | 41.2 | 42.7 |
| | 1882-98 39.3 | 43.1 | 44.4 | 42.7 | 43.9 | 41.7 | 40.2 | 39.0 | 40.8 | 37.5 | 41.3 |
| May | 1898 .. 52.2 | 55.7 | 56.5 | 54.8 | 56.6 | 55.0 | 56.1 | 55.3 | 57.3 | 55.7 | 55.5 |
| | 1897 .. 48.9 | 52.7 | 55.1 | 52.9 | 55.0 | 52.5 | 52.5 | 52.6 | 54.5 | 52.2 | 52.9 |
| | 1882-98 50.2 | 54.5 | 56.2 | 54.0 | 54.8 | 52.8 | 53.2 | 52.6 | 55.4 | 51.7 | 53.5 |
| June | 1898 .. 63.3 | 66.7 | 66.6 | 64.9 | 68.7 | 65.4 | 65.5 | 65.1 | 66.2 | 63.4 | 65.6 |
| | 1897 .. 55.6 | 61.0 | 64.6 | 61.4 | 64.7 | 61.3 | 59.7 | 59.5 | 62.0 | 59.0 | 60.9 |
| | 1882-98 60.6 | 61.9 | 66.5 | 65.1 | 66.6 | 63.7 | 63.9 | 63.5 | 65.6 | 61.8 | 64.2 |
| July..... | 1898 .. 67.4 | 70.6 | 71.4 | 69.0 | 73.6 | 70.5 | 70.2 | 70.4 | 70.6 | 68.0 | 70.2 |
| | 1897 .. 69.6 | 71.3 | 73.5 | 70.9 | 74.8 | 72.1 | 71.3 | 71.9 | 72.4 | 71.6 | 71.9 |
| | 1882-98 64.5 | 68.2 | 69.9 | 68.2 | 71.1 | 67.9 | 66.9 | 66.9 | 68.5 | 64.8 | 67.7 |
| August... | 1898 .. 65.7 | 67.4 | 68.4 | 66.8 | 72.6 | 69.7 | 68.1 | 66.4 | 67.5 | 64.4 | 67.7 |
| | 1897 .. 63.2 | 64.8 | 66.2 | 63.4 | 67.8 | 64.7 | 62.3 | 62.7 | 64.1 | 62.4 | 64.2 |
| | 1882-98 65.9 | 65.4 | 66.8 | 65.2 | 69.4 | 65.8 | 64.1 | 63.9 | 65.4 | 61.1 | 65.3 |
| September | 1898 .. 63.0 | 63.9 | 63.2 | 61.0 | 63.5 | 62.8 | 61.1 | 60.3 | 61.0 | 58.6 | 61.8 |
| | 1897 .. 60.9 | 62.9 | 63.3 | 60.5 | 65.7 | 60.8 | 58.1 | 58.4 | 59.4 | 58.4 | 60.8 |
| | 1882-98 57.5 | 60.5 | 60.7 | 59.1 | 62.1 | 59.3 | 57.0 | 57.2 | 57.7 | 53.5 | 58.5 |
| Mean for six months.. | 1898 .. 58.4 | 61.1 | 61.5 | 59.8 | 63.2 | 61.0 | 60.6 | 59.7 | 61.0 | 58.5 | 60.5 |
| | 1897 .. 56.5 | 59.5 | 61.2 | 58.6 | 62.2 | 59.0 | 57.5 | 57.6 | 59.3 | 57.5 | 58.9 |
| | 1882-98 56.3 | 59.4 | 60.7 | 59.1 | 61.3 | 58.5 | 57.5 | 57.2 | 58.9 | 55.1 | 58.4 |

The mean temperature of the Province for April-September was 60.5°, being 1.6° above that of the same period in the preceding year, and 2.1° higher than the average for the seventeen years 1882-98. Stony Creek is credited with the highest mean temperature, 63.2° being reported, London coming next, while Saugeen and Rockliffe record 58.4° and 58.5° respectively. Both April and July failed to show as high a temperature as in 1897, but each of the six months experienced a higher average temperature than its own figures show for the seventeen years' term.

PRECIPITATION. The following table shows the fall of rain and snow in the winter months by districts for the years 1897-8 with the average for the seventeen years 1882-98. In studying this table remember that an inch of rain is equivalent to ten inches of snow.

| Months. | | West and southwest. | | Northwest and north. | | Centre. | | East and northeast. | | Province average. | |
|-------------------------|---------------|---------------------|-------|----------------------|-------|---------|-------|---------------------|-------|-------------------|-------|
| | | Rain. | Snow. | Rain. | Snow. | Rain. | Snow. | Rain. | Snow. | Rain. | Snow. |
| | | in. | in. | in. | in. | in. | in. | in. | in. | in. | in. |
| November.. | { 1897 | 4.31 | 8.5 | 2.06 | 12.9 | 4.05 | 5.5 | 3.19 | 8.8 | 3.40 | 8.9 |
| | { 1896 | 2.59 | 3 0 | 2 28 | 13.4 | 2.43 | 4.6 | 2 72 | 3 8 | 2.51 | 6.2 |
| | { 1882-97.... | 2 52 | 6 9 | 2.06 | 14.4 | 2.34 | 5.7 | 1.96 | 8.4 | 2 22 | 8.8 |
| December .. | { 1897 | 1.56 | 13.5 | 1.24 | 24.1 | 2.11 | 15.3 | 2 00 | 17.2 | 1.73 | 17.5 |
| | { 1896 | 0.45 | 9.7 | 0.27 | 14.9 | 0.34 | 8.4 | 0.41 | 5.5 | 0.37 | 9 6 |
| | { 1882-97.... | 1.60 | 13 0 | 1.13 | 20 9 | 1 45 | 11.3 | 1.15 | 14.0 | 1.33 | 14.8 |
| January | { 1898 | 2.11 | 14.4 | 0 70 | 23.3 | 1.98 | 16.1 | 1.10 | 19 1 | 1 47 | 18.2 |
| | { 1897 | 1.11 | 15.6 | 1.53 | 25.2 | 0.87 | 13.1 | 1.11 | 15.3 | 1.15 | 17.3 |
| | { 1882-98.... | 1.19 | 16 3 | 0.90 | 27.7 | 1.17 | 18.1 | 0.91 | 21.6 | 1.04 | 20.9 |
| February ... | { 1898 | 0.76 | 17.2 | 0 41 | 21.8 | 0.72 | 18.6 | 0 52 | 17 8 | 0.60 | 18.9 |
| | { 1897 | 1 05 | 7.7 | 0.40 | 21.2 | 1 10 | 10 4 | 1 03 | 16 9 | 0.89 | 14.1 |
| | { 1882-98.... | 1.41 | 12.3 | 0.58 | 21.2 | 1.08 | 14.5 | 0.66 | 18.6 | 0.93 | 16 7 |
| March | { 1898 | 2.81 | 0 6 | 2.55 | 2 9 | 2.22 | 0.3 | 2.10 | 0.1 | 2.42 | 1 0 |
| | { 1897 | 1.12 | 6.5 | 1.26 | 17 8 | 2.16 | 11 8 | 1.53 | 14 7 | 1.52 | 12.7 |
| | { 1882-98.. | 1.25 | 8.9 | 0.88 | 13.3 | 1.17 | 9.0 | 0.95 | 12.3 | 1.06 | 10.9 |
| Totals for five months. | { 1898 | 11.55 | 54.2 | 6.96 | 85.0 | 11.08 | 55.8 | 8 91 | 63.0 | 9.62 | 64.5 |
| | { 1897 | 6.32 | 42.5 | 5.74 | 92.5 | 6.90 | 48 3 | 6 80 | 56.2 | 6.44 | 59.9 |
| | { 1882-98.... | 7.97 | 57.4 | 5.55 | 97.5 | 7.21 | 58.6 | 5 63 | 74.9 | 6.58 | 72.1 |

The rainfall for the Province in the five months was unusually heavy, being 9.62 inches, compared with 6.44 inches in the preceding year, and an average of 6.59 inches for the seventeen years. The snowfall was heavier than in 1897, but lighter than the average for 1882-98. It is interesting to note, however, that this decrease is mainly due to the remarkably light snowfall in March, when only one inch descended. On the other hand, February was the only month failing to show an increase in the rainfall compared with the average of the seventeen years. The total precipitation of both rain and snow for the months named in the table was equal to 10.26 inches of rain in 1898, while the average for the seventeen years was equal to 7.31 inches of rain.

From April to September is the growing season for most of the crops, and the rainfall during that important period is presented in the following table:

| Months. | West and southwest. | | Northwest and north. | | Centre. | | East and northeast. | | Province average. | |
|-------------|---------------------|---------|----------------------|----------|---------|----------|---------------------|----------|-------------------|---------|
| | 1898 | 1882-98 | 1898. | 1882-98. | 1898. | 1882-98. | 1898. | 1882 98. | 1898. | 1882-98 |
| | in. | in. | in. | in. | in. | in. | in. | in. | in. | in. |
| April | 2.08 | 1.85 | 1 17 | 1.45 | 1.47 | 1.57 | 1.08 | 1.34 | 1.45 | 1.55 |
| May | 2.20 | 3.38 | 2.59 | 2.59 | 2.37 | 2.81 | 2 54 | 2 63 | 2.43 | 2.85 |
| June | 3.14 | 3.13 | 3 03 | 2.74 | 2.80 | 2.80 | 2.36 | 2 61 | 2.83 | 2 82 |
| July | 1.89 | 2.55 | 1 07 | 2.58 | 0 92 | 2 34 | 1.06 | 2.71 | 1.11 | 2 55 |
| August | 2 36 | 2.62 | 3.03 | 2.88 | 1.85 | 2 33 | 3.30 | 2.65 | 2 64 | 2.62 |
| September. | 2 94 | 2.58 | 2.66 | 2.92 | 3.07 | 2.34 | 3 09 | 2.35 | 2.94 | 2.55 |
| Totals.. | 14.11 | 16.11 | 13.55 | 15.16 | 12.48 | 14.19 | 13.43 | 14.29 | 13.40 | 14.94 |

Three of the months show an increased rainfall compared with their respective figures for the seventeen years period, and three fall below their own record. The most noticeable feature of the table is the low figures given for July, when the rainfall reached

BUREAU OF INDUSTRIES.

only 1.11 inches, compared with 2.55 inches for the seventeen years. In some localities, owing to the unevenness of distribution, practically no rain fell during July. Next to July, the month of April had the least rainfall—as, indeed, it generally has the least of any—while September and June were the wettest months of the year. The heaviest rainfall, as usual, is shown in the west and south-west district.

SUNSHINE. The amount registered for the six months, April to September inclusive, for the years 1897-8, and the average for the seventeen years 1882-98, are given in the following table. The last column gives the number of hours of possible sunshine, calculated for latitude 45°.

| Months. | Woodstock. | Toronto. | Barrie. | Lindsay. | Kingston. | Province average. | Sun above horizon, lat. 45°. |
|-------------------------|--|------------------------------|------------------------------|------------------------------|------------------------------|------------------------------|------------------------------|

Out of a total of 2,614.9 hours of possible sunshine for the six months named in the table, an average of 1,399.0 hours were registered, being a decided increase compared with the figures of both 1887 and the seventeen years' period. July was an unusually bright month, and so, relatively, was April. May, June and August, however, fell below their average amount of sunshine for the seventeen years. At Toronto, 1,504.3 hours of sunshine were registered in the six months, of which July contributed 325 hours. Woodstock and Kingston differ from the other four stations in the table by showing a decrease in the total number of hours of sunshine reported by them compared with their respective figures for 1882-98.

SOME WEATHER NOTES. The following relating to the weather conditions of August, September and October, is taken from the November bulletin: The temperature has continued in excess of the average throughout the fall months, the period of three months, August, September and October, being over one degree warmer than the corresponding term for 1897, and three degrees in excess of the general average. It is noteworthy that since and including September, 1897, every month has had a mean temperature above the average. The extraordinary drouth of midsummer has been more than counterbalanced, so far as the volume of precipitation is concerned by the heavy

rains of October, during which month the precipitation was 4.62 inches as compared with the general average for the month of 2.44. During the three months, August-October, the precipitation amounted to 10.20 inches, over two and a half inches more than the average. The figures for the ten months, from January to October, show that the rainfall has been upwards of one inch greater than the average precipitation. The maximum temperature reached in August was exceptionally high, close upon 100° being recorded at several stations. Drouth prevailed in some counties, the rainfall in others being above the average. The early part of September was also exceedingly warm, 100° being recorded at Stony Creek and Port Hope. The frosts occurring at a later period of the month occasioned but little damage. The month of October was mild and cloudy, with an unusually heavy rainfall, and snow at some stations about the 27th. The pasture remained good until the end of the month. Frosts were but light. The first general frost took place on the 16th of October, though numerous northern or exposed localities were visited at earlier dates in the month, especially on the 6th and 7th. Some of the more southern stations did not experience any frost until dates varying from the 27th to the 30th. Singularly enough, Gravenhurst, Muskoka, was untouched until the 27th. The earliest snowfall was at Sudbury on the 13th of October, followed by heavy snow at points in Nipissing, Muskoka and Parry Sound on the 14th, and a more general precipitation on the 27th, the volume of which, however, was but small. The first considerable fall of a general character was the storm of the 10th and 11th November, the precipitation of which varied from two inches in London and seven in Toronto to eleven in Millbrook.

SEASONAL NOTES FROM HAILEYBURY, LAKE TEMISCAMINGUE.

- February 9th.—First rain.
- March 12th.—Snow going fast, some knolls bare.
- “ 16th.—First crow; lightning at night.
- “ 28th.—Snow nearly all gone in clearing.
- April 7th.—Last sleighing in bush.
- “ 8th.—Ice getting rotten.
- “ 9th.—Robins singing.
- “ 22nd.—Bees put out, carrying pollen at once from the willows.
- “ 24th.—First butterfly.
- “ 27th.—Ice went out in afternoon.
- “ 28th.—First steamer; frogs piping.
- May 4th.—Last snow.
- “ 7th.—First swallow.
- “ 9th.—Thunder storm.
- “ 11th.—Kingfisher seen.
- “ 21st.—Swallowtail butterfly.
- July 10th.—Frost reported in neighborhood.
- September 9th.—First minimum reading below 32°
- October 1st.—Slight white frost.
- “ 6th.—First real frost.
- “ 11th.—Last thunderstorm.
- “ 12th.—First snowflake.
- “ 26th.—First sleighing.
- November 5th.—Snow all gone.
- “ 22nd.—Last plowing.
- “ 25th.—Lake frozen partly.
- December 4th.—Last trip of steamer.

FARM LANDS OF THE PROVINCE.

RURAL AREA ASSESSED. The following table gives the acreage assessed in townships which are municipally organized by county groups, the total for the Province being given for all classes of land for 1897 and 1898:

| Districts. | Acres assessed. | | | Acres cleared. | | Acres woodland. | Acres swamp or marsh. | Percent cleared. |
|------------------------|-----------------|---------------|------------|----------------|------------|-----------------|-----------------------|------------------|
| | Resident. | Non-resident. | Total. | 1898. | 1897. | | | |
| Lake Erie | 2,319,286 | 18,931 | 2,338,217 | 1,662,650 | 1,609,885 | 583,094 | 92,473 | 71.1 |
| Lake Huron | 2,296,206 | 30,590 | 2,326,796 | 1,505,664 | 1,487,058 | 558,795 | 262,337 | 64.7 |
| Georgian Bay | 1,976,714 | 45,732 | 2,022,446 | 1,197,240 | 1,189,222 | 513,987 | 311,219 | 59.2 |
| West Midland | 3,232,793 | 21,776 | 3,254,569 | 2,489,486 | 2,466,688 | 465,249 | 299,834 | 76.5 |
| Lake Ontario | 3,001,052 | 49,916 | 3,050,968 | 2,402,428 | 2,391,149 | 340,168 | 308,372 | 78.7 |
| St. Law. and Ottawa. | 5,178,452 | 200,853 | 5,379,305 | 2,586,413 | 2,562,394 | 1,747,377 | 1,045,515 | 48.1 |
| East Midland | 2,572,593 | 182,191 | 2,754,784 | 932,001 | 929,700 | 1,287,116 | 585,667 | 33.8 |
| Northern Districts .. | 1,915,742 | 349,757 | 2,265,499 | 217,732 | 216,985 | 1,703,119 | 344,648 | 9.6 |
| The Province, { 1898.. | 22,492,838 | 899,746 | 23,392,584 | 12,993,614 | | 7,198,905 | 3,200,065 | 55.5 |
| { 1897.. | 22,403,060 | 957,368 | 23,360,428 | | 12,853,081 | 7,294,026 | 3,213,321 | 55.0 |

The rural area assessed amounts to 23,392,584 acres, or 32,156 acres more than in the preceding year, notwithstanding a considerable decrease in the number of acres of non-resident land. There are 12,993,614 acres of cleared land, which is 140,533 acres more than in 1897. There are still over seven million acres of woodland, and over three million acres of swamp or waste land in organized townships of the Province, although in both these items there has been a decrease in acreage compared with the previous year. The percentage of cleared land is now 55.5, which is .5 more than in 1897.

AREA IN PASTURE. The following table gives the number of acres in pasture by county groups and for the Province for each of the five years 1894-98, and also the percentage of cleared land in pasture in 1898:

| Year. | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. |
|---|------------|-------------|---------------|---------------|---------------|--------------------------|---------------|---------------------|---------------|
| | acres. | acres. | acres. | acres. | acres. | acres. | acres. | acres. | acres. |
| 1898 | 259,173 | 352,411 | 228,373 | 502,082 | 372,563 | 747,009 | 210,407 | 36,025 | 2,708,043 |
| 1897 | 249,918 | 349,412 | 227,658 | 493,514 | 368,546 | 730,330 | 204,162 | 34,705 | 2,658,245 |
| 1896 | 247,681 | 356,243 | 182,149 | 505,052 | 383,382 | 706,650 | 204,931 | 33,656 | 2,619,744 |
| 1895 | 261,181 | 373,061 | 235,602 | 518,394 | 391,876 | 705,175 | 209,859 | 33,507 | 2,723,655 |
| 1894 | 247,530 | 369,178 | 233,935 | 519,802 | 388,225 | 711,042 | 200,979 | 32,550 | 2,703,241 |
| Rate per 1,000 acres cleared in 1898... | 155.9 | 234.1 | 190.7 | 201.7 | 155.1 | 288.8 | 225.8 | 165.5 | 208.4 |

There are 2,708,043 acres in pasture, or 49,798 acres more than in the preceding year, every district sharing in the increase. Out of every 1,000 acres of cleared land there are 208.4 in pasture, taking the whole Province, while the dairy counties of the St. Lawrence and Ottawa group go as high as 288.8 per 1,000.

ACREAGE UNDER CROP. The following table gives the acreage under crop for each of the five years 1894-98, with the average for the seventeen years, 1882-98 :

| Field crops. | 1898. | 1897. | 1896. | 1895. | 1894. | 1882-98. |
|---------------------|--------------|-----------|-----------|-----------|-----------|-----------|
| | acres. | acres. | acres. | acres. | acres. | acres. |
| Fall wheat | 1,048,182 | 950,222 | 876,955 | 743,199 | 778,992 | 900,382 |
| Spring wheat..... | 389,205 | 323,305 | 255,361 | 223,957 | 230,016 | 474,432 |
| Barley | 438,784 | 451,515 | 462,792 | 478,046 | 486,261 | 630,376 |
| Oats | 2,376,360 | 2,432,491 | 2,425,107 | 2,373,309 | 2,342,766 | 1,904,717 |
| Rye..... | 165,089 | 187,785 | 148,680 | 120,350 | 90,144 | 111,174 |
| Peas | 865,951 | 896,735 | 829,601 | 799,963 | 785,007 | 728,256 |
| Corn..... | Husking..... | 330,748 | 335,030 | 317,667 | 302,929 | 267,348 |
| | Fodder..... | 189,948 | 209,005 | 178,962 | 149,899 | 111,361 |
| Buckwheat..... | 150,394 | 151,669 | 145,606 | 135,262 | 145,268 | 98,790 |
| Beans | 45,220 | 50,591 | 68,369 | 72,747 | 59,281 | 37,666 |
| Potatoes | 169,946 | 169,333 | 178,965 | 184,647 | 167,253 | 159,584 |
| Mangel-wurzels..... | 47,923 | 41,175 | 36,101 | 34,383 | 27,670 | 25,074 |
| Carrots..... | 12,418 | 12,025 | 12,333 | 13,002 | 11,186 | 10,849 |
| Turnips | 151,601 | 149,336 | 148,234 | 151,806 | 147,657 | 121,429 |
| Hay and Clover..... | 2,453,503 | 2,341,488 | 2,426,711 | 2,537,674 | 2,576,943 | 2,383,737 |
| Total | 8,835,272 | 8,701,705 | 8,511,444 | 8,321,173 | 8,227,153 | 7,876,919 |

The acreage under crop in the Province is given as 8,835,272, which is 133,567 more than in 1897, and it also exceeds the total area of any previous period. Hay has resumed its place in the lead, oats having fallen back to their former position as the crop with the second largest acreage. There is a decided enlargement in the areas of both fall and spring wheats, but corn, for the first time in many years, has failed to make an increase in acreage. There is nothing striking in the changes of figures given for the other crops.

The acreage of all crops mentioned in the preceding table is given in the following table, and for the same periods, by county groups and for the Province :

| Year. | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. |
|--------------------|------------|-------------|---------------|---------------|---------------|--------------------------|---------------|---------------------|---------------|
| | acres. | acres. | acres. | acres. | acres. | acres. | acres. | acres. | acres. |
| 1898..... | 1,159,025 | 995,640 | 830,307 | 1,723,029 | 1,735,248 | 1,601,768 | 620,847 | 169,408 | 8,835,272 |
| 1897..... | 1,144,347 | 982,592 | 814,595 | 1,722,480 | 1,727,077 | 1,545,908 | 603,197 | 161,509 | 8,701,705 |
| 1896..... | 1,097,435 | 946,198 | 792,817 | 1,692,840 | 1,707,294 | 1,519,090 | 604,692 | 151,078 | 8,511,444 |
| 1895..... | 1,057,730 | 909,262 | 773,416 | 1,651,847 | 1,676,762 | 1,511,493 | 597,027 | 143,636 | 8,321,173 |
| 1894..... | 1,047,297 | 873,424 | 758,184 | 1,594,356 | 1,687,718 | 1,529,255 | 596,254 | 140,665 | 8,227,153 |
| Average 1882-98... | 993,677 | 842,212 | 713,403 | 1,535,783 | 1,650,489 | 1,451,757 | 575,196 | 114,402 | 7,876,919 |

Every group of counties shows an increase in the acreage under crop, each having, also, a larger area than in any other year of the table. The Lake Ontario, West Midland and St. Lawrence and Ottawa districts still lead in the matter of acreage, in the order named.

PROPORTIONAL AREAS UNDER CROP. The relative distribution of the various crops per 1,000 acres cleared is given in the following table, by county groups

and for the Province for 1897 and 1898, together with the average for the seventeen years 1882-98 :

| Districts. | | Fall wheat. | Spring wheat. | Barley. | Oats. | Rye. | Peas. | Corn. | Buckwheat. | Beans. | Potatoes. | Mangel-wurzels. | Carrots. | Turnips. | Hay and clover. | Total. |
|--------------------------|----------|-------------|---------------|---------|-------|------|-------|-------|------------|--------|-----------|-----------------|----------|----------|-----------------|--------|
| Lake Erie. | { 1898. | 154.7 | 3.3 | 22.1 | 130.6 | 10.0 | 36.7 | 107.0 | 9.5 | 20.5 | 10.6 | 2.2 | .8 | 1.7 | 187.4 | 697.1 |
| | { 1897. | 146.7 | 2.6 | 21.5 | 139.0 | 16.1 | 37.8 | 112.4 | 10.8 | 23.0 | 11.1 | 2.0 | .8 | 1.8 | 185.2 | 710.8 |
| | { '82-98 | 161.7 | 6.5 | 25.2 | 130.6 | 10.1 | 42.1 | 84.2 | 9.2 | 19.3 | 11.8 | 1.3 | .7 | 1.9 | 201.7 | 706.3 |

Out of every 1,000 acres cleared there are 680 acres given to the crops comprising the table, a net increase of three acres compared with the previous year.

FALL WHEAT.

The 1897 November bulletin had the following regarding the new fall wheat : Preparations were made early in the season for a greatly increased acreage of fall wheat but the drouth prevailing at seed time upset many calculations, seeding in some cases being delayed until too late. Reports, however, would indicate that an increased area has been sown to fall wheat in the western half of the Province, where the bulk of the crop is raised, and that the usual acreage will be grown further east. Reports vary as to the present condition of the crop, as seeding took place during a period extending from the latter part of August to the middle of October. Where sown on fallowed or early plowed land the crop is spoken of as in excellent condition, while that put in on pea ground almost invariably found an inhospitable bed. Only three correspondents speak of Hessian Fly, while many positively claim entire exemption from all insect pests for the growing crop of fall wheat. Forty-five favorite varieties are named. Dawson's Golden Chaff and Clawson are away in the lead, Manchester, Genesee Giant, Democrat, Surprise and Michigan Amber come next, and the remainder are scattering.

The following reference to fall wheat was contained in the May bulletin: "November reports led to the conclusion that the area of fall wheat had been increased, especially in the western part of the Province, and that there would have been still more but for the delay caused to seeding by the drouth of September and the latter part of August. Reports from correspondents just to hand are to the effect that in most cases the crop came out in the spring in about the same condition as it entered the winter. There was some mention of a little heaving, of smothering, and of slight injury from frost, but these were exceptional. Little harm appears to have been done by insects, wire-worms being reported in a few cases. The first two weeks of April were far from favorable for the crop, and although rains later helped the plant it is hardly in as forward a condition as usual. Where sown early on summer fallow, fall wheat has never been more promising, but many fields were hastily prepared owing to the rise in the price of wheat, and this, with the drouth prevailing at the time of seeding, gives the fields a patchy and weak look in many quarters. In several of the western and central counties some plowing up has been done, but not to any considerable extent. The present acreage of the crop, therefore, may be set down as quite up to the average, and the average condition in the first week of May as fair. The outcome of the crop of course depends upon the weather of the next six weeks."

The August reports were thus summarized: "The crop of fall wheat is one of the best ever harvested in the Province. Both east and west the yields have been large, an occasional low yield being more than balanced by a heavy return close by. The crop was cut early, and was harvested in a good condition generally, although a few correspondents complain of 'lodging' owing to the heavy straw, and of 'shelling.' The grain is described as being plump, and in many cases goes considerably over standard weight. Occasional reports of rust were received, but little complaint was made regarding insects except in the case of the midge, which was injurious in Welland, Haldimand and Lincoln, particularly in the last named county."

The November bulletin said: "The favorable accounts in the returns given in August have been verified by the reports just to hand. Poor yields were exceptional, and large yields were common. The plumpness of the grain is frequently alluded to, in many cases the weight going over the standard, and as high sometimes as sixty-three or sixty-four pounds to the bushel. Here and there only did correspondents complain of rust, midge, or other injury to the crop. The yield is twenty-four bushels per acre, giving the large total yield of 25,158,713 bushels."

The following table gives the acreage and yield of fall wheat by county groups and for the Province for 1897 and 1898, together with the average for the Province for the seventeen years 1882-98:

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|----------------------------|-----------|------------|-----------|---------|------------|-----------|---|------------|-----------|
| | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. |
| Lake Erie | 257,211 | 5,751,213 | 22.4 | 236,206 | 5,554,377 | 23.5 | 227,522 | 4,357,184 | 19.2 |
| Lake Huron | 161,156 | 3,946,205 | 24.5 | 146,698 | 3,639,365 | 24.8 | 140,717 | 2,888,173 | 20.5 |
| Georgian Bay | 104,938 | 2,729,405 | 26.0 | 90,621 | 2,300,268 | 25.4 | 78,958 | 1,700,631 | 21.5 |
| West Midland | 288,553 | 7,062,616 | 24.5 | 260,983 | 7,167,780 | 27.5 | 250,458 | 5,326,103 | 21.3 |
| Lake Ontario | 194,301 | 4,612,597 | 23.7 | 189,046 | 4,915,057 | 26.0 | 163,776 | 3,416,223 | 20.9 |
| St. Lawrence and Ottawa... | 11,102 | 271,139 | 24.4 | 7,555 | 114,854 | 15.2 | 13,494 | 252,253 | 18.7 |
| East Midland | 28,767 | 731,458 | 25.4 | 17,671 | 273,381 | 15.5 | 24,683 | 485,774 | 19.7 |
| Northern Districts | 2,156 | 54,080 | 25.1 | 1,442 | 22,969 | 15.9 | 774 | 16,170 | 20.9 |
| The Province | 1,048,182 | 25,158,713 | 24.0 | 950,222 | 23,988,051 | 25.2 | 900,382 | 18,442,511 | 20.5 |

The yield per acre for the Province in 1898 is 24 bushels, or 3.5 bushels more than the average for the seventeen years, although falling short by 1.2 bushels of the average for 1897. The increase in the area, however, brings the total yield for the year up to 25,158,713 bushels, or 1,170,662 bushels more than in the preceding year. The large total yield of the West Midland group, however, and the splendid average yield of 26 bushels per acre returned for the Georgian Bay district, are interesting features of the table, although the remarkable yield of the West Midland group in the preceding year is not equalled by either.

SPRING WHEAT.

The outlook for the crop was thus described in the bulletin issued in August: "Many correspondents in the eastern portion of the Province report a considerable increase in the acreage devoted to spring wheat. This crop, like other cereals, ripened early owing to the hot weather, which in some neighborhoods prevented the heads from filling well. The yield as a whole, however, will be considerably above the average, especially in eastern Ontario, where a number of correspondents speak of the crop as the best for many years. The main drawbacks experienced have been frost and drouth, and some slight injury from rust and midge is also reported."

The November bulletin thus referred to the crop: "The acreage of spring wheat is only a little over one-third of that of fall wheat. The crop has been over an average in yield, and the quality is also good. A large amount of Goose wheat has been grown. The yield is a little larger than our August estimate, being 17.7 bushels per acre."

The acreage and yield, by county groups and for the Province, are given in the following table:

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|---------------------------|---------|-----------|-----------|---------|-----------|-----------|--|-----------|-----------|
| | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. |
| Lake Erie..... | 5,492 | 82,104 | 14.9 | 4,167 | 58,126 | 13.9 | 9,181 | 131,334 | 14.3 |
| Lake Huron..... | 9,737 | 165,732 | 17.0 | 11,043 | 152,842 | 13.8 | 27,237 | 386,262 | 14.2 |
| Georgian Bay..... | 33,434 | 533,606 | 16.0 | 35,160 | 497,826 | 14.2 | 57,582 | 841,187 | 14.6 |
| West Midland..... | 31,864 | 494,166 | 15.5 | 39,916 | 458,337 | 11.5 | 63,940 | 957,459 | 15.0 |
| Lake Ontario..... | 136,153 | 2,277,019 | 16.7 | 96,478 | 1,647,867 | 17.1 | 139,578 | 2,160,487 | 15.5 |
| St. Lawrence and Ottawa.. | 168,164 | 2,210,201 | 20.4 | 88,054 | 1,324,566 | 15.1 | 106,571 | 1,760,418 | 16.5 |
| East Midland..... | 58,198 | 1,000,226 | 17.2 | 43,475 | 650,260 | 15.0 | 62,926 | 893,824 | 14.2 |
| Northern Districts..... | 6,163 | 110,731 | 18.0 | 5,012 | 74,277 | 14.8 | 7,417 | 128,326 | 17.3 |
| The Province..... | 389,205 | 6,873,785 | 17.7 | 323,305 | 4,868,101 | 15.1 | 474,432 | 7,259,297 | 15.3 |

The average yield of spring wheat for the Province is 17.7 bushels per acre, being 2.4 bushels more than that of the seventeen years, and 2.6 more than the average yield of 1897. This, with the increased acreage, makes the total yield for the Province 6,873,785 bushels, or over two million bushels more than in the preceding year. The largest areas of spring wheat are found in the Lake Ontario and St. Lawrence and Ottawa counties, and the latter group this year has the high average yield of 20.4 bushels per acre. The Lake Erie district has the smallest acreage and the lowest average yield for the year.

BARLEY.

The August bulletin said of barley: "The crop is generally good, and with a few exceptions the grain is bright and in fine condition, though in some places light in weight owing to the heat and lack of moisture. The frost in July also inflicted some damage on the crop. Slight losses from smut and rust have been observed, but there appears to have been a marked exemption from the ravages of destructive insects."

The crop was thus described in the November bulletin: "Only the low prices prevailing prevented barley from being one of the most satisfactory crops of the season. The yield per acre generally has been large, and a better sample of grain as to weight and color has seldom been raised. The yield is 28.9 bushels per acre, somewhat larger than was estimated before the crop was harvested."

The acreage and yield, by county groups and for the Province, are given in the following table:

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|----------------------------|---------|------------|-----------|---------|------------|-----------|---|------------|-----------|
| | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. |
| Lake Erie | 36,760 | 1,092,533 | 29.7 | 34,603 | 890,600 | 25.7 | 35,389 | 877,864 | 24.8 |
| Lake Huron | 47,374 | 1,470,901 | 31.0 | 42,884 | 1,161,050 | 27.1 | 52,864 | 1,415,772 | 26.8 |
| Georgian Bay | 43,032 | 1,192,703 | 27.7 | 44,718 | 1,191,811 | 26.7 | 49,663 | 1,289,556 | 26.0 |
| West Midland | 106,819 | 3,258,029 | 30.5 | 104,542 | 2,874,139 | 27.5 | 120,759 | 3,377,322 | 28.0 |
| Lake Ontario | 113,641 | 3,181,602 | 28.0 | 131,939 | 3,598,729 | 27.3 | 230,515 | 5,881,957 | 25.5 |
| St. Lawrence and Ottawa .. | 51,712 | 1,423,042 | 27.5 | 49,020 | 1,237,831 | 25.3 | 75,369 | 1,824,468 | 24.2 |
| East Midland | 36,172 | 964,464 | 26.7 | 40,732 | 997,301 | 24.5 | 63,526 | 1,515,018 | 23.8 |
| Northern Districts | 3,274 | 80,394 | 24.6 | 3,077 | 70,318 | 22.9 | 2,291 | 53,338 | 23.3 |
| The Province | 438,784 | 12,663,668 | 28.9 | 451,515 | 12,021,779 | 26.6 | 630,376 | 16,235,295 | 25.8 |

There is a decrease in the acreage of barley compared with both the preceding year and the average for the seventeen years. The large average yield of 28.9 bushels per acre, however, enables the total yield of the Province to exceed that of 1897 by 641,889 bushels. The Lake Ontario group continues to lead in the area given to barley. In the Lake Huron district the average yield per acre was 31 bushels.

OATS.

The following was contained in the August bulletin: "There will be about an average yield of oats as regards quantity, the crop, which promised splendidly during the earlier part of the season, having suffered considerably from the late frosts, and to a still greater degree from the hot, dry weather, which caused premature ripening. The straw is consequently short, and the grain apt to be light. The yield is better in the extreme eastern counties, both in quantity and quality, than elsewhere. In a number of localities injuries from rust and the attacks of grasshoppers are mentioned, but smut seems to have almost entirely disappeared, being mentioned by only one correspondent."

The November bulletin said of oats: "This crop appears to be a fair one, in many cases going over the yield per measured bushel, although complaints are made in various sections as to the grain being rather light in weight, on account of quick ripening. A few correspondents complained of rust, and grasshoppers did considerable injury in some of the Lake Erie counties. The crop has turned out two bushels per acre better than was estimated before harvest, bringing the yield up to the extraordinary total of 86,858,293 bushels."

The following table shows the acreage and yield by county groups and for the Province :

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|-------------------------------|-----------|------------|-----------|-----------|------------|-----------|---|------------|-----------|
| | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. |
| Lake Erie | 217,088 | 7,816,522 | 36.0 | 223,704 | 7,329,360 | 32.8 | 183,776 | 6,332,673 | 34.5 |
| Lake Huron | 291,448 | 11,362,217 | 39.0 | 297,168 | 11,033,352 | 37.1 | 218,674 | 7,814,584 | 35.7 |
| Georgian Bay | 239,596 | 8,328,302 | 34.8 | 244,134 | 8,722,030 | 35.7 | 186,570 | 6,264,901 | 33.6 |
| West Midland | 514,053 | 20,412,418 | 39.7 | 523,972 | 20,352,945 | 38.8 | 402,279 | 15,126,954 | 37.6 |
| Lake Ontario | 388,307 | 13,968,525 | 36.0 | 411,725 | 15,028,423 | 36.5 | 329,230 | 11,632,920 | 35.3 |
| St. Lawrence and Ottawa | 510,775 | 18,302,739 | 35.8 | 507,672 | 16,774,058 | 33.0 | 419,740 | 13,549,101 | 32.3 |
| East Midland | 171,650 | 5,426,477 | 31.6 | 180,938 | 5,823,213 | 32.2 | 137,570 | 4,261,093 | 31.0 |
| Northern Districts | 43,443 | 1,241,093 | 28.6 | 43,178 | 1,254,717 | 29.1 | 26,878 | 810,427 | 30.2 |
| The Province | 2,376,360 | 86,858,293 | 36.6 | 2,432,491 | 86,318,128 | 35.5 | 1,904,717 | 65,792,653 | 34.5 |

The acreage of oats exceeds that of any of the other field crops excepting hay (which it exceeded in the preceding year), but it has fallen off considerably compared with 1897. The average yield of 36.6 bushels per acre for the Province, however,—which is 1.1 bushel above that of the preceding year, and 2.1 more than the average for the seventeen years—makes the total yield 540,165 bushels more than in 1897. The West Midland appears to be the banner district for both acreage and yield of oats, judging by the three records given in the table.

RYE.

The greater part of this crop is fed green, to supplement pasture, and the results this season have been satisfactory. The August bulletin said that where grown for the grain the yield per acre would be slightly above the average, except in the Lake Ontario counties, in some of which there was a small yield.

Correspondents had but little to say regarding this crop in their November reports. What little rye was grown for grain turned out well. In fact the too rank growth of the crop seems to have been the chief cause for complaint.

The following table gives the acreage and yield of rye by county groups and for the Province :

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|-------------------------------|---------|-----------|-----------|---------|-----------|-----------|---|-----------|-----------|
| | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. |
| Lake Erie | 16,703 | 244,807 | 14.7 | 25,890 | 446,011 | 17.2 | 14,166 | 216,437 | 15.3 |
| Lake Huron | 5,140 | 96,243 | 18.7 | 6,682 | 138,880 | 20.8 | 1,896 | 34,651 | 18.3 |
| Georgian Bay | 9,999 | 163,155 | 16.3 | 11,621 | 208,766 | 18.0 | 4,091 | 70,643 | 17.3 |
| West Midland | 17,505 | 324,364 | 18.5 | 26,679 | 549,030 | 20.6 | 9,205 | 162,198 | 17.6 |
| Lake Ontario | 61,917 | 953,074 | 15.4 | 62,419 | 1,120,001 | 17.9 | 35,369 | 532,716 | 15.1 |
| St. Lawrence and Ottawa | 29,321 | 501,815 | 17.1 | 29,954 | 496,008 | 16.6 | 28,506 | 497,757 | 17.5 |
| East Midland | 23,137 | 363,551 | 15.7 | 23,346 | 402,113 | 17.2 | 17,027 | 264,408 | 15.5 |
| Northern Districts | 1,367 | 26,225 | 19.2 | 1,194 | 21,186 | 17.7 | 914 | 17,203 | 18.8 |
| The Province | 165,089 | 2,673,234 | 16.2 | 187,785 | 3,382,005 | 18.0 | 111,174 | 1,796,013 | 16.2 |

The yield per acre for the Province is an average one, although less than that of the preceding year by 1.8 bushels. This, with the decrease in the area, makes the falling off in the total yield 708,771 bushels compared with 1897. The figures given for yield, however, are more or less conventional, as much of the rye raised in the Province is grown for green feed.

PEAS.

According to the August reports the yield of peas varied greatly, even in the same county or township. The crop got a good start, but the continued drouth checked the growth, and caused the vines to ripen too early. The frost of July 10th also did considerable injury to this crop. The straw though short was bright, and will make good fodder. The "bug" was frequently complained of in the Lake Erie district, but further east it did not appear to give much trouble. The yield per acre for the Province fell short of the average, and ran all the way from ten to thirty bushels to the acre.

The November returns were not favorable concerning peas, as will be seen from the following summary given in the bulletin: "This appears to have been the most unfortunate of the grain crops. The drouth of the early part of the summer, and a frost about the 10th of July, told upon the growth, and the 'bug' made its appearance in nearly every section of the Province. Some of those reporting are inclined to take a discouraging view of the outlook for pea growing owing to this pest. A few correspondents speak of a good crop, but many report the opposite. The crop continued to drop in yield, so that the final statement gives 13,521,263 bushels, somewhat under the previous year, and 15.6 bushels per acre, as compared with 19.6 bushels per acre, the average for the period."

The acreage and yield, by county groups and for the Province, are given in the following table:

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|----------------------------|---------|------------|----------|---------|------------|----------|---|------------|----------|
| | Acres. | Bushels. | Per acre | Acres. | Bushels. | Per acre | Acres. | Bushels. | Per acre |
| Lake Erie..... | 60,937 | 866,398 | 14.2 | 60,940 | 734,043 | 12.0 | 59,238 | 1,013,153 | 17.1 |
| Lake Huron.. | 119,852 | 2,151,521 | 18.0 | 123,526 | 1,990,138 | 16.1 | 91,810 | 1,956,263 | 21.3 |

The acreage of peas is less than in 1897, and the total yield also falls below the figures for that year. The average yield per acre is only 15.6 bushels, being but .1 bushel above the low yield of the preceding year, and exactly four bushels less than the average for the seventeen years. Not a single group in 1898 reached the average yield per acre of the Province for the seventeen years, while the East Midland group had only 13.4 bushels per acre. The Lake Ontario counties have the largest area in peas.

REMARKS OF CORRESPONDENTS.

(FROM THE AUGUST RETURNS.)

Colchester N., Essex : I have heard of some fall wheat having been threshed, weighing from 62 to 64 lbs. per bushel.

Gosfield N., Essex : Peas are a fine crop where grown. The farmers just turn their hogs in to fatten on them, and do not harvest the crop.

Malden, Essex : Peas are not a success on account of the bugs, which are very bad.

Mersea, Essex : Many are cutting the oats before ripening on account of the grasshoppers, which are literally swarming by the millions.

Harwich, Kent : There is more barley grown than for years. Farmers are growing it to grind for hogs instead of peas, as the bugs are so bad in the latter.

Orford, Kent : Wheat has been a splendid crop. It is a first-class sample, and has been harvested in first-class order.

Raleigh, Kent : We know of one field of Dawson's Golden Chaff which threshed out $46\frac{1}{2}$ bushels per acre.

Yarmouth, Elgin : The date of harvesting oats here, was from the 22nd to 30th of July. It was never known to be earlier in this township.

Townsend, Norfolk : There was no rain from July 1st to the 26th, when we had a good heavy shower. Crops are about all secured.

Thorold, Welland : The midge has again appeared, but not to a great extent.

Bertie, Welland : Some fields of fall wheat have been threshed, yielding 40 bushels to the acre.

Bosanquet, Lambton : The bug is the main drawback to raising peas here. Farmers are sowing them late, which avoids injury from this insect to a certain extent.

Sarnia, Lambton : We have had but one shower in about a month. Hay and fall wheat were saved in prime condition. A good deal of the wheat has been already threshed, and I hear of some testing from 62 to 65 lbs. to the bushel.

Goderich, Huron : Grain of all kinds is really the brightest and cleanest we have had for a number of years. There is scarcely any rust to be seen, and we shall have clean threshing this year.

Howick, Huron : I have never seen the oat crop freer from rust. The straw is clean and bright. Peas were much injured by frost on July 10th.

Tuckersmith, Huron : Crops are very irregular, which will apply to all kinds of grain crops this year.

Amabel, Bruce : Fall wheat is the best crop in twenty years, with few exceptions in places where it has been winter-killed. Early sown oats as a rule are a heavy and well filled crop, while late sown are dried and shrivelled up.

Greenock, Bruce : The pea weevil seems not so bad as last year. Pods are plentiful, but short and not well filled.

Kinloss, Bruce : Late sown wheat was very thin and a partial failure. Early sown was splendid.

Bentinck, Grey : Oats promised to be an enormous crop before the drouth set in, but while straw is abundant, the grain is very light.

Bentinck, Grey : The fall wheat crop was perhaps, the best ever harvested in this part of the Province, and it has been housed in the best condition. Many fields will average fully forty bushels an acre, but a portion of the crop was sown on land not suitably prepared, on which the yield was not large, which brings the general average much lower than it should be.

Glenelg, Grey : Oats ripened too quickly on account of drouth and heat. The grain will probably be light in weight, and late oats short in straw. It is difficult to estimate returns.

Sullivan, Grey : The drouth has hastened maturing. The crop will not be so heavy as appearance indicated three weeks ago.

Medonte, Simcoe : Some fields of peas have been completely killed by the drouth, and have not a filled pod in them.

Orillia, Simcoe : On some farms they will have forty bushels to the acre. I never saw fall wheat so good for years. The straw is yellow and the grain plump.

London, Middlesex : Grain ripened a little too quickly owing to drouth and heat. The berry is not so large as usual.

Westminster, Middlesex : The demand for hogs has stimulated the growing of peas, and it is far superior to corn for quality and earliness.

Blenheim, Oxford : Late peas are not worth cutting, and many fields are being plowed down or fed to cattle.

Zorra W., Oxford : The best of the fall wheat lodged. The poorer had some rust. On the whole it is a fair crop, although the sample is not so good as last year.

Elma, Perth : Early sowing appears to insure the best and heaviest crops of fall wheat in this township.

Logan, Perth : Early peas suffered much from frost ; on mucky land they were almost ruined.

Garafraxa, Wellington : A severe frost in the early part of July did serious damage on some farms. Tender vegetables were totally destroyed, and in many cases barley, oats and peas were injured.

Mulmur, Dufferin : Drouth and frost have done more or less injury to grain crops on some farms.

Clinton, Lincoln : The midge has hurt the fall wheat quite a bit. Oats ripened too fast on account of the dry weather.

Barton, Wentworth : A great many grass peas were grown this year.

Esquesing, Halton : The pea crop never looked better up to the time of blossoming. Since then heat and drouth caused them to ripen too soon, and the grain is small.

Albion, Peel : Peas are very small, and a great many pods have nothing in them.

Markham, York : The harvest is nearly finished. It is the earliest and quickest on record. Peas are somewhat shrunken from premature ripening.

Vaughan, York : There are some good fields of peas and others are very poor. Some think the frost hurt them, but I think it was the heat. They bloomed well and then wilted.

Scott, Ontario : The best crop of fall wheat in twenty-five years. Threshing has been general since the 23rd of July.

Darlington, Durham : Large quantities of peas were injured last year for seed by sprouting. Not enough allowance was made for this in sowing, which caused a thin crop in many places.

Athol, Prince Edward : Some early varieties of peas are good, but late ones are very poor, having dried up.

Crosby N., Leeds : All the grain crops are the best for a number of years, except peas, which will be only a fair yield.

Osgoode, Carleton : Owing to the rise in the price of wheat there has been double the quantity sown this year—spring wheat only being grown.

Fitzroy, Carleton : Grain crops in this township look exceedingly well. They are well filled in head, and free from rust and blight.

Lanark, Lanark : Late sown wheat did not do very well, which brings down the average.

Monaghan N., Peterborough : Early peas are good, but late ones are small, having ripened too soon on account of the drouth.

Monmouth, Haliburton : Frosts on the 10th and 11th of July did much damage to the grain crops, and the hot, dry weather almost finished the rest.

Huntingdon, Hastings : I saw six acres of peas threshed. There was an abundance of straw, but only 25 bushels of grain.

Sidney, Hastings : Early sown spring wheat was a good crop, and looked splendid ; late sown, however, is shrunk and will be almost useless for flour. The straw of both kinds is bright, and will be good for feed.

Monck, Muskoka : There was enough spring wheat to carry 20 bushels to the acre, but the crop was in many places hurt by the frost, and there will be only about two-thirds an average yield. Some will have a half yield of peas, while others are curing the crop for fodder or are feeding it green.

Perry, Parry Sound : The frost on the 11th July and the dry hot weather is having a disastrous effect on all grain crops, and it is impossible to give a fair estimate of yield. Rain is badly needed. Only a little over two-thirds of an inch of rain fell here during the month of July.

Lash, Rainy River District : On the 11th of July we suffered damage from a heavy hail storm which lasted fifteen minutes. It is the first we have met with here.

CORN.

The August bulletin had the following concerning corn : " This promises to be a fair crop in the Lake Erie counties, but in the other districts much injury has been done by the frost of the second week of July. The drouth has also told against the crop in every section of the Province. Several Middlesex correspondents refer to the large numbers of crows and blackbirds having attacked the young corn."

Corn was thus alluded to in the November bulletin : " In the more western counties of the Lake Erie group the crop was an excellent one, but from the remainder of the Province variable reports come, some describing the crop as being a good one, while neighboring correspondents report the yield and general condition as poor. Drouth and an attack of frost in July wrought considerable injury. The crop, however, turned out better than was expected earlier in the season."

The following table gives the acreage and yield of corn, by classes, for 1897 and 1898, and the total area for both years and for 1882-98 :

| Districts. | For husking. | | | For silo and fodder. | | | Total area. | | |
|---------------------------|--------------|-----------------------------|----------------------|----------------------|------------------|----------------------|----------------|----------------|------------------------------|
| | Acres | Bushels (in the ear). | Bushels per acre. | Acres. | Tons (green.) | Tons per acre. | 1898 acres. | 1897 acres. | Average 1882-98 acres. |
| Lake Erie { 1898 | 163,810 | 13,317,484 | 81.3 | 14,060 | 113,611 | 8.08 | 177,870 | 180,879 | 118,488 |
| { 1897 | 162,429 | 12,589,798 | 77.5 | 18,450 | 161,215 | 8.74 | | | |
| Lake Huron { 1898 | 22,890 | 1,619,059 | 70.7 | 16,892 | 186,998 | 11.07 | 39,782 | 44,214 | 19,898 |
| { 1897 | 23,891 | 1,562,962 | 65.4 | 20,323 | 251,836 | 12.39 | | | |
| Georgian Bay { 1898 | 3,849 | 161,488 | 42.0 | 11,195 | 122,343 | 10.93 | 15,044 | 18,753 | 5,896 |
| { 1897 | 4,155 | 213,595 | 51.4 | 14,598 | 197,216 | 13.51 | | | |
| West Midland .. { 1898 | 41,732 | 2,982,093 | 71.5 | 33,705 | 386,272 | 11.46 | 75,437 | 83,985 | 43,864 |
| { 1897 | 45,043 | 3,381,441 | 75.1 | 38,942 | 494,361 | 12.69 | | | |

| { 1897... | 335,030 | 24,663,998 | 73.6 | 209,005 | 2,669,822 | 12.77 | | | |
| { 1892-98 | 278,926 | 19,796,524 | 71.0 | 146,635 | 1,632,932 | 11.27 | | | |

There has been a decrease in the acreage of corn both for husking and for the silo and fodder, especially in the case of the latter. The average yields per acre of both classes of corn is almost an average. Corn for husking has its greatest area and highest yield in the Lake Erie counties, while corn for the silo and fodder is most largely cultivated in the St. Lawrence and Ottawa group, where it also is credited with the best average yield.

FROM THE MAY RETURNS.

Malahide, Elgin : There were a few new silos built last year, and this winter's feeding has well satisfied the owners as to their utility. The cows especially have come through looking fine where they were fed on ensilage.

Stanley, Huron : There has been a considerable amount of corn used during the winter, and with good results. Several new silos were built last summer, and the likelihood is that some more will be built this summer.

Downie, Perth : The use of ensilage and roots is becoming more universal every year. Nearly every one has a silo, or is preparing to build one.

Mara, Ontario : Several farmers here have silos which they fill in the autumn season with corn, which is the principal feed during winter.

Drummond, Lanark : Corn growing for cattle feeding is carried on by nearly every farmer in the township. Silos are gradually gaining in favor.

Eldon, Victoria : Farmers are giving more attention to cattle fattening and hog raising. We have a fine silo recently built in our township, and more are to be erected.

FROM THE AUGUST RETURNS.

Harwich, Kent : Grain harvest came on before farmers were through cultivating corn, and much of the corn had to be neglected and is weedy. Where well tilled it will be good.

Colborne, Huron : Frost on the 10th of July cut corn on low land badly. Drouth has since retarded it, so it will be late and short.

Bentinck, Grey : There was considerable damage by frost on July 11th, but it is now growing rapidly, and promises to be an average crop.

Elma, Perth : Frost on the 10th of July did serious injury to corn and other crops. The flow of milk will not reach the average for lack of corn fodder.

Hamilton, Northumberland : Corn started well, but the drouth seems to have spoiled it.

Denbigh, Lennox and Addington : Some corn was slightly injured and some fields were entirely killed by frost.

Storrington, Frontenac : July frost hurt the corn in many places, and it is the poorest crop of the season.

Leeds and Lansdowne, Leeds : It has been too dry for a first-class crop of corn. There has not been as much grown as last year.

Osgoode, Carleton : Grubs destroyed acres of corn, and a number of fields have been plowed up and sown with buckwheat.

Drummond, Lanark : Some complain of poor seed, and with good cause, as I had some of the dwindling stuff, to my sorrow.

Otonabee, Peterborough : Fodder corn is in poor condition except upon rich soil. On low land the leaves were frosted but they are reviving some, and will do all right if we had rain.

Monmouth, Haliburton : Corn is good where not injured by frost. The frost cut some of it to the ground.

Brunel, Muskoka : Corn suffered severely from frost. I have lived in Brunel twenty-eight years, and this is the first season that frost took everything from me.

Campbell and Carnarvon, Algoma : Corn is grown by only two men in this neighborhood. One has enlarged his silo and has a good crop.

FROM THE NOVEMBER RETURNS.

Gosfield S., Essex : There is only one silo in the township that I am aware of.

Harwich, Kent : There are very few silos in this locality.

Raleigh, Kent : I know of only two silos in this district.

Yarmouth, Elgin : There are very few silos in this section.

Charlottetown, Norfolk : I know of only one silo hereabouts.

Walsingham S., Norfolk : Ensilage is getting into the background.

Windham, Norfolk : Ensilage is not much in favor around here, although those who have built silos appear to be satisfied with them.

Sherbrooke, Haldimand : Ensilage corn is raised for summer feeding, and dried for winter feeding to some extent, but we have no silos yet.

Moulton, Haldimand : Silos have not come into favor, especially as hay has been so good and cheap.

Walpole, Haldimand : Three new silos went up in the neighborhood this summer.

Bosquet, Lambton : There are a few silos in this township.

Warwick, Lambton : Silos are not thought much of here.

Ashfield, Huron : Ensilage is known in practice in this township.

Colborne, Huron : There have been several silos built this year, and the corn was good.

Grey, Huron : Silos are scarce in this part of the county. The one nearest me is empty.

Morris, Huron : There is not a silo on this side of the township that I know of.

Stephen, Huron : The practice of ensilage has not been adopted.

Wawanosh W., Huron : There have been three new silos erected this fall. Corn is the only crop grown for the silo.

Arran, Bruce : Every season farmers are putting up some silos.

Brant, Bruce : The silo has come to stay.

Bruce, Bruce : Ensilage has been adopted more than usual this year.

Greenock, Bruce : Farmers are very chary about building silos. They do not seem to be satisfied with experiments.

Kinloss, Bruce : Ensilage has been adopted here to quite an extent this season.

Bentinck, Grey : There are no silos in this locality.

Sydenham, Grey : There are not many silos here.

Innisfil, Simcoe : There is only one silo in the township.

Medonte, Simcoe : Ensilage is being more generally used.

Vespra, Simcoe : Ensilage is being adopted very slowly here, but will eventually become almost the main dependence for cattle feed.

- Caradoc, Middlesex : Ensilage has not been grown in this township to any extent.
- Ekfrid, Middlesex : There are very few silos in this locality.
- Williams E., Middlesex : The silo is steadily coming into favor.
- Brantford, Oxford : Ensilage is not increasing much. There is more corn in the shock than in any other form.
- Oxford E., Oxford : There are a number of silos in this township.
- Zorra E., Oxford : No new silos have been put in this season in this locality.
- Zorra W., Oxford : Several new silos have been built this season.
- Dumfries S., Brant : A few silos have been built this year.
- Garafraxa W., Wellington : Ensilage is not common, very few having a silo.
- Waterloo, Waterloo : There are only a few silos in this section, but those who have them speak well of them.
- Woolwich, Waterloo : Ensilage has not been adopted to any great extent ; only one new silo has been built this season.
- Grantham, Lincoln : There are but few silos in this township.
- Beverly, Wentworth : Ensilage is used to a moderate extent.
- Esquensing, Halton : Silos are coming gradually into favor.
- Nassagaweya, Halton : Silos have not been adopted to any great extent.
- Toronto Gore, Peel : Ensilage has not been adopted to any great extent.
- Etobicoke, York : Nearly every farm has a silo.
- Scarborough, York : A number of silos have been put up and filled with corn.
- Vaughan, York : There are hardly any silos in this township.
- York, York : Nearly all large farms have adopted the ensilage system.
- Scugog, Ontario : There is only one silo in the township.
- Cartwright, Durham : Several new silos have been built.
- Clarke, Durham : The silo has not made very much progress here.
- Haldimand, Northumberland : Every year adds to the number of silos.
- Hamilton, Northumberland : Every year sees a few silos built, although they cannot be said to be general.
- Percy, Northumberland : A number of farmers here have silos.
- Athol, Prince Edward : A few silos have been built.
- Hallowell, Prince Edward : Silos seem to have lost their grip here.
- Marysburg N., Prince Edward : There is only one silo in this township.
- Marysburg S., Prince Edward : Ensilage has not been adopted this year as much as in former years.
- Richmond, Lennox : The practice of ensilage is waning. There is a marked falling off in the amount of corn grown.
- Pittsburg, Frontenac : Very little corn is prepared in the way of ensilage.
- Storrington, Frontenac : All the best farmers here have silos.
- Bastard, Leeds : About one-tenth of the farmers here have silos.
- Crosby N., Leeds : A few have built silos, and like them.
- Elizabethtown, Leeds : Ensilage has been considerably adopted.
- Williamsburg, Dundas : The practice of ensilage is coming more into vogue.
- Matilda, Dundas : A number of farmers have built stave silos.
- Kenyon, Glengarry : Silos are very much used.
- Caledonia, Prescott : Corn is grown in large quantities, but only a small quantity for the silo.
- Hawkesbury E., Prescott : There are but few silos in this township.
- Hawkesbury W., Prescott : Ensilage is used to a great extent. The crop generally grown is corn, planted in drills three feet apart, cut when nearly ripe and cut up immediately, and deposited in the silo.
- Cumberland, Russell : There are a few silos in this neighborhood. Corn has not been as good a crop as it was last year.
- Gower N., Carleton : I know of no new silos having been erected this year.
- Horton, Renfrew : A good many silos have been built this year and a large area of corn sown.
- McNab, Renfrew : There are very few silos in this township.
- Bathurst, Lanark : Silos are growing in favor in this section.
- Dalhousie, Lanark : There are only two silos in the township, and ensilage corn has been good.
- Drummond, Lanark : Silos are being built every year. Corn is the only crop used. Almost every known variety is used.

Eldon, Victoria : I know of no silo in this township.

Laxton, Victoria : One silo has been erected in this township.

Verulam, Victoria : There are a few silos. Corn is the only crop grown for ensilage, and it was fair.

Harvey, Peterborough : No corn is grown for the silo here. The farmers raise fodder corn, however, and dry it in the stook.

Otonabee, Peterborough : There is only one silo in this township.

Monmouth, Haliburton . Some ensilage corn has been grown here, and it has done well, but there is not a silo in the township.

Huntingdon, Hastings : Several silos have been built, but corn has not been abundant this year.

Thurlow, Hastings : Silos are not generally used. People are not planting western corn for cow feed as much as they used to do. They can get more milk by feeding common hill corn.

Medora and Wood, Muskoka : There is only one silo in this locality to my knowledge. Corn put in sheds seems to be preferred.

Thessalon, Algoma : There is only one silo in the township.

BUCKWHEAT.

This crop does not seem to be a general one, and correspondents had not much to say regarding it. The November bulletin said that buckwheat was badly affected by drouth at the time of blossoming, and frost also did considerable injury. The consequence was that the crop was a comparatively poor one, although some correspondents reported a good yield. The following table gives the acreage and yield by county groups and for the Province :

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|---------------------------|---------|-----------|-----------|---------|-----------|-----------|---|-----------|-----------|
| | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. |
| Lake Erie..... | 15,874 | 256,255 | 16.1 | 17,374 | 313,886 | 18.1 | 12,908 | 234,254 | 18.1 |
| Lake Huron..... | 5,136 | 95,744 | 18.6 | 4,046 | 99,143 | 24.5 | 1,871 | 35,523 | 19.0 |
| Georgian Bay..... | 15,193 | 246,633 | 16.2 | 12,423 | 292,469 | 23.5 | 3,817 | 73,891 | 19.4 |
| West Midland..... | 8,802 | 169,853 | 19.3 | 7,504 | 168,150 | 22.4 | 3,733 | 71,928 | 19.3 |
| Lake Ontario..... | 41,445 | 587,011 | 14.2 | 47,207 | 1,054,247 | 22.3 | 32,184 | 615,952 | 19.1 |
| St. Lawrence and Ottawa.. | 44,975 | 714,394 | 15.9 | 42,884 | 1,074,365 | 25.1 | 32,544 | 674,152 | 20.7 |
| East Midland..... | 17,460 | 280,155 | 16.0 | 19,083 | 437,215 | 22.9 | 10,941 | 207,710 | 19.0 |
| Northern Districts..... | 1,509 | 23,600 | 15.6 | 1,148 | 24,711 | 21.5 | 792 | 16,487 | 20.8 |
| The Province..... | 150,394 | 2,373,645 | 15.8 | 151,669 | 3,464,186 | 22.8 | 98,790 | 1,929,897 | 19.5 |

There has been a slight falling off in the total acreage, but the small average yield per acre has brought the total yield for the Province down to 2,373,645 bushels compared with 3,464,186 in 1897. Not one district in 1898 equalled the average yield of the Province for the seventeen years. Over one-half of the buckwheat raised in Ontario is grown in the Lake Ontario and the St. Lawrence and Ottawa districts.

BEANS.

Judging by the remarks of correspondents, beans do not appear to be increasing in popularity as a field crop. The August bulletin said that the crop was more or less affected by drouth and frost, but despite these drawbacks it would be a little above the average for yield.

The November bulletin had the following to say: "Correspondents are far from unanimous regarding this crop. However, it appears to have turned out best in the Lake Erie counties, where the bulk of the crop is grown. Frost and drouth were the chief drawbacks."

The acreage and yield of beans are given in the following table by county groups and for the Province:

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|----------------------------|--------|----------|-----------|--------|----------|-----------|---|----------|-----------|
| | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. |
| Lake Erie..... | 34,040 | 576,897 | 16.9 | 37,017 | 711,511 | 19.2 | 27,122 | 461,662 | 17.0 |
| Lake Huron..... | 1,628 | 26,734 | 16.4 | 2,619 | 50,121 | 19.1 | 1,276 | 22,784 | 17.9 |
| Georgian Bay..... | 856 | 16,344 | 19.1 | 1,008 | 22,690 | 22.5 | 510 | 9,568 | 18.8 |
| West Midland..... | 2,031 | 34,237 | 16.9 | 2,570 | 49,784 | 19.4 | 1,692 | 29,796 | 17.6 |
| Lake Ontario..... | 2,316 | 31,709 | 13.7 | 2,814 | 53,442 | 19.0 | 2,778 | 48,283 | 17.4 |
| St. Lawrence and Ottawa... | 3,236 | 55,737 | 17.2 | 3,424 | 74,007 | 21.6 | 3,367 | 68,579 | 20.4 |
| East Midland..... | 841 | 13,294 | 15.8 | 953 | 17,103 | 17.9 | 805 | 13,464 | 16.7 |
| Northern Districts..... | 272 | 4,705 | 17.3 | 186 | 2,682 | 14.4 | 116 | 2,005 | 17.3 |
| The Province..... | 45,220 | 759,657 | 16.8 | 50,591 | 981,340 | 19.4 | 37,666 | 656,141 | 17.4 |

The average yield per acre is 16.8 bushels, which is 2.6 bushels less than that of the preceding year, and .6 bushel below the average of the seventeen years. There is also a decrease in the total acreage of beans, the result being that the total yield for the Province is 759,657 bushels, or 221,683 bushels less than in 1897. The Lake Erie group grows about three-fourths of the beans of the Province.

FIELD ROOTS.

The following opinion was expressed in the August bulletin regarding roots: "The large majority of reports as to the root crops are encouraging, the only drawback being the excessive and long-continued drouth which has retarded development in many localities. With a due amount of moisture during the remainder of the season there will be a good yield, but otherwise the crop will be a light one. Little injury has been done by insects, except that two or three correspondents refer to the ravages of grasshoppers in Muskoka and Manitoulin."

POTATOES. The August bulletin contained the following: "The potato crop will be considerably below the average in most localities owing to the late frosts in June and July, which were very destructive in the Northern Districts and some low-lying lands elsewhere, and the more recent drouth, the effects of which have been generally felt throughout the Province. A good yield is anticipated in the St. Lawrence counties, where the conditions have been more favorable, and timely rains may bring some improvement in the case of late-planted crops. The ravages of the beetle are noted by some correspondents as an additional cause of the shortage, and blight has appeared in a few sections."

Potatoes were thus referred to in the November bulletin: "The potato crop is light throughout the Province, owing to the effects of the late frosts and the protracted drouth. Early potatoes suffered most severely, being a complete failure in many instances. The quality of the crop secured is almost uniformly good, and but few cases of rot are reported; neither do the ravages of the potato bug appear to have been so destructive as formerly. The yield was nearly all out of the ground as correspondents wrote, except in a few localities where delay has been occasioned by wet weather."

The following table gives the acreage and yield of potatoes by county groups and for the Province :

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|----------------------------|---------|------------|-----------|---------|------------|-----------|---|------------|-----------|
| | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. |
| Lake Erie | 17,664 | 1,660,236 | 94 | 17,840 | 1,189,427 | 67 | 16,631 | 1,655,854 | 100 |
| Lake Huron | 13,274 | 1,093,384 | 82 | 13,851 | 1,141,532 | 82 | 12,873 | 1,437,265 | 112 |
| Georgian Bay | 15,063 | 1,415,615 | 94 | 15,811 | 1,495,833 | 95 | 14,397 | 1,782,944 | 124 |
| West Midland | 29,506 | 2,444,776 | 83 | 30,527 | 2,481,296 | 81 | 27,861 | 3,243,732 | 116 |
| Lake Ontario | 37,258 | 2,958,583 | 79 | 38,066 | 3,225,326 | 85 | 33,586 | 3,640,868 | 108 |
| St. Lawrence and Ottawa .. | 38,963 | 3,402,535 | 87 | 35,883 | 4,334,533 | 121 | 38,192 | 4,609,737 | 121 |
| East Midland | 12,947 | 920,787 | 71 | 12,436 | 1,491,041 | 120 | 12,361 | 1,450,596 | 117 |
| Northern Districts | 5,272 | 462,709 | 88 | 4,919 | 741,809 | 151 | 3,683 | 527,608 | 143 |
| The Province | 169,946 | 14,358,625 | 84 | 169,333 | 16,100,797 | 95 | 159,584 | 18,348,634 | 115 |

The acreage of potatoes is slightly larger than in the preceding year, but the total yield is only 14,358,625 bushels, or 1,742,172 bushels less than in 1897, and 3,990,009 less than average for the seventeen years. This is owing to the very poor average yield, which is but 84 bushels an acre, compared with 95 bushels in the preceding year and 115 bushels for 1882-98. The St. Lawrence and Ottawa group has resumed its place in the lead in the matter of acreage.

MANGEL WURZELS. The following appeared in the November bulletin : " This has probably been the most successful of any of the root crops during the past decidedly unfavorable season, yielding well in most parts of the Province. Several correspondents point out that mangels have stood the continued drouth better than turnips, though the size, of course, is smaller and the plant more rooty than would have been the case with a more even distribution of moisture. Very little of the crop remains to be taken up."

The acreage and yield of mangels is given in the following table by county groups and for the Province :

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|----------------------------|--------|------------|-----------|--------|------------|-----------|---|------------|-----------|
| | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. |
| Lake Erie ... | 3,675 | 1,599,488 | 435 | 3,279 | 1,277,870 | 390 | 1,868 | 777,097 | 416 |
| Lake Huron | 6,952 | 3,220,740 | 463 | 6,155 | 2,688,763 | 437 | 3,401 | 1,564,345 | 460 |
| Georgian Bay | 2,546 | 1,080,758 | 424 | 1,770 | 793,134 | 448 | 1,180 | 499,848 | 424 |
| West Midland | 15,703 | 7,793,647 | 496 | 13,690 | 5,965,785 | 436 | 8,195 | 3,830,253 | 467 |
| Lake Ontario | 11,012 | 4,951,899 | 450 | 9,353 | 4,497,485 | 481 | 6,160 | 2,729,437 | 443 |
| St. Lawrence and Ottawa .. | 4,953 | 2,119,556 | 428 | 4,131 | 1,694,830 | 410 | 2,417 | 948,660 | 392 |
| East Midland | 2,834 | 1,122,397 | 396 | 2,546 | 1,103,992 | 434 | 1,735 | 714,891 | 412 |
| Northern Districts | 248 | 69,079 | 279 | 251 | 81,528 | 325 | 118 | 36,527 | 310 |
| The Province | 47,923 | 21,957,564 | 458 | 41,175 | 18,103,387 | 440 | 25,074 | 11,101,058 | 443 |

Every group except the Northern Districts shows an increased area given to mangels compared with the previous year's figures. The yield per acre is 458 bushels, being 18 bushels more than in 1897 and 15 bushels above the average for the seventeen years. The total yield is 21,957,564 bushels, which is 3,854,177 more than in the preceding year. The West Midland counties have the largest acreage in mangels.

CARROTS. Correspondents for the November crop report had not a great deal to say regarding carrots. Their remarks were thus summarized: "Where grown, carrots have, as a rule, done well, especially in the west, though affected like other root crops by the dry weather. The yield has been got under cover in good condition in nearly all localities."

The table following gives the acreage and yield of carrots by county groups and for the Province:

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|----------------------------|--------|-----------|-----------|--------|-----------|-----------|---|-----------|-----------|
| | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. |
| Lake Erie | 1,387 | 443,955 | 320 | 1,340 | 412,414 | 308 | 904 | 283,198 | 313 |
| Lake Huron | 1,025 | 383,273 | 374 | 1,075 | 390,355 | 363 | 1,028 | 371,598 | 361 |
| Georgian Bay | 937 | 323,882 | 346 | 786 | 267,301 | 363 | 1,026 | 370,885 | 361 |
| West Midland | 2,037 | 756,726 | 371 | 2,392 | 898,505 | 376 | 2,244 | 844,595 | 376 |
| Lake Ontario | 2,491 | 888,274 | 357 | 2,236 | 911,026 | 407 | 2,499 | 921,136 | 369 |
| St. Lawrence and Ottawa .. | 2,948 | 1,024,592 | 348 | 2,717 | 953,743 | 351 | 1,965 | 643,968 | 328 |
| East Midland | 1,129 | 377,789 | 335 | 1,074 | 450,598 | 419 | 938 | 321,289 | 343 |
| Northern Districts | 464 | 115,370 | 249 | 455 | 149,686 | 329 | 245 | 70,138 | 286 |
| The Province | 12,418 | 4,313,861 | 347 | 12,025 | 4,433,628 | 369 | 10,849 | 3,826,807 | 353 |

The number of acres of carrots grown in the Province has been increased by 393, but the acreage is still very small compared with that of the other field crops. The yield per acre for 1898 is 347 bushels, which is 22 bushels less than in the previous year and 6 bushels below the average for the seventeen years. The crop appears to be increasing in popularity in the St. Lawrence and Ottawa district, and the reverse in the West Midland group.

TURNIPS. The November bulletin said: "There has been a fair average yield of turnips, the crop thriving better as a rule in the western rather than the eastern districts. Many correspondents note the ravages of the green aphid, which seems to be especially destructive to the Swede turnip, though the drouth was the principal drawback. The recent wet weather has caused rot in some neighbourhoods. The crop has been secured except in a few places."

The acreage and yield of turnips, by county groups and by the Province, is given in the following table:

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|----------------------------|---------|------------|-----------|---------|------------|-----------|---|------------|-----------|
| | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. | Acres. | Bushels. | Per acre. |
| Lake Erie | 2,755 | 958,285 | 348 | 2,900 | 1,020,893 | 352 | 2,665 | 959,930 | 360 |
| Lake Huron | 16,735 | 7,723,601 | 462 | 16,096 | 7,800,556 | 485 | 14,499 | 6,134,958 | 423 |
| Georgian Bay | 19,994 | 8,948,576 | 448 | 18,810 | 8,746,994 | 465 | 15,073 | 6,482,744 | 430 |
| West Midland | 46,237 | 21,291,882 | 460 | 46,879 | 21,149,337 | 451 | 39,186 | 17,260,401 | 440 |
| Lake Ontario | 42,722 | 16,545,608 | 387 | 42,078 | 20,099,941 | 478 | 34,508 | 14,960,847 | 434 |
| St. Lawrence and Ottawa .. | 8,500 | 3,722,453 | 438 | 8,037 | 3,352,248 | 417 | 5,272 | 2,022,565 | 384 |
| East Midland | 11,373 | 4,402,735 | 387 | 11,097 | 4,924,296 | 444 | 7,711 | 3,011,036 | 390 |
| Northern Districts | 3,285 | 1,134,737 | 345 | 3,439 | 1,202,883 | 350 | 2,515 | 835,805 | 332 |
| The Province | 151,601 | 64,727,882 | 427 | 149,336 | 68,297,148 | 457 | 121,429 | 51,668,286 | 426 |

The yield per acre for the year is 427 bushels, which is one bushel more than the average for the seventeen years, but 30 bushels lower than the average for 1897. This makes the total yield of the Province, notwithstanding an increased area, to fall 3,569,266 bushels below that of the preceding year. The largest acreage of turnips is found in the West Midland group, which is well known as the leading beef-raising district.

SUGAR BEETS. The November bulletin, in referring to sugar beets, said that the crop was a very limited one, being grown in comparatively few localities. "The reports which mention the sugar beet are on the whole favorable, the crop being a fair one, though in some parts the beets run small. It is now practically all housed."

HAY AND CLOVER.

The prospects for clover, as correspondents wrote in May, were most favorable. Some heaving by frost—occurring chiefly in the early part of April—was reported in nearly every district, but not to so great an extent as to be considered serious; while, on the other hand, many reports described clover as looking splendid, especially in the case of new fields. Reports from the St. Lawrence and Ottawa counties were particularly good. Alsike did not stand the winter as well as red clover.

The August bulletin remarked: "Correspondents are almost unanimous in favorable comments regarding this crop. While old meadows did not do so well, newly sown fields have large yields. Three tons to the acre are frequently reported, and four and five tons per acre are also mentioned. The yield will be about one-third above the average. Many farmers cannot find room in their barns for the surplus crop. In addition to the generous yield the crop generally has been saved in first-class condition, several correspondents claiming that in this respect it is the best for many years. Cutting was earlier than usual. Alsike did not do so well as red clover or timothy, and there will be a remarkable scarcity of seed in the case of this variety."

CLOVER SEED. The November bulletin said of clover seed: "Owing the midsummer drouth the crop of red clover seed, especially in the counties west of the St. Lawrence, was very light, the midge in the Lake Erie, West Midland and Lake Ontario groups also helping to injure the crop. Alsike, on the other hand, was well spoken of in the west. In the eastern counties, however, red clover was the better crop of the two, alsike in some cases being a failure. Briefly stated, the clover seed crop in general is not up the average."

The following table gives the acreage and yield of hay and clover by county groups and for the Province:

| Districts. | 1898. | | | 1897. | | | Yearly average for the seventeen years 1882-98. | | |
|------------------------|-----------|-----------|----------------|-----------|-----------|----------------|---|-----------|----------------|
| | Acres. | Tons. | Tons per acre. | Acres. | Tons. | Tons per acre. | Acres. | Tons. | Tons per acre. |
| Lake Erie | 311,569 | 550,746 | 1.77 | 298,208 | 577,624 | 1.94 | 283,819 | 416,030 | 1.47 |
| Lake Huron | 276,401 | 486,022 | 1.76 | 266,535 | 532,224 | 2.00 | 254,168 | 353,780 | 1.40 |
| Georgian Bay | 205,823 | 352,277 | 1.71 | 191,932 | 342,191 | 1.78 | 202,567 | 265,257 | 1.31 |
| West Midland | 419,845 | 809,303 | 1.93 | 406,695 | 858,891 | 2.11 | 418,317 | 643,798 | 1.54 |
| Lake Ontario | 406,853 | 792,596 | 1.95 | 375,216 | 608,754 | 1.61 | 415,574 | 580,085 | 1.40 |
| St. Lawrence & Ottawa | 594,982 | 1,011,637 | 1.70 | 580,371 | 639,980 | 1.10 | 591,011 | 787,333 | 1.33 |
| East Midland | 157,680 | 281,842 | 1.79 | 146,541 | 166,811 | 1.14 | 162,656 | 194,739 | 1.20 |
| Northern Districts.... | 80,350 | 114,640 | 1.43 | 75,990 | 90,043 | 1.18 | 55,625 | 69,075 | 1.24 |
| The Province | 2,453,503 | 4,399,063 | 1.79 | 2,341,488 | 3,811,518 | 1.63 | 2,383,737 | 3,310,097 | 1.39 |

The yield of hay per acre is 1.79 tons, being .16 ton more than 1897, and .40 ton more than the average for the seventeen years. This, with the increased acreage, lifts the total yield from 3,811,518 tons in 1897 to 4,399,063 tons in 1898. Hay has its largest acreage in the dairy counties of the St. Lawrence and Ottawa district, but the West Midland group shows the best yield per acre for the three periods given in the table.

FROM THE AUGUST RETURNS.

Malden, Essex : There is not enough manure used on grass land.

Harwich, Kent : Hay is plentiful. There is quite a lot of old hay on hand, the price being so low that some farmers left it stacked in the fields. Clover seed is so low that farmers are pasturing their clover.

Raleigh, Kent : We had only one shower during the whole haying season.

Walsingham, Norfolk : We have had one of the best crops of hay for several years—an excellent, sweet, well-cured crop. Clover seed will be light.

Dawn, Lambton : The crop was light in this vicinity, but is worth more for feeding purposes.

Turnberry, Huron : I think as to quantity and quality it is the best crop of hay I ever saw, and I have seen nearly fifty hay harvests in Canada.

Amabel, Bruce : It was the heaviest and best crop of hay I have ever seen, and it has been safely harvested. Some of the yields appear fabulous. I had five tons off an acre and a half, and a neighbor says he had four tons off one acre, but these are exceptional.

Arran, Bruce : Hay, especially clover, never was as plentiful in this locality, and it has been saved in such fine order, except in some cases where it was too long in being cut.

Westminster, Middlesex : Saved in splendid condition. This year's seeding is not so even and good as last year's, owing to the very dry weather.

Dereham, Oxford : New clover is extra good. Old meadows are not so heavy, but hay generally is of excellent quality, as it has been fine weather for curing.

Dumfries, S., Brant : A large amount of well-cured hay has been secured.

Elma, Perth : Hay has seldom been saved in better condition.

Garafraxa, Wellington : Hay is a splendid crop, harvested in best condition. It is impossible for it to be better. Every farm has one or more stacks in addition to its ordinary supply.

Luther, E., Dufferin : There will be any amount of first-class hay for sale. Farmers will likely hold their hay over, as present prices would not pay for handling.

Barton, Wentworth : Hay was a good crop, and farmers have plowed more clover in this year than ever before, which shows wisdom.

Glanford, Wentworth : Clover grew with great luxuriance early in the season, so that there is very little hay but what is mixed. Hay is not so weedy as last year.

Trafalgar, Halton : Clover was an excellent crop, and most of it was saved in good condition, although frequent showers discolored much of it in the earlier part of haying.

Gwillimbury, E., York : A good yield got in in first-rate condition, the hot, dry weather being very favorable for hay-making.

Darlington, Durham : Early cut hay has been somewhat colored by showers. Later has been saved in splendid condition. It is the largest general yield for years.

Haldimand, Northumberland : Haying weather was never more favorable. There are many stacks of fine hay to be seen. I think we shall have to press hay and send it to a better market, as there is not stock enough to eat it.

Hamilton, Northumberland : Hay is an enormous crop. It has never been known to be so good in this district.

Ameliasburg, Prince Edward : Nearly all the hay was cut and harvested in good order, as the weather was fine. It will be double the average crop.

Richmond, Lennox : Weather conditions during harvesting were superb. Nearly all was secured without injury from rain.

Pittsburg, Frontenac : There is a large amount of clover. We never handled so much clover without getting any rain.

Yonge and Escott Rear, Leeds : The hay crop is a good one. The weather was beautiful for cutting and curing; in fact I never saw a better season for harvesting hay and clover.

Lancaster, Glengarry : We have any amount of clover this year where we used to have timothy. The season favored clover. Old timothy meadows are poor; newly seeded fields are better.

Russell, Russell : Never had a better crop, and never a more seasonable season for making.

Osgoode, Carleton : The hay crop as a whole was good, and was saved in better condition than ever before.

Pembroke, Renfrew : Hay was harvested in good condition. Clover has been an extraordinary crop all through this county.

Drummond, Lanark : Hay on new fields is pretty good, but on new meadows is very light.

Lindsay, Victoria : In this vicinity alsike clover is an abundant crop. There was plenty of bloom, but the honey bees did not frequent such fields while in bloom. Now the farmers find there is no seed, or at least not sufficient to pay for saving it.

Otonabee, Peterborough : Clover has been well saved. That of the first year has been thick and heavy, and old meadows gave a good crop.

Monmouth, Haliburton : Hay is the best saved in my experience of twenty-two years, so that it will make up for the light crop.

Sidney, Hastings : The hay crop was a splendid one, being heavy and got in in very fine condition. There is enough around here, with the good crop of straw, to last two years. Clover this year was the best crop ever grown here.

Morrison, Muskoka : Hay was brought in safely in fine condition. The dry weather made the mowing easy, as there was no extra labor about it.

Ryerson, Parry Sound : Hay has been a good crop and well saved.

St. Joseph, Algoma : Hay is a very heavy crop—perhaps the best in ten years.

Lash, Rainy River : Hay was saved in good condition, although the weather was rather showery. Clover was very fine. There is a prospect of a good second crop, as the land is in a moist condition, and cut meadows have started up briskly.

COMPARATIVE YIELD OF FIELD CROPS.

AGGREGATE YIELD OF FIELD CROPS. The following table shows the total yield of field crops for each of the past five years, and also the average of the seventeen years, 1882-98 :

| Field crops. | 1898. | 1897. | 1896. | 1895. | 1894. | 1882-98. |
|------------------------|------------|------------|------------|------------|------------|-------------|
| | bushels. | bushels. | bushels. | bushels. | bushels. | bushels. |
| Fall wheat | 23,158,713 | 23,988,051 | 15,078,441 | 14,155,252 | 16,512,106 | 18,442,511 |

| Hay and clover | 4,399,063 | 3,811,518 | 2,290,240 | 1,849,914 | 3,575,200 | 3,310,097 |

In considering the foregoing table it is well to bear in mind that the figures are the result of both acreage and yield. Of the fourteen crops named, six make a better showing than in the preceding year, namely, fall wheat, spring wheat, oats, mangel wurzels and hay. The only crops failing to equal their own figures for the seventeen years are spring wheat, barley, peas and potatoes.

* These figures are the averages for seven years, 1892-98.

AVERAGE YIELDS PER ACRE. The following table gives the average yield per acre for each of the leading field crops by county groups for 1898, and for the Province for both 1897 and 1898, together with the average for the seventeen years, 1882-98

| Field crops. | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa | East Midland. | Northern Districts. | The Province. | | |
|----------------------------------|------------|-------------|---------------|---------------|---------------|-------------------------|---------------|---------------------|---------------|------------|------------|
| | | | | | | | | | 1898. | 1897. | 1882-98. |
| Fall wheat | bush. 22.4 | bush. 24.5 | bush. 26.0 | bush. 24.5 | bush. 23.7 | bush. 24.4 | bush. 25.4 | bush. 25.1 | bush. 24.0 | bush. 25.2 | bush. 20.5 |
| Spring wheat | 14.9 | 17.0 | 16.0 | 15.5 | 16.7 | 20.4 | 17.2 | 18.0 | 17.7 | 15.1 | 15.3 |
| Barley | 29.7 | 31.0 | 27.7 | 30.5 | 28.0 | 27.5 | 26.7 | 24.6 | 28.9 | 26.6 | 25.8 |
| Oats | 36.0 | 39.0 | 34.8 | 39.7 | 36.0 | 35.8 | 31.6 | 28.6 | 36.6 | 35.5 | 34.5 |
| Rye | 14.7 | 18.7 | 16.3 | 18.5 | 15.4 | 17.1 | 15.7 | 19.2 | 16.2 | 18.0 | 16.2 |
| Peas | 14.2 | 18.0 | 15.8 | 15.6 | 14.8 | 17.4 | 13.4 | 15.0 | 15.6 | 15.5 | 19.6 |
| Buckwheat | 16.1 | 18.6 | 16.2 | 19.3 | 14.2 | 15.9 | 16.0 | 15.6 | 15.8 | 22.8 | 19.5 |
| Beans | 16.9 | 16.4 | 19.1 | 16.9 | 13.7 | 17.2 | 15.8 | 17.3 | 16.8 | 19.4 | 17.4 |
| Potatoes | 92 | 82 | 94 | 83 | 79 | 87 | 71 | 88 | 84 | 95 | 115 |
| Mangel-wurzels | 435 | 463 | 424 | 496 | 450 | 428 | 396 | 279 | 458 | 440 | 443 |
| Carr. ts | 320 | 374 | 346 | 371 | 357 | 348 | 335 | 249 | 347 | 369 | 353 |
| Turnips | 348 | 462 | 448 | 460 | 387 | 438 | 387 | 345 | 427 | 457 | 426 |
| Corn for husking | 81.3 | 70.7 | 42.0 | 71.5 | 53.0 | 57.3 | 49.0 | 36.6 | 70.9 | 73.6 | *71.0 |
| | tons. | tons. | tons. | tons. | tons. | tons. | tons. | tons. | tons. | tons. | tons. |
| Corn for fodder (green). | 8.08 | 11.07 | 10.93 | 11.46 | 9.99 | 12.82 | 10.44 | 11.78 | 11.20 | 12.77 | *11.27 |
| Hay and clover | 1.77 | 1.76 | 1.71 | 1.93 | 1.95 | 1.70 | 1.79 | 1.43 | 1.79 | 1.63 | 1.39 |

All the crops excepting rye (which ties) and peas, buckwheat, beans, potatoes, carrots and corn (both classes), show an increase over their respective averages for the seventeen years. The best yields in 1898 are thus distributed: Lake Erie, corn for husking; Lake Huron, barley, peas, carrots and turnips; Georgian Bay, fall wheat and beans; West Midland; oats, buckwheat, mangels; Lake Ontario, hay; St. Lawrence and Ottawa, spring wheat and corn for fodder; Northern Districts, rye. Potatoes reach their highest mark in both the Lake Erie and Georgian Bay groups.

RATIOS OF AGGREGATE CROPS. The ratio of total yield of each crop in 1898 is given in the following table by county groups and for the Province; 100 representing the average for the seventeen years 1882-98:

| Districts. | Fall wheat. | Spring wheat. | Barley. | Oats. | Rye. | Peas. | Buckwheat. | Beans. | Potatoes. | Mangel wurzels. | Carrots. | Turnips. | Hay and clover. |
|-----------------------------------|-------------|---------------|---------|-------|------|-------|------------|--------|-----------|-----------------|----------|----------|-----------------|
| Lake Erie | 132 | 63 | 124 | 123 | 113 | 86 | 109 | 125 | 100 | 206 | 157 | 100 | 132 |
| Lake Huron | 137 | 43 | 104 | 145 | 278 | 110 | 270 | 117 | 76 | 206 | 103 | 126 | 137 |
| Georgian Bay | 160 | 63 | 92 | 133 | 231 | 103 | 334 | 171 | 79 | 216 | 87 | 138 | 133 |
| West Midland | 133 | 52 | 96 | 135 | 200 | 88 | 236 | 115 | 75 | 203 | 90 | 123 | 126 |
| Lake Ontario | 135 | 105 | 54 | 120 | 179 | 95 | 95 | 66 | 81 | 181 | 96 | 111 | 137 |
| St. Lawrence and Ottawa | 107 | 126 | 78 | 135 | 101 | 87 | 106 | 81 | 74 | 223 | 159 | 184 | 128 |
| East Midland | 151 | 112 | 64 | 127 | 137 | 89 | 135 | 99 | 63 | 157 | 118 | 146 | 145 |
| Northern Districts | 334 | 86 | 151 | 153 | 152 | 111 | 143 | 235 | 88 | 189 | 164 | 136 | 166 |
| The Province | 136 | 95 | 78 | 132 | 149 | 95 | 123 | 116 | 78 | 199 | 113 | 125 | 133 |

The figures here presented, as in the previous table, are the results of both acreage and yield. Spring wheat, barley, peas and potatoes fail to reach the standard in the record for the Province. Fall wheat, oats, rye, mangels, turnips and hay show three figures for every group. Not one of the districts has 100 or over for all the crops comprising the table.

* These figures are the average for seven years, 1892-98.

RATIOS OF YIELD PER ACRE. The table following compares the yield per acre in 1898 with that of the seventeen years 1882-98, the latter being represented by 100:

| Districts. | Fall wheat. | Spring wheat. | Barley. | Oats. | Rye. | Peas. | Buckwheat. | Beans. | Potatoes. | Mangel wurzels. | Carrots. | Turnips. | Hay and clover. |
|--------------------------|-------------|---------------|---------|-------|------|-------|------------|--------|-----------|-----------------|----------|----------|-----------------|
| Lake Erie | 117 | 104 | 120 | 104 | 96 | 83 | 89 | 99 | 94 | 105 | 102 | 97 | 120 |
| Lake Huron | 120 | 120 | 116 | 109 | 102 | 85 | 98 | 92 | 73 | 101 | 104 | 109 | 126 |
| Georgian Bay | 121 | 110 | 107 | 104 | 94 | 77 | 84 | 102 | 76 | 100 | 96 | 104 | 131 |
| West Midland | 115 | 103 | 109 | 106 | 105 | 77 | 100 | 96 | 72 | 106 | 99 | 105 | 125 |
| Lake Ontario | 113 | 108 | 110 | 102 | 102 | 78 | 74 | 79 | 73 | 102 | 97 | 89 | 139 |
| St. Lawrence and Ottawa. | 130 | 124 | 114 | 111 | 98 | 92 | 77 | 84 | 72 | 109 | 106 | 114 | 128 |
| East Midland | 129 | 121 | 112 | 102 | 101 | 73 | 84 | 95 | 61 | 96 | 98 | 99 | 149 |
| Northern Districts | 120 | 104 | 106 | 95 | 102 | 69 | 75 | 100 | 62 | 90 | 87 | 104 | 115 |
| The Province | 117 | 116 | 112 | 106 | 100 | 80 | 81 | 97 | 73 | 103 | 98 | 100 | 129 |

Rye and turnips reach exactly 100 for the Province, and peas, buckwheat, beans, potatoes and carrots are under that figure, while the other six crops go over 100. Fall wheat, spring wheat, barley and hay show three figures in every district, but none of the groups are up to or over the standard yield for every crop.

FRUIT AND FRUIT TREES.

Under date of May 2nd reports were sent in regarding vegetation, and these returns were summarized as follows: "Correspondents differ greatly in their opinions as to the condition of vegetation, some considering growth as being well advanced for the time of year, and fully as many others regarding the season as being rather backward. In most sections there was a fair bite for cattle at the beginning of May, and fruit trees were coming nicely into bloom with promise of an abundant yield, although the tent caterpillar was appearing in large numbers, and a green aphid was attacking the buds in some districts. In the eastern part of the Province the season was relatively more advanced than in the west."

The bulletin published in August thus dealt with the question of fruit growing: "The apple harvest will be a light one this season, the yield in most cases being considerably below the average. This is attributable, among other causes, to heavy rain storms occurring while the trees were in bloom, which interfered with fertilization, and to the prevalence in many neighborhoods of the tent caterpillar and other destructive insects which have wrought much damage where spraying has been neglected. Much of the fruit is small and hard owing to the drouth. Winter apples will be particularly scarce. Plums, while yielding fairly in some parts, have sustained a good deal of injury in many places from the attacks of the curculio, and the yield as a whole will be below the average. Peaches, as a rule, have done but poorly, and the crop will be small. Pears have been the most successful of the larger fruits, and are likely to be abundant. There was a good yield of cherries, although some losses from black knot are noted. Grapes will also be plentiful. The drouth proved injurious to small fruits, which promised an immense yield. Strawberries yielded fairly, but raspberries were small and dry."

The November bulletin contained the following: "Fruit trees and vines are in a generally healthy and thriving condition, the principal causes of injury noted being storms, blight and, in the cases of plums and cherries, black knot. There were many causes which adversely affected the fruit crop. The drouth and frost inflicted considerable injury during the earlier stages of its development, and much loss has also been

caused by insect pests. The apple crop in particular suffered much from worms, much of the fruit being affected in unsprayed orchards. The tent caterpillar also did injury. Several correspondents note the fact that where spraying was properly attended to these pests were kept in check, and good crops of fruit secured. Notwithstanding all disadvantages the returns from all over the Province, with the exception of a few northerly counties, show that the supply of fruit, more especially of apples, was considerably more than sufficient for home consumption, very large shipments having been made to England and the United States from the western fruit growing section. Pears, peaches, plums and small fruits were also shipped from many localities. There was great variation as to quality, much of the yield being spoken of as inferior."

The acreage in orchard and garden, and in vineyard, is given in the following table by county groups and for the Province :

| Year. | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. |
|-------------------------|------------|-------------|---------------|---------------|---------------|--------------------------|---------------|---------------------|---------------|
| | acres. | acres. | acres. | acres. | acres. | acres. | acres. | acres. | acres. |
| Orchard and garden | 65,631 | 35,983 | 25,648 | 58,954 | 93,894 | 35,314 | 17,512 | 3,084 | 335,420 |
| Vineyard | 3,069 | 471 | 427 | 574 | 5,007 | 405 | 106 | 59 | 10,118 |
| Totals { 1898..... | 68,700 | 36,454 | 26,075 | 58,928 | 98,901 | 35,719 | 17,618 | 3,143 | 345,538 |
| { 1897..... | 66,234 | 36,453 | 25,770 | 57,830 | 96,728 | 34,575 | 16,864 | 2,987 | 337,441 |
| { 1896..... | 61,496 | 34,514 | 24,224 | 56,382 | 94,036 | 31,066 | 15,744 | 2,660 | 320,122 |
| { 1895..... | 60,141 | 33,210 | 22,729 | 55,442 | 91,863 | 30,454 | 16,813 | 2,135 | 312,787 |

Every group shows an increase in the number of acres given to orchard, garden and vineyard, 345,538 acres now being devoted to fruit, of which 10,118 acres are in vineyard. The Lake Ontario and Lake Erie groups furnish nearly half the acreage given to fruit in Ontario.

FROM THE MAY RETURNS.

Colchester S., Essex : All our orchards at present are being examined for the San José Scale. So far as I can learn none have been found in this township.

Gosfield S., Essex : Fruit trees are looking well, with every indication of an abundance of fruit of every kind.

Tilbury N., Essex : A large number of fruit trees have succumbed to the blight of last summer.

Camden, Kent : Not much spraying has been done in this section, but many farmers are making enquiries after this work, and no doubt there will soon be many at it.

Harwich, Kent : I never saw the fruit trees in this locality look better. If blows or blossoms are any indication the peach crop will be an abundant one.

Canboro', Haldimand : Fruit trees are in a very good condition, except the common red cherries, which are nearly all destroyed by black-knot.

Turnberry, Huron : I think that every fruit tree in the township should be sprayed, but although your Department has scattered broadcast information regarding the mode of spraying and the different mixtures, I find that many are either afraid of making mixtures, or are afraid of the expense. I believe that if eight or ten experts at the business were to go around with their appliances through each township and charge a fair rate per tree, there would be money in the business.

Sullivan, Grey : The late winter was exceptionally mild, and hence we are likely to have an extra number of pests to contend with. Insect life in every form is abundant. Young grasshoppers are already abundant. Caterpillars over an inch long were numerous in orchards and woods over three weeks ago. If ever spraying was needed it will be this spring.

Ekfrid, Middlesex : Fruit trees are looking well at present, and promise an abundant crop, but we must fight insect and fungous enemies vigorously. The black-knot on the cherry is very hard to conquer, or the only cure—cutting away—leaves but little of the tree standing.

Beverly, Wentworth : The Government inspector has been all over this township looking for the San José Scale, but has not found any.

Gwillimbury E., York : The fruit trees are full of buds, and some now in blossom, with plenty of tent caterpillars.

Scarboro', York : There is going to be plenty of bloom on apples, plums and cherries, and the caterpillars are going to be as numerous as ever. I noticed to-day that the bud-moth had got to work, and there are also dozens of green lice around where the buds are opening, but what injuries they will do I am not able to say at present.

Brock, Ontario : Fruit trees are looking very well, but on close examination there appear to be a lot of lice or aphides on the buds, which will require spraying to kill them.

Cavan, Durham : Fruit trees are seriously threatened by caterpillars.

Brighton, Northumberland : On this farm strawberries were in blossom on April 24th. At present there is a fine prospect of a good crop of everything.

Laxton, Victoria : Apple trees have been badly affected of late years with bark louse, and in looking over the trees I find that caterpillars are going to do destruction if not taken in time. The spring being warm, they have been hatched out earlier than usual.

Stephenson, Muskoka : Fruit trees are in good shape, except that some are troubled with a small green louse, which eats the centre out of the bud. Spraying will have to be more generally practised or the pest will destroy the orchards.

FROM THE AUGUST RETURNS.

Gosfield N., Essex : The vines are laden down with grapes. Never was a better year for berries.

Harwich, Kent : Leaf curl has injured peaches considerably.

Tilbury E., Kent : In quite a number of cases cherries decayed on the trees. Black-knot is pretty common.

Yarmouth, Elgin : Winter apples will be about a quarter crop. Harvest and fall apples are more plentiful, but falling fast. There is a full crop of pears, but scab and blight are destroying the trees.

Canboro', Haldimand : Apples bloomed well, but a great many fell off. The grape crop is grand ; the vines have all they can bear.

Stamford, Welland : Nothing on most of the apple trees. The crop is light and the quality will, I think, be inferior.

Stanley, Huron : Apples are not a heavy crop and poor in quality. There are very few plums, but the pear trees are fairly loaded.

Tuckersmith, Huron : Apples look well considering the dry season, though the Snow, Astrachan and some other kinds are badly spotted. Some varieties have a splendid crop, but others, including the North-ern Spy, so largely grown, are not bearing.

Sarawak, Grey : Few winter apples—not one tree in ten has any fruit on in this county—principally summer and fall fruit.

Sunnidale, Simcoe : Greatest crop of plums for years.

Westminster, Middlesex : Berries were a very fine crop. Wild berries were small, but strong growers like the Cuthbert in reds, the Gregg in black rasps and Snider in black caps, fruited very heavily.

Dereham, Oxford : There are very few winter apples, but a fair crop of early ones.

Oakland, Brant : Strawberries were very plentiful. Raspberries were scarce and injured by dry weather.

Dumfries N., Waterloo : The plums have stood the drouth better than apples, and there will be a fair average crop. The plum trees in general had a good heavy foliage which protected them.

Niagara, Lincoln : Pears are the only fruit crop that looks as well as last year.

Clinton, Lincoln : Rain at blossoming time washed the pollen from the fruit blossoms which consequently were not fertilized.

Saltfleet, Wentworth : Grapes are a heavy crop, except the Rogers varieties, which did not act well.

York, York : Apples are small and injured by scab and codling worm. Caterpillars were prevalent this spring. The spraying of apples is not general.

Darlington, Durham : Fruit trees are so infested with injurious insects, etc., that eternal vigilance and fighting are necessary to secure a crop.

Haldimand, Northumberland : We must all trim well and spray if we are to have a full crop of sound apples.

FROM THE NOVEMBER RETURNS.

Mersea, Essex : The apple crop was hurt considerably from blight and insects. None of the fruit was hurt from frost and hardly any from storms.

Southwold, Elgin : Frost kept off remarkably well this fall. Plenty of fruit for home consumption, and a great many apples shipped away.

- Yarmouth, Elgin : Blight very bad on pear trees. Supply of apples not sufficient for home consumption.
- Walsingham S., Norfolk : Abundance of fruit of all kinds ; a great surplus of apples to ship.
- Dunn, Haldimand : The scab and codling moth destroy at least fifty per cent. of the apple crop.
- Sherbrooke, Haldimand : Codling moth was very bad here. Even sprayed trees did not escape.
- Stamford, Welland : Fruit trees in very good condition. Apples a poor crop ; grapes good.
- Warwick, Lambton : The supply was good of berries and small fruit, but the apples were very wormy.
- Grey, Huron : Fruit is not good. Some orchards are better than others, but very little first-class fruit.
- Howick, Huron : Fruit trees are very much neglected in pruning and also in spraying. The apples are not at all what they might be—they are scabby and deformed.
- Stephen, Huron : The supply of fruit is more than sufficient for local consumption. Large quantities are left to spoil for want of a market.
- Culross, Bruce : Fruit trees of all kinds healthy and vigorous. Abundant fruit for home consumption and a surplus of fall and winter.
- Kincardine, Bruce : We suffered a great loss by insect pests and wind storms, none by blight or frost.
- Bentinck, Grey : Fruit trees are not in very good condition. The caterpillars stripped them of their leaves, and they look a little blate.
- Glenelg, Grey : The crop was exceedingly small, yet of very good quality.
- St. Vincent, Grey : Many thousand barrels of apples exported.
- Tecumseth, Simcoe : Except plums, grapes and currants, all fruits are a comparative failure.
- Vespra, Simcoe : Damage in some places from tent caterpillars and codling moth. Curculio not as bad as last year.
- Nissouri W., Middlesex : Great quantities of apples have been exported to the British markets.
- Norwich N., Oxford : Fruit trees are looking well with a little blight on pear trees. All fruit was a small crop except pears which were a drug on the market.
- Logan, Perth : A good quantity of apples has been shipped. Fall varieties turned out very well, but winter apples are somewhat wormy.
- Garafraxa W., Wellington : Trees are in a healthy state, but a few of them are bad with lice—they seem to be worst on fall trees.
- Waterloo, Waterloo : A great surplus of apples, and they are looking fine and good. Farmers are getting \$1.25 a barrel for the good winter apples.
- Mulmur, Dufferin : Early kinds were deficient ; later fruits much better.
- Niagara, Lincoln : A good many peach trees are being destroyed by a new disease termed rose leaf ; and the blue aphid has been bad on English cherry trees these two years.
- Saltfleet, Wentworth : Apples are in good shape where the trees were sprayed, but injured a good deal by leaf blight where they were not sprayed.
- Trafalgar, Halton : Trees are in good condition, but there was a good deal of loss in some trees planted this season on account of drouth.
- Etobicoke, York : The hail storm did a deal of harm to the apple crop. The fruit is decaying where they were struck by the hailstones.
- Gwillimbury N., York : Plums were abundant. Grapes very fine. Rather dry for other small fruits.
- York, York : Trees and vines are in A1 condition, and with a favorable winter we may look for a large crop of all kinds of fruit, if the trees receive proper care in the spring by spraying.
- Pickering, Ontario : There will be shipped from Port Union station this fall about 1,000 barrels of apples. The quality was only fair. The apples were badly affected by scab and sun check.
- Cartwright, Durham : Loss by insects very great where no spraying was done.
- Cramahe, Northumberland : The young fruit trees seemed to have stood the terrible drouth in the summer fairly well.
- Ameliasburg, Prince Edward : Apple crop was very light as a rule, perhaps from effects of frost, as they were better along the water than elsewhere. Other fruits were abundant.
- Winchester, Dundas : Apples were injured in the spring in many orchards, and the crop was light, but the trees seem to have recovered.
- Lancaster, Glengarry : Fruit trees of later planting of good varieties seem to be thriving, but old trees are dying away very fast.
- Caledonia, Prescott : Serious loss in some localities caused by caterpillars in June, and a general percentage by all insect pests.
- Gloucester, Carleton : Apple trees are in pretty good condition now, but they were nearly eaten up by caterpillars the first of summer.
- Thurlow, Hastings : Good young trees have made good growth.
- Tarbutt, Algoma : The fruit that we had was of the very best quality, but still it is hard to get the right varieties of fruit trees for this country.

TOBACCO.

The August bulletin had the following: "The counties of Essex and Kent have been experiencing a boom this year in the growing of tobacco. A large area has been given to this crop, and although the early part of the season was too dry for best results the plants in many cases are quite promising. While many of the growers are practically without experience, the general opinion appears to be that the crop will be a fairly successful one in that particular section. Grasshoppers and the "worms" of the sphinx moth are reported to have done injury to the plants. Correspondents also report tobacco as being grown in the counties of Prescott, Lanark, York, and Lennox and Addington, and on St. Joseph Island, and other sections are also becoming interested in the crop."

November reports were to the following effect: "This crop has turned out well. The season for setting out plants was rather dry, but the general growth was good, and a large quantity of leaf was obtained. A little late planted was caught by frost, but the bulk of the crop escaped. Correspondents speak favorably of the curing. The 'worm' was the worst enemy of the crop."

TOBACCO CROP IN ONTARIO, 1898.

| | Acres. | Pounds. | lb. per acre. |
|----------------------|--------|------------|---------------|
| Essex..... | 5,086 | 7,095,970 | 1,395 |
| Kent..... | 2,140 | 3,013,120 | 1,408 |
| Other countries..... | 645 | 451,500 | 700 |
| The Province..... | 7,871 | 10,560,590 | 1,354 |

FROM THE MAY RETURNS.

Colchester N., Essex: Many farmers are going into raising tobacco, which will necessitate the employing of extra hands.

Gosfield N., Essex: Tobacco growing will be all the rage here this summer.

Pele Island, Essex. A large number are going to grow a patch of tobacco this year, as our soil and climate are well adapted for its growth. What was grown last summer paid the growers well.

Harwich, Kent: There will be a lot of tobacco planted in this locality this season. The soil and climate seem to be favourable to it.

Raleigh, Kent: There will be less beans grown this year than usual, as tobacco will be all the craze. Some farmers intend to plant as much as twenty-five acres or more, but from five to ten acres will be grown on about every other farm.

FROM THE AUGUST RETURNS.

Colchester N., Essex: The crop will be a medium one. It was dry at setting time. Early set plants are doing well; some are setting out yet.

Colchester S., Essex: Fair to very good. It was too dry at the time of planting, and a good deal of replanting had to be done.

Gosfield N. Essex: There is a large area planted, and it looks all right generally although there are some sickly patches. The sphinx moth worm and grasshoppers have done a little damage.

Gosfield, S. Essex: Plants are very uneven. Weather has been very dry and worms are in full force.

Malden, Essex: Plants are not uniform. It was too dry.

Mersea, Essex: Tobacco is in fair to good condition, although it has been rather dry for the crop and grasshoppers are eating the plants.

Pele Island, Essex: Early planted tobacco looks well; later is poorer. The first part of July was too dry for the plants.

Camden, Kent: Early planted looks well, but late planted look away behind. Very few farmers have had experience in growing this plant.

Harwich, Kent: Tobacco has been somewhat backward on account of drouth at time of planting, but recent rains are making the crop look splendid. Tobacco worms have been bad.

Orford, Kent: Tobacco has every appearance of being a good crop.

Raleigh, Kent: A large number are now getting their first experience in growing tobacco. Early planted is very good, but late planted is poor. The worm has been a little troublesome.

Scarborough, York: I have seen only a small number of plants which were mailed me on July 1st, out of which I have a few plants which are doing nicely.

Denbigh, Lennox and Addington: Excellent except where hurt by frost. Only small quantities are used for home use.

Drummond, Lanark: Am growing a few plants for trial, and they are doing well.

FROM THE NOVEMBER RETURN.

Colchester, Essex : Tobacco is a splendid crop, and will average about 2,000 pounds to the acre. The first crop was cut long before any frost, and most of the second would have been, but owing to the low price being offered a great part of the second crop will not be saved.

Colchester, Essex : This part of the country has had a complete change in the season's work. The high price for tobacco last year set farmers wild, and a large area was sown, running from one to sixty acres with some, while scarcely a farm is without its small patch. The acreage is really more limited than expected, as fully one-fifth of the land planted became vacant owing to plants not starting for want of moisture.

Colchester, Essex : Tobacco has been a good crop, but the douth was bad for setting, causing an uneven growth.

Gosfield N., Essex : Tobacco is a large crop, but it has been injured some by grasshoppers.

Mersea, Essex : Tobacco is one of the best crops for years.

Pelée Island, Essex : Old growers say tobacco is a good crop this year, except where ravaged by the worm.

Harwich, Kent : Tobacco is a good crop and well saved generally, although some planted more than they could care for.

Harwich, Kent : Tobacco is a good crop. The tobacco worm or green grub was a source of annoyance. Where the crop was well attended to it gave a good return.

Orford, Kent : A good deal of the tobacco is poor, many patches having been frosted.

Thorold, Welland : There have been a few trials with a large growth.

Howick, Huron : There is very little tobacco grown here. A few of the Germans grow it for their own use, and it was a good crop this season.

Westminster, Middlesex : Tobacco is not generally cultivated, but it has done remarkably well. The plant suffered to some extent from the tomato worm.

Hawkesbury E., Prescott : Tobacco is cultivated in small plots, and is a fair crop.

Glamorgan, Haliburton : Tobacco is not grown here except for the flower (*Nicotiana affinis*).

FLAX.

Owing to a number of western flax mills having closed down during the last two years the acreage of flax has fallen off greatly. The crop will be only middling in quality, frost and drouth having told upon both seed and stalk. The area in flax dropped from 16,240 acres in 1897 to 10,720 acres in 1898.

FROM THE AUGUST RETURNS.

Plympton, Lambton : There is a pretty good crop, but there is not much grown.

McKillop, Huron : There is no flax grown here this year, as the mill is closed up.

Wawanosh E., Huron : Flax is in good condition, but not much has been grown this year, as the crop was not profitable last year.

Turnberry, Huron : There is a very heavy crop of fibre. The crop of seed will be affected somewhat by frost. However, it will be a good all round crop.

Holland, Grey : Flax looks well, but only small patches are raised.

Zorra, E., Oxford : Flax is all right where sown in good time. Late sown is injured by frost and drouth.

Elma, Perth : Flax is a fair crop this season, but it has not been so much sown as formerly on account of the flax mills being shut down in this locality. Farmers are tired of pulling flax by hand and selling for \$7 or \$9 per ton.

Wallace, Perth : Not so much has been sown on account of the flax mill at Listowel being closed. Flax has suffered somewhat from the frost.

Ramsay, Lanark : Flax is in good condition, but only a little is grown.

FROM THE NOVEMBER RETURNS.

Stephen, Huron : Flax is not as much cultivated this year as formerly.

Stephen, Huron : Thousands of acres are sown every year to flax. There are no less than four flax mills in the township. The flax dealers buy it from the farmers by the ton. Of course it is a little ready money to a man, but then it is very hard on the land, as everything is drawn away and no return is made to the soil. I consider this is a poor way to farm.

Wawanosh E., Huron : A number of acres of flax are grown in this section, and this year the crop turned out fairly well. The price for the raw material at the mill is considered poor, and that is one reason why it is not grown. There is more pasture and more feeding of cattle year by year, and less raising of cereals.

Biddulph, Middlesex : There is a flax mill at Lucan, and consequently a considerable acreage of flax is grown. It is generally grown upon old rough pastures, the first crop after being plowed up, and is considered profitable—more so than anything else on that kind of land.

Blanshard, Perth : A considerable amount of flax is sown in this township and seems to be a paying crop. The men who run the mill rent a field and supply seed and hands to pull the crop when ripe. The farmers do the rest of the work and hauling to mill, and are paid about \$12 to \$15 per ton.

HOPS.

This crop is confined to a few sections, and, while having suffered from the drouth, appears to be freer than usual from the attacks of the aphid.

FROM THE AUGUST RETURNS.

Wawanosh E., Huron : A few hops are raised, and are in good condition, although it has been too dry and hot.

Brant, Bruce : Hops are not generally grown. There is only one yard near here.

Eramosa, Wellington : My hop yard is looking very well. The frost has not done any damage so far.

Hamilton, Northumberland : Hops are almost a failure on account of drouth.

Brighton, Northumberland : The crop will be a poor one, as it has been affected by both drouth and lice.

Ameliasburg, Prince Edward : Hops will be a middling crop. After the early rains the ground became very dry.

Denbigh, Lennox and Addington : Hops are in good condition. Only small quantities are raised for local consumption.

Augusta, Grenville : Hop are promising well. The vine is heavy, and there is no aphid as yet or mildew.

Edwardsburg, Grenville : Hops make a good show at present.

Algona S., Renfrew : Hops are in good condition. Just enough for home use are raised.

FARM SUPPLIES IN THE SPRING.

In summing up the reports just received the May bulletin said ; " There appears to be a surplus of hay in nearly every section of the Province, but more especially in the west. Much of the crop is not of good quality, although, of course, there is a fair amount of first-class hay yet to be had. Owing to the large quantity available for sale prices were low all winter. Reports regarding oats vary, for while many claim that there is a scarcity, others hold that there is still a good supply left. Oats were fed more freely than usual during the winter, and during the last few months a large quantity was marketed, consequently there was hardly as much as usual in the hands of farmers at the beginning of May. 'Dollar wheat' created an active market, and during the last month an immense quantity has changed hands. It looks as if nearly all the crop has been disposed of in some quarters, although farmers are occasionally spoken of as having from fifty to a few hundred bushels of wheat ready for a further rise in price. Store cattle are said to be scarcer than usual, but in some places 'equal to the demand.' Complaints are made of the low price for beef, especially when offered for fat animals, and many of this class of cattle are being kept for better figure in some of the western counties, and consequently there are rather more in the hands of farmers than are desired ; but in the eastern counties fat cattle are scarce."

FALL PLOWING.

"The progress made in fall plowing up to the first week of November" said the bulletin issued in that month, "has been highly satisfactory and in advance of most seasons. The soil in most places during the earlier part of the fall was too dry to be favorable for plowing, but the late heavy rains have brought it into splendid condition, and where farmers have not been too busy with harvesting or other departments of farm work requiring immediate attention they have taken advantage of the opportunity, and in many quarters the fall plowing is already finished or nearly so. In some parts, more particularly in the eastern section, the work has been considerably retarded by the rainfall which has rendered low-lying lands unworkable. The indications are that the area plowed will be greater than usual."

THRESHING AND MARKETING.

The November bulletin said: "Threshing was undertaken earlier than usual this season, and in most cases is already finished, very little remaining to be done. Marketing has been slow in most sections, as, on account of low prices for wheat there is a disposition among farmers to hold for a rise—few selling except when compelled to do so. The great bulk of the coarse grains is fed to stock, the growers as a rule finding it more profitable to dispose of them in this form, but the surplus of oats, peas and barley are finding a ready sale at good prices. The figures offered by buyers in some localities are stimulating sales."

FARM IMPROVEMENTS.

November reports were to the following effect: "Good progress has been made in underdraining, especially in the western sections of the Province. There is an adequate supply in nearly all localities, excepting in some of the eastern counties where open draining is the rule—and few complain as to the scarcity of skilled labor. Tile draining machines are very little in use, and the general opinion is against them on the ground that they cannot be operated successfully except where the soil is free from stones. The past season has witnessed substantial advancement in fencing and the quality of farm buildings, the most noteworthy features being the substitution of wire or straight rails for the old style snake fences, and the adoption of stone basements with cement floors for barns. There is a general disposition to discontinue the use of barbed wire in favor of woven wire fencing."

FROM THE NOVEMBER RETURNS.

Colchester, Essex: Great improvement is being made in fencing, chiefly in the different kinds of wire fence. The improvement in farm buildings is increasing yearly.

Mersea, Essex: Great improvements are being made in farm buildings and fencing. The new fences are nearly all being made of wire.

Orford, Kent: There is a wire fence boom on just now. Everybody who can afford it, and some who cannot, are putting up more or less of this kind of fencing, and it looks nice, too. Buildings are being improved constantly.

Yarmouth, Elgin: A great quantity of wire fence has been put up, and also a number of basement barns and stables.

Walpole, Haldimand: Straight fences, some rail and some wire, are taking the place of the old worm fence. A number of barns have been put up lately, most of them with basements.

Thorold, Welland: Fencing is now nearly all of wire, which is cheap, and can be put up in a more permanent form. Cement is being used in the erection of some farm buildings.

Dawn, Lambton: Wire is used very extensively on the older farms, and in a few years there will be no rail fences. There is great progress in farm buildings—so much that a man having travelled through here ten years ago would scarcely believe the change.

Ashfield, Huron: A great many are raising their barns and putting stone foundations under them.

Hullett, Huron: Considerable fencing and building have been done. A few pig pens have also been built of gravel and cement.

Stephen, Usborne : Great improvements are being made in buildings. Every man who has not a bank barn is building one. The same may be said about good fences. A smooth wire fence and wooden straps is most used.

Brant, Bruce : The old snake fence is being replaced by wire, straight and other patent fences. Fine barns and other out buildings are being put up in this locality, and also some good houses.

Glenelg, Grey : A number of first class farm buildings have been erected this summer, and most farms are being steadily improved in fencing and otherwise.

Sullivan, Grey : Frame barns and stone and brick houses are taking the place of the old log buildings.

Sydenham, Grey : More building was done last summer than I ever remember in one year before. Some houses were put up, but the work was chiefly confined to barns and outhouses.

Oro, Simcoe : About the usual amount of fencing and building has been done. Our farm buildings are improving in character.

Caradoc, Middlesex : There has been much improvement both in fencing and building. Many fine bank barns with brick foundations have gone up this year.

London, Middlesex : Many new barns have been built, and many old ones raised and placed on stone and concrete walls.

Westminster, Middlesex : Wire fences are taking the place of rails. Many of the locust hedges were badly injured by field mice where the snow drifted behind rail fences. Bank barns are all the rage, and they are very necessary where dairying is practised and roots fed.

Blandford, Oxford : Many barns have been enlarged and improved, and a good deal of wire has taken the place of the old snake fence. But barbed wire is, I think, happily going out.

Norwich N., Oxford : Many barns are being put on walls, and the basement floored with cement. They are all right, being the best floor ever made here.

Zorra E., Oxford : Considerable wire fencing has been done and a great deal of building—more than for some years past.

Oakland, Brant : More plain wire fences of excellent style are now built ; very little, if any, barbed wire fencing is now put up.

Elma, Perth : Not much fencing has been done, but a great many new brick houses have been put up, many of them with slate roofs.

Guelph, Wellington : Fences are being removed and fields enlarged. There is a great improvement in the general appearance of the country. Many farm buildings have been overhauled and renovated.

Minto, Wellington : More straight rail fences are being built, saving both rails and land. A number of large frame barns have been erected, and a few houses.

Waterloo, Waterloo : Not much building has been done this year, excepting that a few barns have been rebuilt and others changed inside. Straight fences are fast taking the place of the old worm fences. Some are using the old rails, while others prefer wire.

Garafraxa E., Dufferin : The old snake fence is rapidly disappearing. Barns are being put up in the best style, with modern improvements—with bank barns.

Glanford, Wentworth : Remodelling and enlarging frame barns, with the addition of basement stables, is steadily progressing. Hedges and wire fencing are gradually supplanting the old worm fence.

Esqueping, Halton : Quite an improvement has taken place in the matter of fencing. Wire fences have been largely put up, and quite a number of new barns have been erected with stone walls under them.

Chinguacousy, Peel : A lot of wire fencing has been done this year, and a number of new bank barns have been erected.

Gwillimbury N., York : Many farmers are putting up straight rail and wire fences. A number of large barns have been built, with commodious stone stables underneath. In fact there has been a regular barn building boom.

Markham, York : Some of the most noticeable buildings which have been erected lately are pig stys, of which several have been built.

Vaughan, York : A good deal of fencing has been done, and a goodly number of barns have been raised on stone basements.

Pickering, Ontario : There is a marked improvement in fencing and farm buildings, especially in barns. Many have pulled down their old ones, and have put up the latest improved bank barns.

Hamilton, Northumberland : Perhaps never before has there been such a number of barns repaired and built upon stone foundations within late years as is the record this year.

Seymour, Northumberland : A good deal of building has been done during the last year.

Athol, Prince Edward : Considerable improvement has been made on farms by substituting straight fences for crooked ones. Barn buildings are improving every year. Some fine new ones have been erected, and several old ones repaired.

Denbigh, Lennox and Addington : Some of our crooked worm or snake fences are giving way to straight rail and wire fences. There have been considerable improvements made lately to farmers' houses and out buildings.

Pittsburg, Frontenac : There has been a good deal of improvement in fencing and farm buildings in this township.

Augusta, Grenville : Fences are being removed in many cases. The township is over-fenced now with a poor class of stone walls and rail fences. Some new wire fences are going up, but very little is being done in new farm buildings.

Mountain, Dundas : Considerable improvement has been made in the way of wire fences. Farm buildings have also been improved, and cement floors have been put in some of our stables.

Lancaster, Glengarry : Old rail fences are disappearing, being replaced by wire fences. Not many new buildings have been put up.

Hawkesbury, Prescott : Great improvements are being made in farm buildings. There are larger barns and better houses for cattle.

Osgoode, Carleton : Fencing with wire is almost universal here. A large number of new barns on an improved principle have been built this season.

Bathurst, Lanark : Some nice fences and some first-class farm houses have been built this year.

Eldon, Victoria : Quite a number of farm buildings went up this year, and a few farmers are putting up wire fences.

Mariposa, Victoria : Wire fences are beginning to take the place of the old rail affair—woven fences are the favorites. Some new barns have been built, and some old ones widened and remodelled.

Harvey, Peterborough : There has not been much improvement in fencing, but some in farm buildings, both in houses and barns.

Thurlow, Hastings : A good deal of wire fencing has been built this year of different kinds, except the old barbed wire, which has gone out.

Morrison, Muskoka : Improvements in fencing and buildings are about as usual. Fencing consists more of wire, as rail timber is getting scarce.

Ferris, Nipissing : There is great improvement in fencing and building.

Assinack, Manitoulin : Considerable improvements have been made in fencing and buildings, and altogether farmers appear more encouraged.

Cockburn Island, Manitoulin : Very little improvement has been made in buildings, but I expect to see some in the near future, a saw mill having just been started—the first steam engine and circular saw the island has ever known.

Tarbutt, Algoma : There was quite an improvement in farm buildings. Some very fine barns and other buildings have been built this summer.

REMARKS OF CORRESPONDENTS.

RAPE.

Yarmouth, Elgin : There is a large increase in the quantity of rape sown. It has been found to be a good food for hogs as well as for lambs.

Kincardine, Bruce : I sowed about ten acres of rape this year. It was a heavy crop, the most of it being about three feet high. I feed and finish off lambs on it. It also enriches the land, as the sheep droppings are as good almost as a coat of manure.

Garafraxa W., Wellington : Rape is generally grown for fall feed and does well in our neighborhood. It puts the stock in fine trim for the winter, and gives feeders a good start. Sheep also do well on rape.

Minto, Wellington : I have found sowing two pounds of rape seed per acre broadcast among the spring grain when it was nicely up, and then rolling, gave a nice fall feed besides enriching the land, especially when pastured by sheep. When sown with grain it is apt to get too far ahead, but sown later the grain holds its own place.

Binbrook, Wentworth : We sowed ten acres of rape this year in oats, sown after the oats were up about one month, harrowed in with the sulky horse-rake ; it is making us a fine lot of sheep pasture.

Nassagaweya, Halton : Rape is grown pretty generally in this locality, principally for fattening lambs, which has become a very profitable industry in late years.

Saltfleet, Wentworth : Some Essex rape was sown in this locality as a catch crop among vineyards and orchards. I sowed about twenty acres the first week in August, and have a splendid crop of green stuff to plow under next spring.

Markham, York : Rape is grown to a large extent for fall pasturage for sheep and lambs. Much more is grown than formerly.

Mara, Ontario : Rape is extensively grown in this township, being used for fattening lambs, sheep and cattle for the early market, and it is also sometimes plowed down for manure. Millet is also grown as a substitute for hay.

LUCERNE.

Seneca, Haldimand : Lucerne is gaining in our confidence, and considerable has been sown of late on heavy land with satisfactory results.

Brant, Bruce : I have grown lucerne for a number of years, and think it a highly nutritious crop for cattle or pigs if cut in the proper stage. I can get a crop no matter how dry.

Clinton, Lincoln : I have three and a half acres of lucerne mowed for seven years, and it is still good for hay. It seldom gives seed, as the midge destroys the seed.

Augusta, Grenville : Lucerne has been sown more or less by almost every farmer during the last three or four years, but it does not gain in favor. It winters poorly the first year, and many farmers do not realize the necessity of cutting the crop in June before the stalk gets woody. Very few, if any, have sown any the second time.

Horton, Renfrew : Last year I sowed an acre and a half of lucerne. The first season it did not do well, but this year I have cut it three times for soiling my cows and working horses, and it has done well. I think it would do well for a hog pasture.

VALUE OF GOVERNMENT REPORTS.

FROM THE MAY RETURNS.

Orford, Kent : The practices taught by the Agricultural College in all farm operations are being taken up by farmers so far as they are getting acquainted with them, especially in stock feeding.

Stamford, Welland : The Ontario Agricultural College, Farmers' Institutes and distribution of agricultural reports have done much to assist farmers to a better understanding of their calling, and to show us that the man who follows the leading of science is the man who is going to succeed in agriculture—other things being equal.

Plympton, Lambton : The bulletins issued by your Department and circulated among the farmers of our Province are doing a good work. In talking with farmers I notice that they make frequent reference to what such and such a bulletin said on that point. The farmer is becoming better educated and is becoming a man of thought and observation. From a trip last summer to the Government Farm at Guelph, I am satisfied that no better means could be used to introduce better methods on farms, or to remove the prejudices that still linger in some minds that science in farming is only "humbug."

Hamilton, Northumberland : Lectures at Farmers' Institutes have done much in enabling farmers to adopt improved methods of agriculture. The soiling system is now being largely adopted to supply stock with succulent food in time of drouth.

Carnarvon, Manitoulin : Butter has been wonderfully improved, first, on account of the visit of the Travelling Dairy, and second, owing to a general supply of good water, most farmers having bored wells through the rock, which is come to at various depths ; and also to having better house accommodation.

FROM THE NOVEMBER RETURNS.

Yarmouth, Elgin : Your forthcoming weed bulletin suggests the remark from me that more botany should be taught in our public schools. One of my children has passed the primary, another the leaving and another the entrance examination, and none of them can tell me the weeds as named. This is not as it should be in a farming country.

Thorold, Welland : We have a large home market for that commodity, and I have noticed that a marked improvement has taken place in the quality of the butter since the travelling dairy visited this place.

Keppel, Grey : The Government Farm at Guelph, the bulletins of your Department and the Farmers' Institutes are giving a great impulse to the farming industry.

London, Middlesex : The distribution of bulletins, etc., by our Governments is commendable. Without doubt a great many avail themselves of the same. Where read these bulletins and reports will certainly be productive of results that are good.

Williams E., Middlesex : I appreciate the reports and bulletins of your Department very highly.

Trafalgar, Halton : Bulletin 109, on Farmyard Manure, is a good one.

Brook, Ontario : Every farmer should join the Farmers' Institute and attend all the meetings held in his locality.

Pickering, Ontario : Those farmers who attend to their business, and pay strict attention to the experiments now being carried on at the Government Experimental Farms, and imitating them to a certain extent, are prospering. The farming industry has taken quite a turn for the better.

Huntingdon, Hastings : Much good is being done by the holding of Farmers' Institutes. Strange to say, those who need instruction most are those who seldom or ever attend the Institutes or read agricultural journals. The greatest need of our farmers is education in methods of feeding and caring of stock. If every farmer could be got to read the bulletin recently issued by the Agricultural College on Farmyard Manure, it would make a great difference in the products of this locality.

Campbell and Carnarvon, Algoma : In order to make farming a success "Agriculture" should be compulsory in the rural public schools as the principal science taught.

GENERAL REMARKS.

FROM THE MAY RETURNS.

Zone, Kent : Bees have come through the winter well, and are strong for the time of year.

Yarmouth, Elgin : A great many farmers now house their cattle and keep them far more comfortable than usual, which is both a paying and a humane practice.

Yarmouth, Elgin : The maple sugar crop was only about half an average. There was no frost in March—not one rough day.

Seneca, Haldimand : I have never seen the land work better than this spring. Seed was put in in extra good order. Mostly all have sown some peas, but many are keeping the remainder to put in later, or, as they remark, “sow them in the moon,” or rather in the full moon of May.

Bosanquet, Lambton : Farmers are improving immensely in their methods of feeding stock. Straw is no longer the important factor it used to be in wintering live stock. Hay is now extensively fed to horned cattle, and the greater part of the coarse grains are chopped and fed to stock.

Elderslie, Bruce : I may say that the production of pork has been greatly developed during the last year or two in this section. In fact, many of our farmers are going the “whole hog” into the industry. It will be all right so long as the demand keeps up. The attractions of the Northwest are calling off many of our young men, and farm help may soon be scarce.

Bentinck, Grey : Some are talking of growing the sugar beet this year.

Proton, Grey : In the thirty-four years I have lived here I never saw as much hay and straw kept over in the spring as there is this year.

Sarawak, Grey : More farmers will sow sugar beets, as the roots of last year turned out well.

Sunnidale, Simcoe : The method of feeding has greatly changed of late, and the change is for the better. Instead of feeding roots whole, or chopping them in chunks with a spade, endangering the lives of stock, they are all pulped and mixed with cut straw and meal; the straw all being cut and the grain crushed. Very little whole grain is fed now, as farmers have found out that it pays better to grind it.

Vespra, Simcoe : There has been an exodus of our young men to the Northwest.

Westminster, Middlesex : There is room for improvement in the value of dairy produce, although cheese is moving in that direction. Winter dairying cannot be a decided success if a ton of milk will not realize enough clear cash to purchase a ton of bran.

Zorra E., Oxford : Farm help is not so scarce as was at one time expected. The rush to the gold fields takes away very few who were of any use on a farm, or for that matter or anything else.

Maryborough, Wellington : Owing largely to the low prices of coarse grains during the past few years a great number of farmers are caring for their stock in a different manner from that pursued a few years ago. Many are feeding all the coarse grains grown on the farm, making beef, dairy products and pork.

Markham, York : The English sparrows are more numerous and, of course, more annoying and destructive, while our native birds are becoming less plentiful.

Amherst Island, Lennox and Addington : Farmers to-day are more given to what used to be called “book farming.” They are going into silo building and feeding ensilage and meal to cows.

Leeds and Lansdowne, Leeds : Grain and corn are more liberally fed than in former years, and the condition of agriculture is better than last year; indeed, the prospects for the farmer are better than for years.

Osgoode, Carleton : Grain growing as a means of making money is done in these parts. Dairying and the raising of hogs are the principal things done by almost all our farmers.

Sidney, Hastings : Farm help is plentiful, although such a class of help as a good farmer would like to employ is not easily obtained.

Morrison, Muskoka : Patent fences are coming more into use, because they are rail-saving, and our rail timber is about all gone.

FROM THE NOVEMBER RETURNS.

Yarmouth, Elgin : Some Americans have started several evaporating factories here, and they are using up all the cull apples that before were marketed here.

Yarmouth, Elgin : Many of our best farmers are going more into stock farming, and a number in the vicinity of St. Thomas are devoting their whole time to supplying the city with milk, and are, generally, doing well at it.

Walsingham S., Norfolk : An evaporator began operations in September at Port Rowan, which buys apples at 20 cents a bushel, and it has awakened people to the need of spraying and taking care of the orchard.

Windham, Norfolk : It would be a great benefit if something could be done to clear the roadside of the weeds that grow there. The condition of affairs is a disgrace to the country at large and a curse to the farmer.

Canboro, Haldimand : We have a great drawback here in raising sheep. Whole flocks will be killed or wounded by dogs in a night. I think there should be a stricter law in regard to dogs. Most of the dogs are a nuisance. I think dogs away from their masters should be game.

Goderich, Huron : I have observed that draining makes a wonderful improvement in the yield of crops. I believe it would pay to thoroughly drain our farms every four rods apart.

Goderich, Huron : The farming industry is in a much more prosperous condition at present than it has been for some time. It might be better were there less combines.

Hay, Huron : I think the best method to kill weeds is to plow about three inches deep with a gang plow as soon as possible after the grain is off the field. Then harrow and let it lay until late in the fall when it should be plowed deep to turn in all the seed that has sprouted and grown.

Wawanosh W., Huron : Statute labor should be abolished. A road supervisor should be appointed, or say two in each township, men who will receive their appointment only after passing a thorough examination in roadmaking before a commission appointed by the Government, and who will be granted a diploma. We want good roads, but we must first have good men who know how to make good roads. The ordinary councillor is usually no better than the pathmaster. I believe there should also be a Government inspector of weeds, whose duty it would be to prosecute offenders, and thus protect and encourage those who are forever fighting weeds.

Greenock, Bruce : I have been growing kaffir corn this season for the first year. It does not grow so tall as most Indian or fodder corns, but it grows so stalky and leafy that the stalk of it is much heavier than those of other varieties. As a soiling or fodder crop I think it is as good, if not better, than most corns. Another thing in its favor is that it takes so little seed—the seed being small—and it is a good stooler. Cattle, and especially calves, are very fond of it. It also seems to be far less affected by the frost and drouth.

Collingwood, Grey : Many have taken up clover growing, and they find it a profitable experiment, not only for the remuneration received for the seed, but from the enriching of the soil by turning under the second crop for wheat followed by roots.

Norwich N., Oxford : Could not our educational system be so changed as to make farmers instead of teachers, doctors, etc.?

Maryborough, Wellington : Farmers are rapidly adopting improved methods in agriculture. In fact, the improvement is quite noticeable to anyone who has been familiar with farming during the last ten years. Better buildings are being erected, more care and taste are being exhibited in the arrangement of fields and the fences erected, and the cultivation of the soil is being attended to in a much more common sense and scientific manner than was in vogue a few years ago.

Mono, Dufferin : A severe frost occurred on the 2nd and 3rd of July, a thing that the oldest inhabitant cannot remember of before. In flat sections of the township most of the crops except fall wheat were frozen, and a good deal was plowed under. Potatoes suffered severely from the frost.

Trafalgar, Halton : The majority of farmers do not seed down often enough, although many are now adopting the three or four year rotation.

Gwillimbury N., York : There is a gradual and much needed change taking place in the system of farming in this township. The dairy, and the production of cattle, sheep and swine occupy the attention of farmers much more than formerly. The result is a decided swelling of the farmer's bank account, and an increase in the value of real estate.

Markham, York : The outlook for farming is better than for many years. Crops have been good and prices satisfactory.

Brock, Ontario : I think, on the whole, farming is improving. The close times are making us economize a little more. Farmers should raise a better class of live stock, and use nothing but pure-bred sires of all breeds, from the horse down to the hen.

Mara, Ontario : The condition of farmers in this township is far better to-day than it was ten years ago. They have turned their attention from grain growing to stock raising and dairying, which is a move in the right direction.

Mara, Ontario : There is more land seeded down to clover than formerly, which is, I think, an improvement, from the fact that it tends to keep the land in better order, and also prevents the spread of noxious weeds.

Pickering, Ontario : I am satisfied that red clover is the best crop a farmer can grow, not only as a paying crop in money, but it will enrich his land to such an extent that he will hardly know what to do with his barnyard manure. My farm is as rich as a garden on account of following this practice of growing clover.

Percy, Northumberland : At the present time there is every sign of a vast improvement and of prosperity in the farming industry. The land is better worked than ever before, and stock are also better cared for than in past years. Farmers are becoming awakened to the fact that in the past the land has only been half worked.

Sophiasburg, Prince Edward : Millet is grown in some quarters and is very much liked for improvement in milk production. It is also good for feeding horses while plowing. Most of the hop yards have been plowed up.

Hawkesbury E., Prescott : Hops were cultivated some years ago by many farmers but now few of them continue to do so. It seems that there is no profit in it.

Osgoode, Carleton : Some farmers grow millet to a considerable extent for feed. Flax is grown by a majority of farmers for home consumption, for the purpose of feeding calves. People are raising more calves this year than usual as there is a good demand for good cattle and bulls which are shipped to Buffalo, N.Y. I think it is a mistake to do so, for it would be better for the farmer to fatten them at home. Dairying and hog raising are the staple industries of this section.

Eldon, Victoria : As indicating the prosperity of the farmers of this township I may say that during the past season several comfortable farm dwellings have been erected, most of them of solid brick ; also several large barns with stone stabling underneath.

STATISTICS OF
THE WEATHER AND THE CROPS.

TABLE I.—Showing for each month the highest, lowest, mean highest, mean lowest and mean temperature at the principal stations in Ontario in 1898; also the annual mean for each station.

NOTE.—Fifteen years is considered the average period for apple trees to come into full bearing.

PART II.

LIVE STOCK, THE DAIRY AND THE APIARY.

LIVE STOCK.

The following is from the May bulletin: "The majority of the reports concerning live stock are of a most satisfactory character. Horses as a rule are in fine condition, although cases of distemper occurred here and there. Cattle are also reported to be in good health, but looking thinner than the abundance of fodder would warrant. Lumpy jaw was reported in one or two places, but not to serious extent. Sheep came through the winter in capital shape, and lambs are many and strong. A few cases of hog cholera occurred in some western sections, but the disease was quickly stamped out. With this exception swine are described as being in fine condition. Hogs are now chiefly sold when weighing from 120 to 180 pounds. The supply of fodder was plentiful, and there is an abundance of straw."

August reports were to the following effect: "Pasturage was excellent during the spring and early summer, and the yield of hay was large, but the recent dry, parching weather has been severely felt, many farmers being compelled to feed hay to their stock. The condition of live stock generally is good, though they are inclined to be thin in localities where the pasture is exhausted. There is very little serious disease among cattle. The attacks of the horn fly are mentioned by only two or three correspondents, and some herds in the county of Grey are affected with inflammation of the eyes, sometimes resulting in blindness. The prospects for fall and winter are highly encouraging, as there are ample supplies to winter the stock."

The November bulletin had the following concerning pastures and live stock: "Nearly all reports agree as to the general excellence of the pasturage since the heavy fall rains, though in a few cases it is reported as scanty owing to the effects of the drouth. Live stock as a rule are in good condition and almost universally healthy, very little mention being made of even the milder forms of ailment. A few cases of hog cholera are noted as having occurred in Welland. But little stall feeding has yet been done in any section, as owing to the prevalent high prices a very large number of store cattle as well as sheep and lambs have been sold off the pasture, and the stock on hand is pretty well depleted in most neighborhoods. Consequently there will be comparatively little fattening done during the winter. The most noteworthy development in the stock-raising department is the very great increase in the number of hogs raised in nearly all parts of the Province, which are being got ready for the market in great numbers. Many farmers consider it more profitable to sell them unfattened at present low prices. The supply of fodder will be ample in all parts—especially hay and corn—while roots will be scarce in some localities. There is great difference of opinion among correspondents as to the silo, the popularity of which appears to depend largely upon the department of the stock-raising industry in connection with which it is used. In the counties where cattle are raised mainly for beef it is alleged to be losing ground, while in the dairying counties, such as Oxford, Leeds and Grenville, its use is greatly on the increase. The almost universal crop for silo purposes is corn—many varieties being mentioned, including common corn, Southern Sweet, Mammoth Dent, Mammoth Cuban, and Compton's Early—grown in drills and cut when the corn begins to glaze. In the western section the ensilage corn crop was secured in good condition, but many reports from the eastern counties note a poor crop. Many farmers grow ensilage corn to use as stover or dry feed."

HORSES. The number of horses is given in the following table by classes for 1897 and 1898, by county groups and for the Province; also the number of horses in each district for each of the five years 1894-98:

| Horses. | | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. |
|------------------|--|--|--|--|---|---|---|--|---|---|
| Working horses. | { 1898 1897 | 62,704 62,511 | 43,706 44,601 | 37,853 38,849 | 82,535 84,230 | 86,334 88,989 | 80,198 79,869 | 29,082 30,171 | 8,092 7,701 | 430,504 436,921 |
| Breeding mares. | { 1898 1897 | 10,277 9,314 | 10,416 9,336 | 7,558 6,839 | 16,049 14,558 | 13,723 12,378 | 13,781 11,921 | 4,764 4,219 | 1,318 1,375 | 77,886 69,940 |
| Unbroken horses. | { 1898 1897 | 15,482 15,381 | 13,179 12,826 | 9,156 9,265 | 21,067 22,257 | 19,502 21,911 | 16,120 16,397 | 6,519 6,676 | 1,826 2,096 | 102,851 106,809 |
| Totals | { 1898 1897 1896 1895 1894 | 88,463 87,206 86,559 88,711 93,416 | 67,301 66,763 66,926 70,004 72,938 | 54,567 54,953 55,366 56,888 59,460 | 119,651 121,045 125,478 131,593 135,239 | 119,559 123,278 128,251 133,750 139,962 | 110,099 108,187 109,233 113,477 118,463 | 40,365 41,066 41,987 43,218 45,760 | 11,236 11,172 10,889 10,055 9,539 | 611,241 613,670 624,749 647,696 674,777 |

There are 611,241 horses of all classes in the Province, being 2,429 less than in the preceding year. Notwithstanding this decrease in the total there has been a substantial increase in the number of breeding mares, every group excepting the Northern Districts showing a gain. The following groups have larger figures than last year for total horses on hand: Lake Erie, Lake Huron, St. Lawrence and Ottawa, and Northern Districts. The West Midland group is this year credited with the largest number of horses, the Lake Ontario district falling to second place.

CATTLE. The following table gives the number of cattle by county groups and for the Province for 1897 and 1898, together with the total number in each of the five years 1894-98:

| Cattle. | | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. |
|-----------------------------|--|---|---|---|---|---|---|---|--|---|
| Working oxen. | { 1898 1897 | 380 361 | 153 208 | 146 374 | 134 124 | 81 101 | 227 371 | 141 137 | 518 644 | 1,780 2,320 |
| Milch cows .. | { 1898 1897 | 102,783 98,943 | 83,452 82,962 | 67,261 66,883 | 176,795 173,805 | 148,676 146,957 | 287,270 272,422 | 81,394 81,059 | 17,390 17,205 | 965,021 940,236 |
| Store cattle over 2 years . | { 1898 1897 | 40,857 39,743 | 63,382 64,570 | 34,437 38,812 | 83,612 87,170 | 42,446 47,165 | 56,612 60,471 | 17,782 20,331 | 6,567 7,144 | 345,695 365,406 |
| Young and other cattle . | { 1898 1897 | 104,057 94,759 | 123,648 120,182 | 90,605 88,500 | 193,067 183,770 | 133,152 136,885 | 170,664 170,587 | 64,021 61,791 | 24,232 23,890 | 903,447 874,364 |
| Totals | { 1898 1897 1896 1895 1894 | 218,077 233,806 223,265 214,795 215,611 | 270,635 267,922 271,510 271,183 268,713 | 192,450 194,569 198,969 202,925 201,329 | 453,608 444,869 446,468 445,280 438,413 | 324,355 325,108 333,239 326,662 310,767 | 514,773 503,851 496,718 482,681 461,882 | 163,338 163,318 163,737 162,655 161,014 | 48,707 48,883 48,052 43,922 41,572 | 2,215,943 2,182,326 2,181,958 2,150,103 2,099,301 |

From the foregoing table it will be seen that the ox has become a rare animal in most parts of the Province. Milch cows has made an increase in numbers in every district, as have also young and other cattle, but there has been a falling off in the Province

in the number of store cattle over two years old. The net result is that the total number of cattle is 2,215,943, being an increase of 33,617 over last year's figures. The Georgian Bay and Lake Ontario groups and the Northern Districts fail to show an increase in the total number of cattle compared with their own figures for 1897. The West Midland group has the largest number of store cattle and young cattle, but the St. Lawrence counties have the largest number of milch cows and the greatest total number of cattle.

Hogs. The total number of swine is given in the following table by county groups and for the Province by classes, for 1897 and 1898, together with the total for the five years, 1894-98 :

| Hogs. | | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. |
|-----------------|--|---|--|---|---|---|---|--|--|---|
| Over 1 year.... | { 1898 1897 | 51,452 45,227 | 24,510 20,737 | 23,045 19,912 | 49,441 41,990 | 40,396 34,455 | 51,755 50,149 | 19,370 17,796 | 5,079 5,213 | 265,048 235,479 |
| Under 1 year.. | { 1898 1897 | 293,979 217,429 | 144,660 106,146 | 125,036 95,456 | 292,871 223,439 | 237,008 186,810 | 187,632 147,684 | 80,407 59,336 | 14,146 13,184 | 1,375,739 1,049,484 |
| Totals.... | { 1898 1897 1896 1895 1894 | 345,431 262,656 246,189 245,169 212,536 | 169,170 126,883 121,612 120,977 99,443 | 148,081 115,368 112,105 116,711 106,648 | 342,312 265,429 268,993 276,075 231,534 | 277,404 221,265 234,467 242,425 211,781 | 239,387 197,833 190,521 193,505 182,598 | 99,777 77,132 76,091 84,211 79,368 | 19,225 18,397 19,653 20,059 18,225 | 1,640,787 1,284,963 1,269,631 1,299,072 1,142,133 |

The immense increase in the number of hogs under one year is a striking feature of the table, and this, with the increase in the number over one year, brings the total number of swine in the Province up to 1,640,787, which is 355,824 more than in the preceding year. The increase has been general in both classes in every group, except in the Northern Districts, where hogs over one year failed to reach their own figures for the preceding year. The Lake Erie group has assumed the lead over the West Midland district in the total number of hogs.

SHEEP. The following table gives the number of sheep by classes, in 1897 and 1898, by county groups and for the Province, together with the total number in each of the five years, 1894-98 :

| Sheep. | | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. |
|-----------------|--|---|---|---|---|---|---|---|--|---|
| Over 1 year.... | { 1898 1897 | 108,288 104,084 | 113,372 117,902 | 107,385 113,759 | 153,232 153,985 | 127,744 133,766 | 169,821 175,807 | 62,833 63,971 | 35,197 34,411 | 877,872 897,685 |
| Under 1 year.. | { 1898 1897 | 95,110 91,445 | 113,466 117,787 | 96,559 101,129 | 142,797 138,423 | 114,071 114,465 | 153,262 150,507 | 54,321 52,923 | 29,556 25,981 | 799,142 792,665 |
| Totals.... | { 1898 1897 1896 1895 1894 | 203,398 195,529 204,639 229,264 229,052 | 226,838 235,689 265,887 291,444 294,759 | 203,944 214,888 236,293 267,614 265,689 | 296,029 292,408 329,125 362,122 360,188 | 241,815 248,231 287,716 307,836 295,900 | 323,083 326,314 349,474 384,223 383,740 | 117,154 116,899 117,049 123,892 135,772 | 64,753 60,392 59,165 56,340 50,705 | 1,677,014 1,690,350 1,849,348 2,022,735 2,015,805 |

Although the number of sheep under one year has increased, there has been a larger decrease in the number over one year, the net result being that the total number of sheep is 1,677,014, or 13,336 less than in the previous year. The St. Lawrence and Ottawa counties still have the largest number of sheep of both classes.

THE WOOL CLIP. The following table gives the total number of fleeces, with total and average weights, by county groups and for the Province for 1897 and 1898, together with the average of the Province for the seventeen years, 1882-98 :

| Districts. | 1898. | | | 1897. | | | 1882-98. | | |
|--------------------------|----------|-----------|----------------|----------|-----------|----------------|----------|-----------|----------------|
| | Fleeces. | Pounds. | lb per fleece. | Fleeces. | Pounds. | lb per fleece. | Fleeces. | Pounds. | lb per fleece. |
| Lake Erie | 104,326 | 629,492 | 6.03 | 102,345 | 603,820 | 5.90 | 108,136 | 615,351 | 5.69 |
| Lake Huron | 111,759 | 686,475 | 6.14 | 116,959 | 697,122 | 5.96 | 127,983 | 744,016 | 5.81 |
| Georgian Bay | 107,127 | 638,416 | 5.96 | 113,952 | 664,509 | 5.83 | 120,549 | 680,484 | 5.64 |
| West Midland | 151,152 | 931,413 | 6.16 | 151,639 | 917,688 | 6.05 | 183,610 | 1,070,729 | 5.83 |
| Lake Ontario | 127,248 | 819,806 | 6.44 | 132,292 | 828,957 | 6.27 | 154,718 | 928,424 | 6.00 |
| St. Lawrence and Ottawa | 166,689 | 865,708 | 5.19 | 172,691 | 891,358 | 5.16 | 208,804 | 1,043,035 | 5.00 |
| East Midland | 62,172 | 346,831 | 5.58 | 62,821 | 353,283 | 5.62 | 67,291 | 357,467 | 5.31 |
| Northern Districts. | 34,706 | 186,545 | 5.38 | 34,304 | 183,247 | 5.34 | 19,853 | 109,245 | 5.50 |
| The Province..... | 865,179 | 5,104,686 | 5.90 | 887,003 | 5,139,984 | 5.79 | 990,944 | 5,548,751 | 5.60 |

Although the number of fleeces in the Province has decreased, the average weight per fleece has increased to 5.90 lb., which is .11 lb. more than in the preceding year, and .30 lb. more than the average for the seventeen years, 1882-98. The heaviest fleeces are to be found in the Lake Ontario counties, where the average weight is 6.44 lb.

LIVE STOCK SOLD. In the following table the number of each class of live stock sold in 1897 and 1898 is given by county groups and for the Province :

| Live stock sold. | | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. |
|------------------|--------|------------|-------------|---------------|---------------|---------------|--------------------------|---------------|---------------------|---------------|
| Horses | { 1898 | 6,067 | 6,228 | 4,122 | 8,929 | 8,403 | 7,085 | 2,672 | 898 | 44,404 |
| | { 1897 | 5,673 | 6,258 | 4,540 | 9,130 | 8,448 | 5,970 | 2,680 | 812 | 43,511 |
| Cattle..... | { 1898 | 59,336 | 83,377 | 54,092 | 143,462 | 87,281 | 80,574 | 33,436 | 10,927 | 552,485 |
| | { 1897 | 54,256 | 79,947 | 51,969 | 125,837 | 78,174 | 72,611 | 29,719 | 10,494 | 503,007 |
| Sheep | { 1898 | 80,552 | 94,617 | 77,105 | 123,805 | 106,694 | 121,563 | 38,611 | 21,292 | 664,239 |
| | { 1897 | 87,388 | 113,111 | 90,960 | 123,345 | 115,354 | 132,634 | 44,555 | 19,525 | 732,872 |
| Hogs | { 1898 | 301,857 | 175,432 | 144,162 | 377,528 | 302,498 | 181,530 | 93,275 | 16,415 | 1,592,697 |
| | { 1897 | 259,248 | 152,335 | 120,345 | 335,236 | 273,509 | 156,780 | 84,450 | 18,064 | 1,399,967 |
| Poultry | { 1898 | 551,509 | 297,771 | 216,316 | 532,899 | 638,299 | 550,991 | 182,823 | 52,159 | 3,072,767 |
| | { 1897 | 537,890 | 273,479 | 219,461 | 558,315 | 637,258 | 521,455 | 167,468 | 49,895 | 2,965,221 |

There were more horses, cattle, hogs and poultry sold in the Province during the year than in the preceding twelve months, but not so many sheep changed hands. The West Midland counties head the other groups in the number of horses, cattle, sheep and hogs sold, but the Lake Ontario district disposed of the most poultry.

REMARKS OF CORRESPONDENTS.

FROM THE AUGUST RETURNS.

Gosfield N., Essex : All summer long a number of farmers have in ensilage corn to feed their stock in case pasturage gives out.

Harwich, Kent : Live stock look well, but there is a disease affecting the cattle's eyes. A scum grows over the eyes and blinds them. I have five blind now.

Cayuga, Haldimand : Haldimand farmers are feeding hay to cows now, as very few sowed ensilage on account of the prospects for hay being so good.

Warwick, Lambton : We have four cheese factories in the township. One of them makes butter in the winter.

Morris, Huron : Fine prospects—good as could be desired.

Anabel, Bruce : The horn fly is very bad, and prevents cattle from feeding and gaining as they ought.

Bentinck, Grey : Dairy products were never so abundant as in the early part of the season, but the drouth is causing the supply to shrink very much.

Orillia, Simcoe : Pastures are dried up entirely : never saw them worse. Stock will have very poor pasture if rain does not come soon, but there will be plenty of feed for winter.

Westminster, Middlesex : Everything points to a small make of July and August butter and cheese.

Dereham, Oxford : I never saw flies as bad before ; cause of cows failing in milk more than anything.

Ellice, Perth : Pastures are very good, and the stock in prime condition, and the prospects for winter keep were seldom better.

Dumfries N., Waterloo : Dry weather has shortened our dairy products. Butter has increased in price two or three cents per pound.

Glanford, Wentworth : There has been a large make of butter and cheese.

Darlington, Durham : Pasture is all burned up now, but owing to the abundance in early part of season stock is in good condition.

Storrington, Frontenac : There is clover enough in this locality to winter all the stock.

Augusta, Grenville : Spring pastures are drying up, but second crop clover is in grand condition.

Dalhousie, Lanark : No grass at all between hoppers and drouth. Nothing for cattle.

Lanark, Lanark : The recent rains have made an improvement. Second growth clover is good.

Laxton, Victoria : Live stock of all kinds are in first-class condition. The prospect for winter keep was never better.

Monck, Muskoka : Cattle are still in good condition and will soon get the after grass. Hay plenty and straw good. Cattle pretty well sold off.

McKellar, Parry Sound : Dairy products will be far below the quantities made last year.

FROM THE NOVEMBER RETURNS.

Hullett, Huron : Our hog industry has grown to enormous proportions in this county. They eat nearly all the barley and peas and some oats, and they make so quick a return that farmers rely greatly on them.

Greenock, Bruce : This is a great locality for raising hogs. Nearly every farmer has from 15 to 60 pigs on hand. All breeds seem to be found—Tamworths, Berkshires and Yorkshires and Chester Whites, and the crosses of these. Tamworths and Berkshires, and Yorkshire and Chester Whites, seem to be the commonest crosses. The very fluctuating tendency of the hog market has a discouraging effect upon the business. A drop of from \$5.75 to \$3.75 per hundred lays the buyer open to suspicion of combining. When a farmer ventures to lay up a supply of hog food and puts in a number of pigs to feed on it, and finds at the end of that he is in a hole as to expenses, he is certainly likely to go slow again. A more steady market is required.

Markham, York : The hog industry has been a very material benefit, enabling farmers to realize good prices on coarse grains. I am of the opinion that the farmers of this locality waste too much straw. If the cutting-box were used to a greater extent much of the straw might be used as fodder, which now is tramped down and nearly altogether wasted except for manure.

Richmond, Lennox : Hog products have increased largely, but owing to the low prices now prevailing, and the higher prices for grain, there is a likelihood of a diminution in the supply of hogs. There is need of co-operation in this line.

Laxton, Victoria : There has been quite a boom in hog raising this last year. I think the business will pay, with fair prices for pork, as coarse grains grow well here, and there is the skim milk, as we have no cheese factories.

POULTRY. The following appeared in the November Bulletin: "The condition of poultry is generally excellent, though some instances of loss from hen cholera and unspecified diseases are noted. The weight of opinion is strongly in favor of the profitability of poultry keeping—always provided that they receive due care and attention, instead of being practically left to themselves as is often done. Many correspondents report a disposition on the part of farmers to take a more intelligent interest in poultry growing and provide suitable accommodation for fowls during the winter—neglect in which respect is largely responsible for want of success. Hens are regarded by most who express an opinion on the subject as more profitable than other kinds of poultry. The care required by young turkeys is a drawback to raising them extensively."

The following table gives the number of poultry, by classes, for the years 1897 and 1898, by county groups and for the Province; also the total number for each of the five years 1894-98:

| Poultry. | | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. |
|-------------|------|------------|-------------|---------------|---------------|---------------|--------------------------|---------------|---------------------|---------------|
| Turkeys | 1898 | 144,977 | 121,097 | 82,436 | 195,409 | 154,186 | 234,210 | 73,816 | 18,154 | 1,024,285 |
| | 1897 | 120,897 | 107,447 | 71,701 | 173,541 | 154,377 | 188,903 | 56,405 | 16,957 | 890,228 |
| Geese | 1898 | 51,025 | 51,958 | 51,826 | 86,677 | 80,369 | 90,421 | 33,490 | 8,569 | 454,335 |
| | 1897 | 47,030 | 51,316 | 44,348 | 79,324 | 71,506 | 80,150 | 28,974 | 7,067 | 409,715 |
| Other fowls | 1898 | 1,184,018 | 831,275 | 607,044 | 1,534,498 | 1,432,070 | 1,386,287 | 504,920 | 125,541 | 7,605,653 |
| | 1897 | 1,126,855 | 803,117 | 576,119 | 1,444,592 | 1,333,403 | 1,258,864 | 478,863 | 113,585 | 7,135,398 |
| Totals | 1898 | 1,380,020 | 1,004,330 | 741,306 | 1,816,594 | 1,666,625 | 1,710,918 | 612,226 | 152,264 | 9,084,273 |
| | 1897 | 1,294,782 | 961,880 | 692,168 | 1,697,457 | 1,559,286 | 1,527,917 | 564,242 | 137,609 | 8,435,341 |
| | 1896 | 1,128,460 | 877,044 | 632,565 | 1,553,161 | 1,490,340 | 1,403,926 | 523,304 | 125,367 | 7,734,167 |
| | 1895 | 1,092,252 | 861,992 | 635,942 | 1,537,230 | 1,559,842 | 1,417,580 | 518,100 | 129,902 | 7,752,840 |
| | 1894 | 1,029,046 | 825,368 | 651,343 | 1,498,649 | 1,501,417 | 1,420,990 | 498,690 | 127,159 | 7,552,662 |

Each district shows a considerable increase in the total number of poultry on hand. There are 9,084,273 fowls of all kinds in the Province, being an increase of 648,932, divided as follows among the various classes: Turkeys, 134,057; geese, 44,620; other fowls, 470,255. The West Midland district shows up best in the total number of poultry, but the St. Lawrence and Ottawa group has the most turkeys and geese.

REMARKS OF CORRESPONDENTS.

FROM THE NOVEMBER RETURNS.

Gosfield N., Essex: There are large numbers of poultry, chickens, ducks, geese, turkeys and guinea fowls raised and sold to the hucksters from Detroit.

Camden, Kent: The poultry on the whole is in splendid condition and profitable, especially the hen.

Raleigh, Kent: Poultry in good condition and pay well when they are properly cared for. Must have warm house in winter and good feed, warm mash, meat stuff, and green food like cabbage or mangels hung up where they can peck at it. Use sulphur and tobacco plant for lice.

Malahide, Elgin: No disease has appeared where they were properly cared for. The egg supply has been abundant and prices ruled low, average 10 cents per doz. There is a full supply for the fall and winter of dressed poultry for canning, and turkeys for export, etc.

Yarmouth, Elgin: An extra quality of poultry raised this year. They pay well.

Walsingham S., Norfolk: My experience is that good fowls pay even when their food has to be bought.

Canboro, Haldimand: Poultry has been very profitable this year. There will be a fine lot of large turkeys come from this section later.

Walpole, Haldimand : Ducks and turkeys are increasing and pay as well as anything else if managed properly.

Bertie, Welland : Poultry properly handled pay best of any farm crop or stock.

Colborne, Huron : The poultry is in good condition, and if they did not pay do you think we would keep them ?

Howick, Huron : We have very little faith in them as mortgage-lifters. A few for one's own use is well enough. There is no profit in them—they consume more than they are worth.

Tuckersmith, Huron : More attention has been paid of late years to the breeding of poultry. Plymouth Rocks, Leghorns, Minorcas, and other standard breeds each have their admirers.

Brant, Bruce : Turkeys seem to be doing well, and if properly looked after a good profit can be got for raising them.

Greenock, Bruce : Ducks, geese and turkeys are a little profit ; hens for egg production are not. In most cases hens are very poorly attended to.

Bentinck, Grey : Fowls to be profitable must be well fed, well housed and well taken care of—then they will pay.

Holland, Grey : I don't see much profit in keeping fowls, but the women must have them at any cost.

Sarawak, Grey : There is money in the hen and farmers are realizing it now.

Gwillimbury W., Simcoe : As kept by farmers their destructive habits counterbalance any profits that otherwise arise from them.

Biddulph, Middlesex : Turkeys are raised in great numbers, and only they are so hard to raise to a certain age they would be favorites. I always think they pay for the trouble by the help they give to get rid of grasshoppers and like vermin.

London, Middlesex : Profit in proportion to care given by owners.

Williams E., Middlesex : Some few make poultry pay, but the great majority neglect the hens in winter.

Norwich, N., Oxford : I think turkeys should be profitable when kept on your neighbor's farm, as they generally are.

Blanshard, Perth : Farmers seem to have most success with a limited number ; the quality being better and the profits more.

Elma, Perth : A very large quantity of turkeys, geese, ducks and chickens are kept here. They are fed and shipped to Toronto and other cities, and this year they are buying them for the English market.

Hibbert, Perth : There is a disease among hens which is getting to be serious. It generally begins with lameness and scours, then they gradually droop and die. I think it is contagious.

Guelph, Wellington : Rather more interest is being taken in poultry as a profitable branch of farm stock. Better buildings and better birds and more careful and regular attention are noticeable. As a manure producer the hen, under proper conditions, is ahead of any other class of farm stock.

Minto, Wellington : Moulded early and are in fine condition. Consider we make fifty per cent. profit. The best pay.

Garafraxa E., Dufferin : This was a bad year for turkeys, which did not do well. We lost most of them when young, as there were very few grasshoppers.

Amaranth, Dufferin : The profits are not large, considering what they destroy. I've lost my carrots and mangels by them ; worth more than they will bring.

Niagara, Lincoln : Hens give good profits if the right kind is kept, such as Leghorns, and well fed. Turkeys are hard to raise and troublesome. Ducks are no good, and geese are worse.

Barton, Wentworth : All keep more or less because they have always done so, and say "They don't pay."

Saltfleet, Wentworth : Have proved to my satisfaction that with good ordinary care a farmer can make one dollar per hen clear profit over cost of feed.

Chinguacousy, Peel : Spring chickens have been grown extensively and with good profits. Turkeys have not done very well ; a great many died in the spring.

Markham, York : If this wet cold weather keeps on, roup will surely take place if poultry is not properly housed.

Mara, Ontario : Farmers are erecting more suitable buildings and paying more attention to their poultry as to breeding and feeding, and the result is the poultry business is flourishing.

Cartwright, Durham : Hens, in my opinion, are the only poultry that pay.

Hamilton, Northumberland : Every farmer should keep a number of barnyard fowl to pick up the waste grain that otherwise would be lost. In this way poultry pays well.

Ameliasburg, Prince Edward : If kept well, each hen is worth from \$1 to \$2 per head clear of all expenses for laying purposes.

Leeds and Lansdowne Front, Leeds : It is the best paying investment for the outlay on the farm.

Lancaster, Glengarry : The women say that they pay, according to their trouble, better than our pet stock.

Osgoode, Carleton : I have kept an account of 100 hens, and charging them with feed, and not counting the eggs used in the family or the chickens raised, I have cleared fifty cents on each hen.

Wilberforce, Renfrew : For the last two or three years I have been experimenting in the fowl or poultry line, and they are one of the last things I would go at to make money out of.

Drummond, Lanark : Some disease attacked fowl this year which carried off a good many. They ceased eating, their combs turned purple and they died in a couple of days.

Mariposa, Victoria : Hens are the most profitable of all fowl kept by the farmer if properly attended to, and the Plymouth Rock the best paying breed.

Thurlow, Hastings : The country is full of turkeys. I never saw so many.

Tyendinaga, Hastings : The hen has won the confidence of the farmer, consequently there is a marked improvement each year in the care and attention bestowed.

Morrison, Muskoka : What makes poultry raising difficult with us is the prevalence of hawks, skunks and other vermin.

Thessalon, Algoma : Seem to pay well here as there is good demand.

Wainwright, Rainy River : Condition fine, and good market for eggs and birds.

THE APIARY.

The reports regarding bees, received in August, were to the following effect : " The season has been a good one for honey, bees swarming early and in some neighborhoods excessively. The supply of nectar was profuse, especially from clover, but basswood yielded little, and latterly there has been a scarcity by reason of the dry weather. The average yield will be nearly fifty lbs. per hive, and there has been a good increase in colonies. The bees are said to be in fine condition, and very little disease is reported."

The November bulletin said : " The yield of honey was only fair in the Western section, but decidedly better in the East, where the season was an unusually good one. The production of honey was much larger during the spring and early summer than later in the year, owing to the drouth, and many hives will need to be fed during the winter to keep them alive. Bees are in good condition, and very few cases of foul brood are reported."

The following table shows by county groups and for the Province the number of hives of bees kept in township localities during each of the seven years 1892-98, together with their value (including outfit) in each of the six years 1893-98 :

| Bees. | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. | |
|---------------------------------|------------|-------------|---------------|---------------|---------------|-----------------------------|---------------|------------------------|---------------|-----------|
| | No. | No. | No. | No. | No. | No. | No. | No. | No. | |
| No. of hives . | 1898 | 35,476 | 18,590 | 9,093 | 32,239 | 29,041 | 54,782 | 9,124 | 1,735 | 190,080 |
| | 1897 | 26,755 | 16,464 | 11,113 | 23,014 | 26,325 | 50,700 | 11,371 | 1,069 | 166,811 |
| | 1896 | 23,107 | 14,406 | 9,347 | 20,195 | 29,425 | 48,551 | 13,924 | 1,121 | 160,076 |
| | 1895 | 27,264 | 18,368 | 11,708 | 23,625 | 36,023 | 43,880 | 11,013 | 1,292 | 173,173 |
| | 1894 | 36,019 | 25,159 | 14,644 | 29,146 | 39,544 | 46,231 | 8,094 | 1,257 | 200,094 |
| | 1893 | 37,816 | 27,786 | 14,019 | 31,244 | 38,594 | 46,382 | 8,161 | 1,166 | 205,168 |
| | 1892 | 36,191 | 28,924 | 12,030 | 28,201 | 38,672 | 43,730 | 7,064 | 1,010 | 195,822 |
| | \$ | \$ | \$ | \$ | \$ | \$ | \$ | \$ | \$ | |
| Value of bees and outfit . . | 1898 | 177,765 | 107,291 | 52,868 | 175,700 | 161,390 | 264,436 | 49,445 | 9,154 | 998,049 |
| | 1897 | 130,369 | 94,161 | 67,966 | 131,136 | 148,273 | 248,739 | 58,579 | 5,973 | 885,196 |
| | 1896 | 120,266 | 80,435 | 52,400 | 119,940 | 162,125 | 241,521 | 70,957 | 6,764 | 854,408 |
| | 1895 | 148,386 | 104,990 | 60,630 | 140,489 | 198,504 | 217,098 | 60,884 | 7,677 | 938,658 |
| | 1894 | 179,126 | 139,685 | 78,575 | 167,578 | 207,983 | 226,867 | 44,857 | 6,903 | 1,051,574 |
| | 1893 | 201,855 | 186,265 | 72,663 | 209,213 | 222,465 | 220,952 | 42,569 | 6,963 | 1,162,945 |

There are 190,080 hives in the Province, or 23,269 more than were reported in the preceding year, although the Georgian Bay and East Midland groups fail to equal their

respective figures for 1897. The St. Lawrence and Ottawa counties have the most hives. The value of the bees and apiary outfit of the Province is \$998,049, compared with \$885,196 in the preceding year.

REMARKS OF CORRESPONDENTS.

FROM THE AUGUST RETURNS.

Malahide, Elgin : It is not a good bee year. Too dry for white clover.

McKillop, Huron : Bees wintered well, and did remarkably well the first part of season, but latterly there has been no feed for them on account of the extreme dry weather.

Culross, Bruce : Bees have done well. Good swarming and plenty of good honey.

Glanford, Wentworth : Swarming was the earliest in my recollection, May 16th, and continuing right on.

Trafalgar, Halton : This has been an excellent season for bees—the most successful in my own experience for seven or eight years.

Hamilton, Northumberland : Bees have done well, and honey will be plentiful and cheap.

Percy, Northumberland : There was almost too much swarming this season. Many yards trebled their number.

Sophiasburg, Prince Edward : A great crop of nice white honey.

Storrington, Frontenac : I never knew the bees to swarm as often. Supply of honey was great.

Yonge and Escott Rear, Leeds : Apiarists all say this has been a good season for bees and for making honey.

Gower N., Carleton : The best swarming I ever knew of. In most cases people have five for the one put out in spring.

Lash, Rainy River District : Bees not doing so well this year ; think because it is too cool and showery.

THE DAIRY.

The August bulletin said : "The general lack of fresh pasture has resulted in a marked temporary falling off in the flow of milk, and a consequent slackening in dairy operations. Recent rains have already in some neighborhoods restored the fertility of the pastures."

November reports were more favorable, as will be seen from the following which appeared in the bulletin issued in that month : "The dairying industry has been fairly prosperous, notwithstanding the drawback of low prices for cheese, one result of which is that more attention is being paid in most localities to butter-making, which many of our correspondents regard as more profitable. Better prices were as a rule obtained for butter than last season, and there appears to be a steady improvement in quality and a tendency towards combining the two branches of dairying by carrying on butter-making during the winter in cheese factories. One reason why many farmers now accord a preference to butter is that it offers the obvious advantage, as compared with cheese manufacture, of leaving them a supply of skim-milk available for young stock. Much divergence of opinion prevails as to the best breeds of milch cows. The Durham strain is by far the most popular as an 'all round' breed, and western farmers who combine dairying with stock-raising for the market very generally give the Shorthorn the preference. In the dairying counties of the eastern section, however, where the beef-making qualities of cattle are less regarded, the Ayrshire has the first place, the Durham grades coming next in favor, while Holsteins and Jerseys are more numerous than in the west."

REMARKS OF CORRESPONDENTS.

FROM THE NOVEMBER RETURNS.

Gosfield N., Essex : Most farmers patronize the cheese factory, as they get cash for their milk and less work, whereas if they made butter they would get trade only at the village stores.

Dorchester S., Elgin : The tendency seems to be to shorten the cheese-making season.

Dorchester S., Elgin : For a dairy section we are slow to build silos. There are not a dozen in the township.

Southwold, Elgin : Shorthorn Durhams are the greatest favorites, owing to the steers being more bought for fattening.

Yarmouth, Elgin : Butter is climbing. Mostly cheese yet, but butter is going to get there.

Widham, Norfolk : Dairy business has not been very satisfactory this season on account of the low price of cheese.

Cayuga S., Haldimand : Butter paid better than cheese this summer.

Thorold, Welland : Owing to the travelling dairy, much improvement has grown up in the quality and prices grew with the improvement.

Warwick, Lambton : The dairy interest has proved a failure here. The price of cheese is too low.

Ashfield, Huron : I believe more butter was made than other years.

Howick, Huron : Butter improved in quality. Cause—better and more careful feeding of milk kine.

Hullett, Huron : We have one creamery and two cheese factories, and they are not properly supported by the farmers, who do not keep enough cows, and do not feed what they have properly.

Stephen, Huron : The native cow crossed on some good milch breed, such as Ayrshire or Holstein, is considered best. Thoroughbred cows have lost favor here, as they are not hardy enough.

Turnberry, Huron : There are a good many sending to the creameries that formerly sent to cheese factories.

Derby, Grey : Cheese-making is not in favor in this locality. The farmers prefer having the skim milk for their calves.

Proton, Grey : Our farmers are raising the Shorthorn with our grades. They are considered the best for beef and make the largest for the market.

Oro, Simcoe : Dairy industry advancing in the last few years—especially butter.

Caradoc, Middlesex : The Ayrshire has given the best results as a dairy cow.

Tecumseth, Simcoe : Creameries seem to be the most profitable at present. Prices of butter better than last year and quality improving.

Essa, Simcoe : A cross between the Jersey and Durham would make a most useful and profitable experiment.

Dorchester N., Middlesex : Cheese is made from April to November, then butter all winter.

Nissouri W., Middlesex : A number of skimming apparatus and churns have been put in operation in connection with old established cheese factories for the accommodation of patrons for fall and winter.

Blandford, Oxford : Cheese is still king, but butter is making steady progress, and butter plants are being put in cheese factories for winter use hereabouts.

Oakland, Brant : Many of the largest farmers are now purchasing cream separators, and report very satisfactory results. Jerseys are losing ground and Ayrshires gaining.

Amaranth, Dufferin : Creamery at Whittington has done splendidly, about \$10,000; cheese factory at Laurel \$7,000, with September and October's product yet to sell, which should bring \$2,500 more.

Saltfleet, Wentworth : Butter has been dearer than for many years.

Saltfleet, Wentworth : Butter has been about the same price as it was last year.

Esquering, Halton : Private dairying with all its disadvantages is still the rule.

Trafalgar, Halton : The creamery and cheese factory are growing very rapidly in favor in this county.

Markham, York : Durhams are considered the best all-round cattle for the farmer.

Scarboro', York : A Jersey cross with our common cows gives the best results for butter.

Pickering, Ontario : We have mostly Shorthorn grades, so as to get large boned calves for beef.

Darlington, Durham : During the summer months cheese takes the lead.

Hamilton, Northumberland : Jerseys and Ayrshire grades are more numerous than they used to be.

Percy, Northumberland : Every farmer is in the dairy industry, and most of them in cheese in the summer and butter in the winter.

Ameliasburg, Prince Edward : Ayrshires and Ayrshire grades are in greatest favor here as milch cows.

Storrington, Frontenac : I think of late years farmers generally are in better circumstances than formerly. The factory in which my milk is manufactured realized last season \$23,250 for the cheese produced, and there will be more this season.

Leeds and Lansdowne Front, Leeds : Dairying is carried on to a very large extent. It seems to be increasing every year and a marked improvement in butter.

Augusta, Grenville : Holstein and Ayrshire are in favor here. Holsteins are more in favor than the Ayrshires.

Williamsburg, Dundas : Butter production in this county is not a circumstance as compared to cheese.

Caledonia, Prescott : We like grade Durham and Ayrshire, or Holstein and Ayrshire, best.

Fitzroy, Carleton : There is much more milk sent to the cheese factories than to the creameries.

Gower N., Carleton : The most of farmers are aiming for a cross between Durhams and Ayrshires.

Drummond, Lanark : Ayrshire grades appear to be gaining in favor.

Drummond, Lanark: The cow, corn and cheese factory have been the means of lifting many a mortgage in this county within the last ten years, which has been due in a great measure to Farmers' Institute meetings.

Laxton, Victoria: No cheese factory in this township, so it is all butter-making yet. The price was very fair this season and I think more is being made; more cows are kept.

Otonabee, Peterborough: Shorthorns seem to be the favorites. Ayrshires are coming in.

Thurlow, Hastings: Cheese-making is flourishing, but people begin to think it overdone, and are starting butter factories.

Monteagle, Hastings: Dairy interest is looking up here; going into creamery more than heretofore instead of cheese.

Tyendinaga, Hastings: This is specially a dairy section—cheese especially manufactured, but dairy men are turning their attention to manufacturing butter, and I think before another year some creameries will be erected.

Morrison, Muskoka: Cheese causes discontent and quarrelling to such an extent, and hinders the raising of calves so much, that the butter crop is preferred.

Watt, Muskoka: Not much improvement either in breed or care of our milk stock; the cow that will give the greatest weight of milk is the animal preferred, as the quality of product is of no account at our cheese factories.

Assignack, Manitoulin: The dairy industry promises to be good, but we have no creamery or cheese factory—hence we are at a loss.

Tarbutt, Algoma: The farmers are going into dairying more each year.

Thessalon, Algoma: There is quite a lot of good butter made in this township; not much cheese.

CREAMERIES. The following table gives the statistics furnished by 93 public creameries for 1898-9, showing the quantity and value of butter made, the average number of patrons and the average price per pound; of the 93 creameries making returns 14 are operated in summer, 62 in winter, and 17 are going all the year, from twice a week up. It also gives an estimate for all creameries in operation for the six years, 1893-8:

| Creameries. | No. of returns. | Butter made. | | Average No. of patrons. | Average price of butter per pound. | Milk required to make 1 lb. of butter. | Amount paid to the patrons for milk or cream. |
|--|-----------------|--------------|-----------|-------------------------|------------------------------------|--|---|
| | | Quantity. | Value. | | | | |
| | | lb. | \$ | | cts. | lb. | ¢ |
| Summer..... | 14 | 804,681 | 136,416 | 2,443 | 16.95 | 24.68 | 111,293 |
| Winter..... | 62 | 1,027,886 | 193,132 | 3,118 | 18.79 | 23.22 | 157,577 |
| All the year | 17 | 1,649,632 | 301,351 | 3,229 | 18.27 | 24.60 | 231,378 |
| Total estimated for all creameries in operation— | | | | | | | |
| 1898 | 282 | 9,008,992 | 1,632,234 | 22,741 | 18.12 | 23.99 | 1,294,220 |
| 1897 | 214 | 7,708,265 | 1,403,609 | 18,909 | 18.21 | 23.97 | 1,139,463 |
| 1896 | 170 | 6,033,241 | 1,101,232 | 12,245 | 18.25 | 24.13 | |
| 1895 | 135 | 4,553,708 | 868,382 | 9,664 | 19.07 | 24.75 | |
| 1894 | 115 | 3,162,550 | 662,297 | 8,298 | 20.94 | 23.79 | |
| 1893 | 74 | 2,707,570 | 574,156 | 7,852 | 21.21 | 23.38 | |

The number of creameries (including skimming stations) operated in Ontario is reported as 282, being an increase of 68 over the previous season. Our efforts to secure returns were a little more successful than in previous years, the number reporting statistics being 93 (or 109 including skimming stations). Based upon these returns the butter made at the 282 creameries is 9,008,992 pounds, or 1,300,727 pounds in excess of the output of 214 creameries in the previous year. The patrons received \$1,294,220 for milk or cream supplied, being equivalent to 60.6 cents. per 100 pounds of milk. In the previous season it averaged 63.1.

CHEESE FACTORIES. The following table gives the statistics of 1,187 cheese factories operated in Ontario in 1898. These figures are given by groups of counties. Comparative figures are given for the Province for sixteen years :

| Districts. | Number. | Quantity of— | | Gross value of cheese. | Average No. of patrons. | Milk required to make 1 lb. of cheese. | Value of cheese per 100 lb. | Amount paid to patrons. | |
|-------------------------|---------|---------------|--------------|------------------------|-------------------------|--|-----------------------------|-------------------------|---------------------------|
| | | Milk used. | Cheese made. | | | | | Total. | Ave. per 100 lb. of milk. |
| | | lb | lb | \$ | | lb | \$ c. | \$ | cts. |

* Average for five years.

Notwithstanding the closing up of a number of factories there was a net increase in 1898 of 26. There was a decrease, however, in the make of cheese of over 9 million pounds from the great output of 1897, but the season of 1898 leads 1895, the next highest year, by nearly 19 million pounds. The average price of cheese, too, dropped over half a cent per pound, so that the patrons received but \$8,417,535 as compared with \$9,709,004 in 1897. This is equivalent to 61.2 cents per 100 pounds of milk, or 4 cents below the average of five years.

The output by counties is given on page 86. It will be seen that the western counties show considerable decreases, while many of the eastern counties give increases. Hastings with 96 factories produces 11,505,082 pounds, while Oxford with 9,922,553 pounds in 43 factories comes next.

STATISTICS OF

LIVE STOCK AND DAIRY PRODUCTS.

HORSES AND HOGS.

PART III.

VALUES, RENTS AND FARM WAGES.

VALUES OF FARM PROPERTY.

VALUES OF FARM PROPERTY. The values of farm lands, buildings, implements and live stock are given in the following table by county groups for 1897 and 1898, and for the Province for each of the sixteen years, 1883-98 :

| Districts. | | Farm land. | Buildings. | Implements. | Live stock. | Total farm property. |
|----------------------------------|--------|-------------|-------------|-------------|-------------|----------------------|
| | | \$ | \$ | \$ | \$ | \$ |
| Lake Erie | { 1898 | 78,880,118 | 28,802,870 | 7,466,868 | 14,057,563 | 129,207,419 |
| | { 1897 | 78,671,601 | 28,165,204 | 7,255,555 | 12,086,804 | 126,209,164 |
| Lake Huron | { 1898 | 63,867,423 | 21,960,692 | 5,766,102 | 12,617,483 | 104,241,705 |
| | { 1897 | 63,256,194 | 21,520,339 | 5,583,061 | 11,428,589 | 101,788,233 |
| Georgian Bay..... | { 1898 | 43,101,096 | 15,950,763 | 4,552,343 | 9,026,165 | 72,630,367 |
| | { 1897 | 42,713,156 | 15,730,513 | 4,414,029 | 8,219,360 | 71,107,058 |
| West Midland | { 1898 | 116,251,884 | 45,002,257 | 10,499,657 | 22,024,590 | 193,781,388 |
| | { 1897 | 116,184,328 | 44,619,626 | 10,177,878 | 19,390,350 | 190,372,182 |
| Lake Ontario | { 1898 | 115,346,834 | 46,049,081 | 10,277,496 | 17,940,862 | 189,614,273 |
| | { 1897 | 115,757,971 | 45,283,916 | 9,958,770 | 16,498,245 | 187,498,902 |
| St. Lawrence and Ottawa | { 1898 | 97,081,275 | 38,035,154 | 10,352,443 | 19,508,163 | 164,977,035 |
| | { 1897 | 96,231,088 | 36,706,694 | 9,892,531 | 18,069,571 | 160,899,887 |
| East Midland..... | { 1898 | 34,116,170 | 11,803,032 | 3,225,347 | 6,519,094 | 55,663,643 |
| | { 1897 | 33,793,194 | 11,739,269 | 3,181,964 | 6,008,109 | 54,722,536 |
| Northern Districts | { 1898 | 7,598,764 | 2,450,547 | 836,976 | 2,020,303 | 12,906,590 |
| | { 1897 | 7,447,020 | 2,324,548 | 805,307 | 1,918,776 | 12,495,651 |
| The Province..... | { 1898 | 556,246,569 | 210,054,396 | 52,977,232 | 103,744,223 | 923,022,420 |
| | { 1897 | 554,054,552 | 206,090,159 | 51,250,098 | 93,619,804 | 905,093,613 |
| | { 1896 | 557,468,270 | 205,235,429 | 50,730,358 | 96,857,566 | 910,291,623 |
| | { 1895 | 572,938,472 | 204,148,670 | 50,944,385 | 103,958,047 | 931,989,574 |
| | { 1894 | 587,216,117 | 204,071,566 | 51,530,172 | 111,547,652 | 954,395,507 |
| | { 1893 | 602,664,361 | 200,189,888 | 51,435,919 | 116,070,902 | 970,361,070 |
| | { 1892 | 615,828,471 | 195,644,258 | 51,003,020 | 117,501,495 | 979,977,244 |
| | { 1891 | 621,245,223 | 191,268,327 | 50,651,442 | 108,721,076 | 971,886,068 |
| | { 1890 | 622,886,000 | 193,438,826 | 50,515,583 | 104,086,626 | 970,927,035 |
| | { 1889 | 632,329,433 | 192,464,217 | 51,685,706 | 105,731,288 | 982,210,664 |
| | { 1888 | 640,480,801 | 188,293,226 | 49,754,832 | 102,839,235 | 981,368,094 |
| | { 1887 | 636,883,755 | 181,753,507 | 49,248,297 | 104,406,655 | 972,292,214 |
| | { 1886 | 648,009,828 | 183,748,212 | 50,530,936 | 107,208,935 | 989,497,911 |
| | { 1885 | 626,422,024 | 182,477,905 | 48,569,725 | 100,690,086 | 958,159,740 |
| | { 1884 | 625,478,706 | 173,386,925 | 47,830,710 | 103,106,829 | 949,803,170 |
| | { 1883 | 654,793,025 | 163,030,675 | 43,522,530 | 100,082,365 | 961,428,595 |

Each of the districts have an increase in the total value of farm property ; in fact, the only group of counties failing to show an increase in each of the four items given is

the Lake Ontario group, which failed to equal its own figures for value of land. Taking the figures for the Province, an increase is noted in the value of each of the four items, the improvement in the value of farm land being the first made since 1886. The value of all farm property (crops excepted) is now placed at \$923,022,420, being an increase of \$17,928,807, and the first gain in the value of total property since 1892.

VALUE PER ACRE OCCUPIED. The following table gives the value per acre occupied of the various classes of farm property by county groups and for the Province for the years 1897 and 1898:

| Districts. | Farm lands. | | Buildings. | | Implements. | | Live stock. | | Total farm property. | |
|--------------------------|-------------|-------|------------|-------|-------------|-------|-------------|-------|----------------------|-------|
| | 1898. | 1897. | 1898. | 1897. | 1898. | 1897. | 1898. | 1897. | 1898. | 1897. |
| | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. |
| Lake Erie | 33 74 | 33 59 | 12 32 | 12 02 | 3 19 | 3 11 | 6 01 | 5 16 | 55 26 | 53 88 |
| Lake Huron | 27 45 | 27 15 | 9 44 | 9 24 | 2 48 | 2 40 | 5 43 | 4 90 | 44 80 | 43 69 |
| Georgian Bay | 21 31 | 21 07 | 7 89 | 7 76 | 2 25 | 2 17 | 4 46 | 4 07 | 35 91 | 35 07 |
| West Midland | 35 72 | 35 73 | 13 83 | 13 72 | 3 22 | 3 13 | 6 77 | 5 96 | 59 54 | 58 54 |
| Lake Ontario | 37 81 | 37 97 | 15 09 | 14 86 | 3 37 | 3 27 | 5 88 | 5 41 | 62 15 | 61 51 |
| St. Lawrence and Ottawa. | 18 05 | 17 87 | 7 07 | 6 82 | 1 92 | 1 84 | 3 63 | 3 36 | 30 67 | 29 89 |
| East Midland | 12 39 | 12 37 | 4 28 | 4 30 | 1 17 | 1 17 | 2 37 | 2 20 | 20 21 | 20 04 |
| Northern Districts | 3 35 | 3 32 | 1 08 | 1 03 | 37 | 36 | 89 | 85 | 5 69 | 5 56 |
| The Province | 23 78 | 23 72 | 8 98 | 8 82 | 2 26 | 2 20 | 4 44 | 4 01 | 39 46 | 38 75 |

Every district shows an increase in the total value of farm property compared with the preceding year, the average for the Province being \$39.46 per acre occupied, or 71 cents of an increase. This increase is distributed as follows: Farm land, 6 cents; buildings, 16 cents; implements, 6 cents, and live stock, 43 cents per acre.

VALUE PER ACRE CLEARED. A still better basis of comparison is afforded by the following table, as the values are here given per acre cleared or in use, by county groups and for the Province;

| Farm property. | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. | | | |
|------------------|------------|-------------|---------------|---------------|---------------|--------------------------|---------------|---------------------|---------------|-------|-------|---------|
| | | | | | | | | | 1898. | 1897. | 1883. | 1883-98 |
| | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. |
| Buildings | 17 32 | 14 59 | 13 32 | 18 08 | 19 17 | 14 71 | 12 66 | 11 26 | 16 17 | 16 03 | 15 00 | 16 39 |
| Implements | 4 49 | 3 83 | 3 80 | 4 22 | 4 27 | 4 00 | 3 46 | 3 84 | 4 08 | 3 99 | 4 13 | 4 28 |
| Live stock | 8 46 | 8 40 | 7 54 | 8 84 | 7 47 | 7 54 | 7 00 | 9 28 | 7 98 | 7 29 | 9 50 | 8 97 |
| Total | 30 27 | 26 82 | 24 66 | 31 14 | 30 91 | 26 25 | 23 12 | 24 38 | 28 23 | 27 31 | 28 63 | 29 64 |

Taking the figures for the Province, buildings have increased 14 cents, implements 9 cents and live stock 69 cents per acre cleared, compared with the figures of the previous year. Buildings reach the highest average value per acre in the Lake Ontario district, implements in the Lake Erie group, and live stock in the West Midland counties. The last named group also has the best figures for total values per acre.

RENTALS OF LEASED FARMS. The following table gives, by districts, the average value and rental of such leased farms as were reported in farmers' schedules returned to this Bureau in 1898 :

| Leased farms. | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern districts. | The Province. |
|---|------------|-------------|---------------|---------------|---------------|--------------------------|---------------|---------------------|---------------|
| Average value : | \$ | \$ | \$ | \$ | \$ | \$ | \$ | \$ | \$ |
| Land | 3,452 | 3,846 | 2,885 | 4,417 | 4,563 | 2,909 | 2,677 | 1,024 | 3,555 |
| Buildings | 1,354 | 1,395 | 1,168 | 1,729 | 1,786 | 1,343 | 1,012 | 542 | 1,417 |
| Average rental | 220 | 232 | 180 | 271 | 281 | 185 | 179 | 83 | 222 |
| Rent per acre based on— | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. |
| Acres occupied. { 1898.... | 2 29 | 1 86 | 1 46 | 2 26 | 2 42 | 1 30 | 1 19 | 44 | 1 76 |
| { 1897.... | 2 14 | 1 62 | 1 50 | 2 19 | 2 34 | 1 40 | 1 23 | 44 | 1 73 |
| { 1886-98.. | 2 19 | 1 89 | 1 55 | 2 29 | 2 57 | 1 36 | 1 39 | 44 | 1 94 |
| Acres cleared.. { 1898.... | 2 90 | 2 41 | 2 00 | 2 83 | 2 93 | 2 08 | 1 92 | 1 73 | 2 50 |
| { 1897.... | 2 75 | 2 32 | 2 02 | 2 71 | 2 80 | 2 07 | 2 04 | 1 84 | 2 44 |
| { 1886-98.. | 2 91 | 2 53 | 2 17 | 2 92 | 3 14 | 2 15 | 2 26 | 1 75 | 2 70 |
| Per cent. ratio of rental to value { 1898.... | 4 58 | 4 43 | 4 44 | 4 41 | 4 43 | 4 35 | 4 35 | 5 30 | 4 47 |
| { 1897.... | 4 71 | 4 47 | 4 42 | 4 36 | 4 60 | 4 24 | 4 53 | 5 19 | 4 47 |
| { 1886-98.. | 4 26 | 4 30 | 4 37 | 4 29 | 4 49 | 3 99 | 4 60 | 5 05 | 4 34 |

The average rental of a farm is given as \$222, which is \$3 more than in 1897. The rental per acre occupied is \$1.76, or 3 cents more than in the previous year, while the rental per acre cleared is \$2.50, or an advance of 6 cents. The per cent. ratio of rental to the value of the farm is 4.47, which is exactly the same as that of 1897, and 14 cents more than the average for the thirteen years 1886-98.

VALUES OF LIVE STOCK.

VALUE OF HORSES. The value of each of the four classes of farm horses is shown in the table following, by county groups and for the Province, together with the total value for 1897 and 1898 ; also the value of all classes of cattle sold in the year :

| Districts. | Working horses. | Breeding mares. | Colts. | Stallions. | Total on hand. | Total sold in year. |
|----------------------------|-----------------|-----------------|-----------|------------|----------------|---------------------|
| | \$ | \$ | \$ | \$ | \$ | \$ |
| Lake Erie | 4,016,042 | 682,113 | 702,888 | 178,420 | 5,579,463 | 385,141 |
| Lake Huron | 3,092,410 | 760,876 | 590,146 | 97,770 | 4,541,202 | 435,957 |
| Georgian Bay | 2,478,869 | 506,602 | 381,788 | 65,053 | 3,432,312 | 237,246 |
| West Midland | 5,464,120 | 1,120,398 | 951,400 | 143,165 | 7,684,083 | 624,320 |
| Lake Ontario | 5,732,654 | 960,957 | 915,944 | 178,808 | 7,788,363 | 581,460 |
| St. Lawrence and Ottawa .. | 4,881,937 | 869,467 | 580,723 | 208,450 | 6,540,577 | 425,704 |
| East Midland | 1,748,487 | 281,940 | 245,079 | 31,625 | 2,307,131 | 144,854 |
| Northern Districts | 592,098 | 94,649 | 70,468 | 29,550 | 786,765 | 49,505 |
| Totals.. { 1898.. | 28,036,617 | 5,277,002 | 4,438,436 | 937,841 | 38,659,896 | 2,884,187 |
| { 1897.. | 26,559,966 | 4,470,351 | 4,271,851 | 809,637 | 36,111,805 | 2,700,479 |

An increase has taken place in the value of each of the four classes of horses, the total for the Province being \$38,659,896, or \$2,548,091 more than in the preceding year. The Lake Ontario counties still lead in the total value of horses, although the West Midland district has the highest values for breeding mares and colts, and the St. Lawrence and Ottawa districts in stallions. Sales of horses during the year amounted to \$2,884,187, against \$2,700,479 in 1897. The West Midland group made the best record of sales.

VALUE OF CATTLE. The following table gives the value of the various classes of cattle, together with their total values in 1897 and 1898, and the value of cattle sold in 1898, by county groups and for the Province :

| Districts | Working oxen. | Milch cows. | Store cattle. | Other cattle. | Total on hand. | Total sold in year. |
|----------------------------|---------------|-------------|---------------|---------------|----------------|---------------------|
| | \$ | \$ | \$ | \$ | \$ | \$ |
| Lake Erie | 14,950 | 3,033,918 | 1,119,228 | 1,372,519 | 5,540,615 | 1,641,213 |
| Lake Huron | 6,865 | 2,518,380 | 1,921,612 | 1,563,153 | 6,010,010 | 2,716,144 |
| Georgian Bay | 6,570 | 1,898,841 | 860,733 | 1,067,828 | 3,833,972 | 1,472,638 |
| West Midland | 5,524 | 5,572,009 | 2,589,607 | 2,530,662 | 10,697,802 | 5,028,410 |
| Lake Ontario | 3,770 | 4,475,397 | 1,053,189 | 1,652,021 | 7,184,377 | 2,587,205 |
| St. Lawrence and Ottawa .. | 9,080 | 7,243,587 | 1,112,569 | 1,694,207 | 10,059,443 | 1,715,402 |
| East Midland | 6,125 | 2,093,316 | 364,246 | 642,081 | 3,105,768 | 745,931 |
| Northern Districts | 23,102 | 458,253 | 134,709 | 238,203 | 854,267 | 214,616 |
| Totals..... { 1898. | 75,986 | 27,293,701 | 9,155,893 | 10,760,674 | 47,286,254 | 16,121,559 |
| { 1897. | 97,140 | 24,569,555 | 8,729,826 | 9,287,036 | 42,683,557 | 13,350,223 |

There is an increase in the value of every class of cattle except oxen, the total for the Province being \$47,286,254, or an increase of \$4,602,697 over the previous year. The West Midland and the St. Lawrence and Ottawa groups have the highest values. The total value of the cattle sold during the year was \$16,121,559, being an increase of \$2,771,336 compared with last year's figures. The West Midland counties far exceed any other group in the matter of sales.

VALUE OF SHEEP AND HOGS. The table following gives the values of all classes of sheep and hogs on hand and sold in 1898, by county groups and for the Province ; also the figures of the Province for 1897 :

| Districts. | Sheep. | | | | Hogs. | | | |
|-----------------|----------------|-----------------|----------------|---------------------|----------------|-----------------|----------------|---------------------|
| | Over one year. | Under one year. | Total on hand. | Total sold in year. | Over one year. | Under one year. | Total on hand. | Total sold in year. |
| | \$ | \$ | \$ | \$ | \$ | \$ | \$ | \$ |
| Lake Erie | 510,172 | 275,357 | 785,529 | 299,470 | 631,863 | 1,138,989 | 1,770,852 | 2,244,568 |
| Lake Huron .. | 583,303 | 355,084 | 938,391 | 360,502 | 306,165 | 579,523 | 885,688 | 1,228,439 |

| Totals { 1898 | 4,175,693 | 2,324,002 | 6,499,695 | 2,460,379 | 3,346,895 | 5,373,347 | 8,720,242 | 11,852,535 |
| { 1897 | 3,925,649 | 2,077,545 | 6,003,194 | 2,538,171 | 2,684,318 | 3,818,892 | 6,533,210 | 10,080,812 |

The total value of sheep on hand is \$6,499,695, or \$496,501 more than in the previous year, both classes having shared in the increase. The sales of sheep in the year, however, have fallen off by \$77,792. The immense increase in the value of both classes of hogs on hand has raised the total value to \$8,720,242, or \$2,187,032 more than in the preceding year. The sale of hogs in 1898 exceeded those of the preceding year by \$1,771,723.

VALUE OF POULTRY AND TOTAL LIVE STOCK The following table gives the value of poultry (by classes), and also the total value of live stock on hand and sold during the year, by county groups and for the Province :

| Districts. | Poultry. | | | | | Total value of live stock on hand. | Total value of live stock sold in year. |
|---------------------|----------|---------|--------------|----------------|---------------------|------------------------------------|---|
| | Turkeys. | Geese. | Other fowls. | Total on hand. | Total sold in year. | | |
| | \$ | \$ | \$ | \$ | \$ | \$ | \$ |
| Lake Erie..... | 91,529 | 29,355 | 260,221 | 381,104 | 185,459 | 14,057,563 | 4,755,851 |
| Lake Huron | 71,389 | 26,674 | 174,129 | 272,192 | 111,065 | 12,647,443 | 4,852,107 |
| Georgian Bay | 50,651 | 26,658 | 133,551 | 210,860 | 77,931 | 9,026,165 | 3,076,751 |
| West Midland | 125,462 | 47,622 | 332,188 | 505,272 | 229,538 | 22,024,590 | 9,215,257 |
| Lake Ontario | 98,779 | 46,612 | 324,961 | 470,352 | 237,563 | 17,910,862 | 6,012,864 |
| St. L. and Ottawa. | 158,199 | 51,177 | 308,899 | 518,275 | 202,369 | 19,508,163 | 4,252,572 |

| Northern Districts. | 11,272 | 5,536 | 27,967 | 44,775 | 17,997 | 2,020,303 | 476,394 |
| Totals { 1898..... | 649,849 | 252,122 | 1,676,165 | 2,578,136 | 1,131,923 | 103,744,223 | 34,450,583 |
| { 189..... | 573,100 | 229,543 | 1,515,395 | 2,318,038 | 1,083,914 | 93,649,804 | 29,753,599 |

The only comment necessary to make upon the foregoing table is that the totals of every column show a decided increase in 1898 over their respective figures for the preceding year.

VALUE OF LIVE STOCK PER HEAD. The values of the various classes of live stock per head on hand on July 1st, 1898, is shown in the following table :

| Farm live stock. | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St. Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. | |
|----------------------|------------|-------------|---------------|---------------|---------------|--------------------------|---------------|---------------------|---------------|-------|

| | 22 | 21 | 22 | 22 | 23 | 22 | 22 | 22 | 22 | 21 |

All classes of horses, cattle, sheep and swine are credited with an increase in value per head. Poultry do not make so good a showing, as both turkeys and geese have a slight decrease in value per head, although other fowls make a corresponding increase.

The following table gives the value per head of the various classes of farm stock sold in the years ending June 30th, 1897 and 1898:

| Farm live stock. | | Lake Erie. | Lake Huron. | Georgian Bay. | West Midland. | Lake Ontario. | St Lawrence and Ottawa. | East Midland. | Northern Districts. | The Province. | |
|----------------------------------|----------|------------|-------------|---------------|---------------|---------------|-------------------------|---------------|---------------------|---------------|-------|
| | | | | | | | | | | 1898. | 1897. |
| Horses : | | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. |
| Sold in year | { 1898.. | 63 00 | 70 00 | 58 00 | 70 00 | 69 00 | 60 00 | 54 00 | 55 00 | 65 00 | |
| | { 1897.. | 60 00 | 65 00 | 58 00 | 67 00 | 65 00 | 57 00 | 52 00 | 51 00 | | 62 00 |
| Cattle : | | | | | | | | | | | |
| Sold or killed in year | { 1898.. | 27 66 | 32 58 | 27 22 | 35 05 | 29 64 | 21 29 | 22 31 | 19 64 | 29 18 | |
| | { 1897.. | 24 57 | 30 20 | 23 99 | 30 52 | 28 20 | 20 64 | 20 44 | 19 47 | | 26 54 |
| Sheep : | | | | | | | | | | | |
| Sold or killed in year | { 1898.. | 3 72 | 3 81 | 3 61 | 4 17 | 4 00 | 3 15 | 3 30 | 3 25 | 3 70 | |
| | { 1897.. | 3 48 | 3 56 | 3 41 | 3 85 | 3 67 | 3 01 | 3 11 | 3 20 | | 3 46 |
| Hogs : | | | | | | | | | | | |
| Sold or killed in year | { 1898.. | 7 44 | 7 00 | 7 01 | 7 46 | 7 21 | 8 41 | 7 73 | 7 63 | 7 44 | |
| | { 1897.. | 7 28 | 6 62 | 6 97 | 7 03 | 6 87 | 8 73 | 7 14 | 7 65 | | 7 20 |
| Poultry : | | cts. | cts. | cts. | cts. | cts. | cts. | cts. | cts. | cts. | cts. |
| Sold or killed in year | { 1898.. | 34 | 37 | 36 | 39 | 37 | 37 | 38 | 35 | 37 | |
| | { 1897.. | 33 | 35 | 34 | 40 | 38 | 37 | 39 | 34 | | 37 |

There was a substantial increase in the value per head sold of horses, cattle, sheep and hogs, but the figures for poultry are the same in each year.

VALUES OF FARM CROPS.

MARKET PRICES. The following table is compiled from twenty-eight fairly distributed market points, and the figures are taken for the period when each of the various articles of farm produce named in the table is marketed. The average prices for the seventeen years, 1882-98 are also given :

| Markets. | Fall wheat, per bush. | Spring wheat, per bush. | Barley, per bush. | Oats, per bush. | Rye, per bush. | Peas, per bush. | Corn (in ear), per bush. | Buckwheat, per bush. | Beans, per bush. | Potatoes, per bush. | Hay, per ton. | Wool, per lb. |
|-------------------|-----------------------|-------------------------|-------------------|-----------------|----------------|-----------------|--------------------------|----------------------|------------------|---------------------|---------------|---------------|
| | cts. | cts. | cts. | cts. | cts. | cts. | cts. | cts. | cts. | cts. | \$ c. | cts. |
| 1898 | 69.4 | 69.2 | 38.0 | 25.8 | 43.5 | 52.2 | 20.1 | 38.2 | 70.0 | 44.1 | 6.22 | 16.6 |
| 1897 | 78.2 | 78.6 | 27.0 | 22.6 | 37.7 | 42.1 | 19.7 | 30.0 | 65.2 | 39.9 | 7.18 | 18.4 |
| 1896 | 71.0 | 70.6 | 31.6 | 20.0 | 36.6 | 44.0 | 19.6 | 30.5 | 68.4 | 26.2 | 9.68 | 18.4 |
| 1895 | 69.3 | 69.8 | 40.4 | 29.1 | 45.6 | 54.8 | 22.6 | 36.8 | 94.7 | 20.2 | 12.30 | 20.0 |
| 1894 | 55.0 | 55.5 | 40.5 | 30.8 | 44.2 | 53.6 | 26.1 | 39.2 | 110.4 | 35.4 | 7.56 | 16.9 |
| 1893 | 59.9 | 59.4 | 40.1 | 33.2 | 47.5 | 54.0 | 26.5 | 41.8 | 118.0 | 39.5 | 7.64 | 18.2 |
| 1892 | 70.7 | 67.8 | 41.3 | 30.8 | 55.8 | 59.0 | 26.3 | 42.2 | 98.8 | 50.4 | 8.20 | 18.2 |
| 1891 | 95.1 | 92.9 | 49.1 | 36.5 | 72.3 | 63.8 | 31.1 | 44.1 | 106.1 | 32.6 | 11.91 | 19.4 |
| 1890 | 94.2 | 91.3 | 50.2 | 41.1 | 52.7 | 60.3 | 30.5 | 43.0 | 128.5 | 44.3 | 7.95 | 20.5 |
| 1889 | 88.4 | 88.1 | 44.0 | 30.5 | 50.9 | 55.7 | 25.9 | 39.5 | 126.7 | 45.5 | 9.98 | 20.7 |
| 1888 | 102.4 | 99.3 | 60.1 | 40.5 | 60.2 | 65.4 | 29.3 | 49.3 | 113.7 | 31.7 | 16.71 | 20.4 |
| 1887 | 78.4 | 78.0 | 56.7 | 34.6 | 49.5 | 55.9 | 28.9 | 45.0 | 97.9 | 62.8 | 11.62 | 22.1 |
| 1886 | 73.6 | 72.5 | 51.3 | 32.0 | 52.2 | 52.6 | 27.6 | 33.7 | 83.7 | 44.9 | 9.69 | 19.1 |
| 1885 | 81.5 | 80.6 | 55.2 | 31.5 | 55.2 | 58.0 | 27.9 | 39.2 | 80.0 | 41.1 | 9.85 | 17.4 |
| 1884 | 80.5 | 81.4 | 53.6 | 33.1 | 59.7 | 64.4 | 45.0 | 40.0 | 118.0 | 40.0 | 9.56 | 17.8 |
| 1883 | 105.0 | 107.0 | 57.0 | 38.0 | 62.0 | 71.0 | | | | 62.0 | 9.02 | 16.9 |
| 1882 | 101.0 | 106.0 | 65.0 | 43.0 | 64.0 | 74.0 | 40.0 | 40.0 | 197.0 | 64.0 | 11.54 | 16.9 |
| 1882-98 | 80.8 | 83.5 | 49.2 | 31.7 | 52.2 | 57.2 | 28.4 | 38.7 | 99.4 | 40.5 | 9.26 | 18.6 |

Potatoes are the only item named in the foregoing table which exceeds its own average price for the seventeen years' period. On the other hand, every article excepting fall wheat, spring wheat, hay and wool has sold for a better figure than in 1897.

VALUE OF CROPS. The table following gives the value of each crop, based upon market prices, acreage and yield, for each of the five years 1894-98, together with the average for the seventeen years 1882-98.

| Crops. | 1898. | 1897. | 1896. | 1895. | 1894. | Average 1882-98. |
|----------------------|-------------|-------------|------------|------------|------------|---------------------|
| | \$ | \$ | \$ | \$ | \$ | \$ |
| Fall wheat | 17,460,147 | 18,758,656 | 10,705,693 | 9,809,610 | 9,081,658 | 14,901,317 |
| Spring wheat | 4,756,659 | 3,826,327 | 2,484,641 | 2,423,835 | 1,869,159 | 6,062,417 |
| Barley | 4,812,194 | 3,245,880 | 4,003,639 | 4,884,565 | 4,447,064 | 7,992,105 |
| Oats | 22,409,440 | 19,507,897 | 16,595,998 | 24,646,992 | 21,613,135 | 20,843,761 |
| Rye | 1,162,857 | 1,275,016 | 816,500 | 866,453 | 612,880 | 937,572 |
| Peas | 7,058,099 | 5,838,046 | 7,696,985 | 8,531,320 | 7,516,268 | 8,151,687 |
| Corn { Husking | 4,711,961 | 4,838,808 | 4,717,987 | 5,609,297 | 4,247,867 | 5,353,870 |
| { Silo | 4,256,146 | 5,339,644 | 3,897,560 | 3,511,308 | 2,099,530 | |
| Buckwheat | 906,732 | 1,039,256 | 794,119 | 1,027,364 | 993,459 | 746,155 |
| Beans | 531,760 | 639,834 | 819,114 | 1,414,988 | 913,575 | 651,972 |
| Potatoes | 6,332,154 | 6,424,218 | 5,582,035 | 5,936,959 | 6,075,748 | 7,435,692 |
| Mangel-wurzels. | 1,756,605 | 1,448,271 | 1,347,952 | 1,276,920 | 922,570 | 888,085 |
| Carrots | 539,233 | 554,204 | 577,305 | 572,672 | 464,518 | 478,351 |
| Turnips | 6,472,788 | 6,829,715 | 6,981,484 | 6,349,670 | 6,169,449 | 5,166,829 |
| Hay | 27,362,172 | 27,366,699 | 21,879,123 | 22,753,942 | 27,028,512 | 30,654,832 |
| Totals | 110,528,947 | 106,952,471 | 88,900,135 | 99,655,895 | 94,055,392 | 110,264,645 |

Notwithstanding the fact that nine of the fourteen field crops, namely, fall wheat, rye, corn, buckwheat, beans, potatoes, carrots, turnips and hay, are lower in value than in 1897, the total of all crops shows an increase in value of \$3,576,476 compared with the preceding year, and of \$264,302 compared with the average for the seventeen years, the value of all field crops in 1898 being placed at \$110,528,947.

CROP VALUES BY COUNTY GROUPS. The table following gives the value of field crops by county groups and for the Province for each of the five years 1894-98, together with the average for the seventeen years 1882-98 :

| Districts. | 1898. | 1897. | 1896. | 1895. | 1894. | 1882-98. |

| Northern Districts | 1,725,093 | 1,662,407 | 1,667,748 | 1,579,254 | 1,573,277 | 1,507,667 |
| The Province ... | 110,528,947 | 106,952,471 | 88,900,135 | 99,655,895 | 94,055,392 | 110,264,645 |

The Lake Erie, Lake Huron, West Midland and Lake Ontario districts fall below their respective values for the preceding year, but the other four groups more than make up for the deficiency. The Lake Ontario, St. Lawrence and Ottawa, and East Midland groups fail to reach their respective averages for the seventeen years period.

VALUE OF PRODUCE PER ACRE. The following table gives the value per acre raised of each of the staple field crop, by county groups and for the Province; also the totals for 1897, and the average for the seventeen years 1882-98. The average value of all crops per acre is also given:

| Crops. | The Province. | | | | | | | | | | | |
|---------------------|---------------|---------|----------|-------------|----------|----------|---------------|----------|----------|---------------|----------|----------|
| | Lake Erie. | | | Lake Huron. | | | Georgian Bay. | | | West Midland. | | |
| | 1898. | 1897. | 1882-98. | 1898. | 1897. | 1882-98. | 1898. | 1897. | 1882-98. | 1898. | 1897. | 1882-98. |
| Fall wheat..... | \$ 5.52 | \$ 6.99 | \$ 16.99 | \$ 18.05 | \$ 16.99 | \$ 16.48 | \$ 16.95 | \$ 17.65 | \$ 17.41 | \$ 16.66 | \$ 19.74 | \$ 16.55 |
| Spring wheat..... | 10.35 | 11.78 | 11.04 | 10.73 | 11.57 | 14.14 | 11.89 | 12.43 | 12.22 | 11.84 | 12.78 | |

| {silo..... | 16.16 | 22.14 | 21.86 | 22.92 | 19.99 | 25.63 | 20.89 | 23.55 | 22.41 | 25.55 | | |
| Buckwheat..... | 6.17 | 7.12 | 6.20 | 7.37 | 5.41 | 6.07 | 6.13 | 5.97 | 6.03 | 6.85 | 7.55 | |
| Beans..... | 11.86 | 11.50 | 13.37 | 11.80 | 9.58 | 12.06 | 11.07 | 12.11 | 11.76 | 12.65 | 17.31 | |
| Potatoes..... | 41.45 | 36.33 | 41.44 | 36.54 | 35.02 | 38.51 | 31.36 | 38.71 | 37.26 | 37.94 | 46.59 | |
| Mangel-wurzels..... | 34.52 | 37.06 | 33.96 | 39.71 | 35.97 | 34.23 | 31.68 | 22.28 | 36.65 | 35.17 | 35.42 | |
| Carrots..... | 40.01 | 46.74 | 43.21 | 46.44 | 44.57 | 43.44 | 41.83 | 31.08 | 43.42 | 46.09 | 44.09 | |
| Turnips..... | 34.78 | 46.15 | 44.76 | 46.05 | 38.73 | 43.79 | 38.71 | 34.54 | 42.70 | 45.73 | 42.55 | |
| Hay..... | 10.99 | 10.94 | 10.65 | 11.99 | 12.12 | 10.58 | 11.12 | 8.87 | 11.15 | 11.69 | 12.86 | |
| All crops | | | | | | | | | | | | |
| 1898..... | 12.84 | 12.90 | 12.26 | 13.72 | 12.40 | 11.76 | 11.11 | 10.18 | 12.51 | | | |
| 1897..... | 13.11 | 13.09 | 12.18 | 14.04 | 12.54 | 10.09 | 10.07 | 10.29 | | 12.29 | | |
| 1882-98..... | 14.32 | 14.19 | 13.81 | 15.33 | 14.00 | 13.07 | 12.35 | 13.18 | | | 14.00 | |

Both yield and price go to make up the results given in the foregoing table. The value of all groups per acre is \$12.51, or twenty-two cents more than in 1897, though \$1.49 less than the average for the seventeen years. Fall wheat, corn, buckwheat, beans, potatoes, carrots, turnips and hay fail to reach their respective figures of the preceding year. The West Midland group has the highest value per acre, and the Northern districts the lowest.

PER CENT. RATIOS OF VALUES PER ACRE. The following table compares the values of the various crops by means of per cent. ratios, with their respective averages for the seventeen years 1882-98, by county groups and for the Province:

| Districts. | Fall wheat. | Spring wheat. | Barley. | Oats. | Rye. | Peas. | Corn. | Buckwheat. | Beans. | Potatoes. | Mangel-wurzels. | Carrots. | Turnips. | Hay. | All field crops. |
|------------------------------|-------------|---------------|---------|-------|------|-------|-------|------------|--------|-----------|-----------------|----------|----------|------|------------------|
| Lake Erie | 101 | 87 | 95 | 84 | 83 | 75 | 88 | 87 | 71 | 101 | 105 | 102 | 97 | 81 | 90 |
| Lake Huron..... | 102 | 100 | 91 | 90 | 93 | 77 | 97 | 98 | 70 | 83 | 101 | 103 | 100 | 85 | 91 |
| Georgian Bay..... | 103 | 89 | 85 | 85 | 83 | 70 | 92 | 89 | 77 | 84 | 106 | 96 | 101 | 88 | 89 |
| West Midland..... | 99 | 87 | 84 | 86 | 98 | 70 | 95 | 102 | 67 | 79 | 106 | 99 | 105 | 84 | 89 |
| Lake Ontario..... | 99 | 88 | 83 | 82 | 86 | 72 | 83 | 73 | 53 | 81 | 101 | 97 | 89 | 94 | 89 |
| St. Lawrence and Ottawa..... | 107 | 105 | 87 | 90 | 77 | 82 | 100 | 75 | 55 | 78 | 109 | 106 | 114 | 85 | 90 |
| East Midland..... | 109 | 100 | 85 | 84 | 82 | 67 | 98 | 84 | 65 | 65 | 96 | 98 | 99 | 101 | 90 |
| Northern Districts..... | 106 | 84 | 89 | 79 | 82 | 65 | 117 | 73 | 70 | 67 | 90 | 87 | 104 | 79 | 77 |
| The Province..... | 101 | 96 | 87 | 86 | 84 | 73 | 93 | 80 | 68 | 80 | 103 | 98 | 100 | 87 | 89 |

Fall wheat and mangel wurzels are the only crops going over 100 in the figures for the Province, while turnips exactly reach that figure. None of the districts reach 100 for all crops, the Lake Huron group coming nearest to it with 91.

LABOR AND WAGES.

The tenor of the August returns was thus expressed in the bulletin then published: "The supply of farm labor as a rule has been fully adequate to the demand, the complaints of scarcity in a few localities being inevitable in any condition of the labor market when the temporary nature of harvest work is considered. The tendency to dispense with labor outside of the farmers' family by the increased use of machinery continues, and as less help is needed on the farm the supply adjusts itself to the diminishing requirements. There is a very wide range of difference noticeable in the wages paid for farm labor. Through the greater part of the Province the wages of harvest hands run from 75 cents to \$1.25 or \$1.50 per day, with board. Monthly wages vary from \$12 to \$25 with board, the larger amounts being where engagements are limited to a month or two in the harvest season. In some eastern localities men are obtainable by the day for from 50 to 75 cents and board, or \$1 without. Taking the Province throughout, \$1 or \$1.25, with board, would probably be a fair average for harvest hands engaged by the day, and \$15 per month for engagements for the season."

The November bulletin contained the following: "Farm labor has been fully equal to the demand during the greater part of the season, but in a few neighborhoods there was a scarcity during the harvest season. The demand is decreasing owing to the more universal employment of agricultural machinery, which enables many farmers to dispense with help outside of their own families. The great majority of correspondents see no reason to anticipate any change in the rate of wages, but most of those who take a different view look for an increase rather than a fall, on the ground that times are improving, and that many young men have gone to the North-west or found employment in railway or canal construction. The complaint that female domestic labor is scarce, and in some cases practically unobtainable, is well nigh universal—the cause assigned being the preference of country-bred girls for employment in the cities and towns, where the wages are higher and the work not so hard. Various remedies are suggested, prominent among these being the encouragement of immigration, but nearly all who touch on this phase of the subject oppose the importation of juvenile street waifs."

The rates of wages paid farm laborers is given in the following table by the year and by the month, with and without board, by county groups and for the Province, in 1897 and 1898, together with the average for the seventeen years 1882-98; also the monthly wages of domestic servants on the farm:

| Districts. | Per year. | | | | | | Per month in working season. | | | | | | | | | Domestics per month with board. | |
|----------------------------------|-------------|-------|----------|----------------|-------|----------|------------------------------|-------|----------|----------------|-------|----------|-------|-------|-------|--|--|
| | With board. | | | Without board. | | | With board. | | | Without board. | | | | | | | |
| | | | | | | | | | | | | | | | | | |
| | 1898. | 1897. | 1882-98. | 1898. | 1897. | 1882-98. | 1898. | 1897. | 1882-98. | 1898. | 1897. | 1882-98. | 1898. | 1897. | | | |
| | \$ | \$ | \$ | \$ | \$ | \$ | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | \$ c. | | |
| Lake Erie | 145 | 146 | 155 | 232 | 234 | 247 | 15.51 | 14.60 | 16.62 | 24.60 | 24.59 | 25.65 | 6.05 | 6.35 | | | |
| Lake Huron | 146 | 146 | 158 | 233 | 224 | 252 | 15.09 | 13.92 | 16.97 | 24.90 | 24.29 | 26.63 | 5.96 | 5.87 | | | |
| Georgian Bay | 148 | 141 | 155 | 237 | 248 | 253 | 15.10 | 13.88 | 16.89 | 25.48 | 24.37 | 26.52 | 5.76 | 5.64 | | | |
| West Midland | 147 | 143 | 157 | 249 | 239 | 248 | 15.22 | 13.89 | 16.63 | 25.66 | 24.19 | 25.95 | 6.33 | 6.16 | | | |
| Lake Ontario..... | 151 | 147 | 159 | 252 | 244 | 252 | 15.39 | 14.47 | 16.78 | 25.79 | 24.69 | 26.03 | 6.50 | 6.12 | | | |
| St. Lawrence and Ottawa | 153 | 139 | 157 | 258 | 223 | 249 | 15.11 | 14.32 | 16.96 | 25.43 | 23.45 | 25.96 | 5.81 | 5.78 | | | |
| East Midland | 144 | 139 | 159 | 241 | 234 | 253 | 14.80 | 13.89 | 16.73 | 24.89 | 24.59 | 26.16 | 5.82 | 5.57 | | | |
| Northern Districts... | 163 | 159 | 172 | 279 | 237 | 275 | 16.97 | 16.26 | 18.87 | 26.46 | 26.23 | 28.60 | 6.54 | 5.91 | | | |
| The Province... | 148 | 144 | 157 | 246 | 236 | 251 | 15.31 | 14.29 | 16.82 | 25.44 | 24.47 | 26.24 | 6.09 | 5.97 | | | |

The average yearly rate of wages, with board, is \$148, or \$1 more than in the preceding year, although there has been no change in the Lake Huron district, and a falling off of \$1

in the Lake Erie group. Wages by the year, without board, have risen to \$246, or \$10 more than in the preceding year, but the Lake Erie and Georgian Bay counties fail to share in the increase. Monthly wages, with board, average \$15.31, which is \$1.02 better than in the year before, and monthly wages without board average \$25.44, or 97 cents more than in 1897. In every instance the total for the Province in 1898 is less than the average for the seventeen years. Domestic servants average \$6.09, or 12 cents more than in the year preceding. This year this class of workers received the highest average wages in the Northern Districts.

REMARKS OF CORRESPONDENTS.

FROM THE AUGUST RETURNS.

Colchester N., Essex : The scarcity has arisen from so many being employed in the cultivation of tobacco in adjoining townships.

Gosfield N., Essex : No man need go hungry for the want of work in this township.

Raleigh, Kent : One dollar a day with board for good man ; poor ones for what they could get.

Bertie, Welland : Starvation wages ; farmers are too poor to hire.

Dawn, Lambton : Farm laborers are very scarce. Farmers do not pretend to hire help except a few days in harvest ; even then some farmers combine with a neighbor, get binders and mowers in partnership and work them turn about in each place.

Moore, Lambton : Improved machinery supplies the want for harvest hands.

Arran, Bruce : Wages higher than usual for the last few years.

Artemesia, Grey : There are a great number of young men and girls that go to the city and on farms in other sections in southern Ontario or the States from here. Not much hiring done here.

Oro, Simcoe : The labor is mostly hired for six to eight months—from March or April.

London, Middlesex : Good farm hands always scarce. Too many useless tools.

Westminster, Middlesex : There is quite a demand for good men, and they are not plentiful.

Blandford, Oxford : There is sufficient where hands are generally well used ; but some farmers have an ill name and find trouble enough.

Dumfries S., Brant : Sufficient for summer work but scarce at harvest. Cause, not enough yearly engagements ; men seek employment of more permanency.

Saltfleet, Wentworth : Wages are a little lower than last year.

Nassagaweya, Halton : Owing to so much machinery being used few men are required.

Scott, Ontario : Labor is dearer, wages higher.

Percy, Northumberland : Plenty of men ; female servants scarce.

Ameliasburg, Prince Edward : As nearly all farmers have good binders to cut and harvest their crops, they do not need so much help.

Lancaster, Glengarry : Improved machinery has made great changes here.

Cumberland, Russell : Scarce enough on account of railroad work.

Osgoode, Carleton : Not so many laborers and not so many looking for them.

FROM THE NOVEMBER RETURNS.

Mersea, Essex : The rate of wages has been higher this year owing to the tobacco industry, but will fall to the old level, as there will not be as much tobacco planted next year.

Harwich, Kent : A good many laborers have gone to the N.W.T. and Manitoba.

Seneca, Haldimand : Our improved machinery lessens the demand for farm labor.

Dawn, Lambton : Almost impossible to get a farm laborer when you want a man. Even boys raised on a farm leave it, if they get any other opening not near as good.

Moore, Lambton : The use of machinery is superseding hand labor greatly in farming operations.

Ashfield, Huron : The rate of wages is likely to rise owing to better prices of farm products, and the removal of many laboring men to the United States and Western regions of Canada.

Howick, Huron : I think immigration will regulate any deficiency caused by our laborers advancing to independence, which is going on steadily.

Culross, Bruce : Wages high and likely to continue so owing to emigration to Manitoba and elsewhere.

Keppel, Grey : Machinery is taking the place of hired help.

Sunnidale, Simcoe: Many of the farm laborers we have now are boys from the "Homes" brought from the Old Country city slums. We would suggest that they be left, a good many of them, in their native land.

Caradoc, Middlesex: Wages will rise on account of such mammoth railway building, surveying and prospecting in general in the far West.

Nissouri W., Middlesex: Wages increasing on account of good prospects; farmers feel more confident in paying good wages.

Oakland, Brant: Men flock to the cities to work in the machine shops, and farmers buy the machines to take the place of the men.

Elma, Perth: The wages will likely drop somewhat now as winter is coming, and quite a number are returning from distant districts.

Erin, Wellington: Wages will rise somewhat, as times are improving, which gives the farmers a more hopeful outlook. They will make improvements which will necessitate more help.

Waterloo, Waterloo: Plenty of laborers. In fact the many machines take the place of our laborers, and the laborers will have less work from year to year.

Woolwich, Waterloo: So many farm laborers are going to Manitoba that I should not be surprised if they would get scarce. I think the only plan to keep laborers here is to hire by the year and have up-to-date labor-saving machinery.

Amaranth, Dufferin: Very scarce indeed—all gone to the Northwest or Klondyke. Wages will be about the same; they are as high as the employers can pay.

Grantham, Lincoln: Wages are likely to fall unless the price of produce goes higher.

Grimsby, S., Lincoln: The supply seems to be increasing in proportion to the demand. Machinery has to a great extent done away with hiring.

Glanford, Wentworth: Wages will likely remain about as they are. The tendency is rather downward.

Esquering, Halton: The rate of wages is more likely to rise than fall. The gold fields and the northwest are thinning the population.

Nassagaweya, Halton: With the many labor-saving appliances now in the hands of the farmer he can get along with less help and will not pay higher wages.

Scarborough, York: No more "Home" boys. We want good farm hands from agricultural districts.

Vaughan, York: Laborers are becoming scarce and times are improving—consequently there is more demand for labor.

Mara, Ontario: It will likely rise in this locality, for the young men are in the habit of going to the lumber districts, and lumbering is now more brisk than usual.

Hamilton, Northumberland: I would have the Government prohibit the bringing in of "scums" from British cities and having them scattered all over the Province to increase the society of law-breakers, murderers and irresponsible transgressors.

Percy, Northumberland: I think the farmers should strive to furnish work for farm laborers through the winter—as this will keep them from going to other work in the winter.

Ameliasburg, Prince Edward: Nearly all are of the opinion that immigrants are generally poor help, and many of them very saucy and hard to govern.

Athol, Prince Edward: Wages will rise. Laborers will die out of poverty, take to the chase, stealing, or some other means of living if products of labor are not more fairly divided.

Camden, Addington: Keep out of the country the pauper waifs they are spending so much money to bring in. Encourage our native population to stop at home by giving free land and assistance to start with.

Lancaster, Glengarry: Farm laborers are easily obtained at a reasonable rate.

March, Carleton: Wages are not likely to fall. A big demand on railroads and mines.

McNab, Renfrew: Encourage good, honest immigrants, but prohibit the waifs and scum of cities being brought in.

Harvey, Peterborough: I do not think the wages will be higher, as help is plenty and the farmers are using agricultural machinery, which saves much hiring.

Monmouth, Haliburton: The majority of our young men are more for shanties and drives than farms.

Medora and Wood, Muskoka: On account of lumbering, wages are high.

Nipissing, Nipissing: I felt deeply grieved at reading of the severe reproaches cast on our Dr. Barcardo's boys. I have had eight of these orphan lads, and on the whole they were not one whit worse than other young folks. Three have grown up to manhood's estate and are splendid specimens of manhood. Others have gone west and are in creditable service. I have a lad over two years with me now, the best worker and the brightest lad that could be taken into any home.

DOMESTIC SERVANTS.

Malden, Essex: There are enough girls, but they are too proud to work.

Harwich, Kent: There is no likelihood of domestics becoming more plentiful. So many are taking positions as book-keepers, secretaries, teachers, etc.

Malahide, Elgin: If female servants had a proper training before they were distributed among the different families they would prove a blessing to farmers' wives.

Yarmouth, Elgin : There should be some method of getting young women from the old country. The girls here will not hire on the farm.

Walsingham N., Norfolk : Domestic servants should be used more as members of the family.

Dunn, Haldimand : Domestic servants are scarcer than ever. They go mostly to the towns and cities.

Moulton, Haldimand : I think servants would be more plentiful if they were used better.

Dawn, Lambton : Domestic servants are impossible to get. All flock to the large towns.

Ashfield, Huron : Higher wages are necessary to induce hired help, both male and female, to remain in this country. Steady employment is also needed. Girls betake themselves to American cities where both are procurable. Many learn trades or work in factories. A dislike of farm work fills their minds.

Howick, Huron : Domestic servants scarce and wages high. Too many country girls going to the towns and cities. Don't think we require any importation of farm laborers—especially no gutter children from the cities of England. They are an unmitigated curse.

Stephen, Huron : You would insult the average young woman who works out if you called her a domestic or hired girl, she must be called a lady.

Arran, Bruce : You might travel a whole day and not get one to hire on a farm. There are plenty of girls, but they keep clear of the farm.

Glenelg, Grey : All the spare girls go to the city or town, where they get good wages, and the work is perhaps more congenial to their ideas of labor.

Sarawak, Grey : There are so many girls looking for work in offices and factories that wages for domestic servants are likely to go up.

Gwillimbury W., Simcoe : Domestics seem to prefer the needle at starvation wages to farm work.

Williams E., Middlesex : A luxury we cannot afford. They all go to Detroit and get wages there which the dire necessity compels us to give, but which they do not and cannot earn on a farm.

Zorra E., Oxford : Domestic servants are scarce, as daughters do not care to work from home, and many are above work even at home.

Eramosa, Wellington : Girls for housework are very hard to find. The only source of supply that I see is immigration, as the majority of our young Canadians are not willing to work out.

Waterloo, Waterloo : As long as women take the places that men formerly occupied in offices, etc., we have little hope to be better supplied.

Garafraxa E., Dufferin : They seem to get scarcer every year and wages go up. A good girl gets about what she asks.

Amaranth, Dufferin : The quality of what we have is not over satisfactory, and we don't want to try the experiment of a further immigration.

Clinton, Lincoln : Domestic servants are of a poor quality, and hard to get at that, and only remain for a little while.

Grimsby S., Lincoln : This township can produce all the farm laborers and domestic servants required for some length of time yet.

Beverly, Wentworth : Domestic servants are about a thing of the past, being hard to get. We do not want an imported lot.

Saltfleet, Wentworth : I think the future supply of domestic servants of a good type can only be secured by making the avocation appear to the servants as respectable as any other calling they might engage in.

Nassagaweya, Halton : Domestic servants are hard to procure. Idle girls are very plentiful, but they appear to think it a degradation to work on a farm.

Toronto Gore, Peel : It is not so hard to get a hired girl as it used to be.

Gwillimbury N., York : Female help is rather scarce and in demand, more especially during the summer season.

York, York : Domestic servants that are of any use are scarce, as the best ones generally flock to the cities. A number of the better class of servants could find steady employment.

Pickering, Ontario : Domestic servants are very scarce. They seem to think that there is no place like the cities and towns. I suppose they get better wages and easier work.

Cartwright, Durham : Domestic servants are plentiful, and quite equal to the requirements.

Clarke, Durham : A good mistress generally gets a servant.

Percy, Northumberland : There seems to be plenty of domestic servants to fill the demand.

Ameliasburg, Prince Edward : Good domestic servants are hard to get.

Kingston, Frontenac : Good domestics are difficult to obtain. Girls would rather go to factory work, as clerks in stores, in business offices, banks, loan offices, insurance offices, post offices, telegraph offices, and other openings too numerous to relate here.

Cumberland, Russell : Wages are not high enough to draw domestic servants to the farm. Girls like to go to the cities for a good time and to see life.

March, Carleton : Domestic servants are scarce. They prefer city life.

Drummond, Lanark : Domestic servants are scarce, except those "Home" specimens, which should not be permitted to mix with our people.

Glamorgan, Haliburton : Domestic servants are eagerly sought for, and industrious ones with good habits have no difficulty in finding good situations.

STATISTICS OF

VALUES OF FARM PROPERTY AND PRODUCTS

FARM VALUES—LAND, BUILDINGS AND IMPLEMENTS.

TABLE I. Showing by County Municipalities and groups of Counties the value of Farm Land, Buildings and Implements in Ontario for the years 1897 and 1898.

| Counties. | Farm Land. | | Farm Buildings. | | Farm Implements. | |
|----------------------------|-------------|-------------|-----------------|-------------|------------------|------------|
| | 1898. | 1897. | 1898. | 1897. | 1898. | 1897. |
| | \$ | \$ | \$ | \$ | \$ | \$ |

PART IV.

CHATTEL MORTGAGES.

The following statement gives the number of chattel mortgages on record and undischarged for the Province of Ontario for the year ending December 31, 1898, and the nine preceding years :

| Year ending Dec. 31. | To secure existing debt or present advance. | | To secure future indor- sation or advance. | | Total. | |
|----------------------|---|------------|---|---------|--------|------------|
| | No. | Amount. | No. | Amount. | No. | Amount. |
| | | \$ | | \$ | | \$ |
| 1898 | 19,526 | 12,001,075 | 283 | 281,142 | 19,809 | 12,282,217 |
| 1897 | 21,144 | 13,004,342 | 332 | 377,833 | 21,526 | 13,382,195 |
| 1896 | 21,402 | 13,180,205 | 387 | 381,511 | 21,789 | 13,561,716 |
| 1895 | 22,018 | 10,555,922 | 373 | 456,398 | 22,391 | 11,012,320 |
| 1894 | 21,276 | 10,603,393 | 483 | 616,812 | 21,759 | 11,220,205 |
| 1893 | 19,342 | 8,973,118 | 380 | 360,267 | 19,722 | 9,333,385 |
| 1892 | 18,927 | 9,215,753 | 455 | 829,724 | 19,382 | 10,045,477 |
| 1891 | 18,902 | 8,595,417 | 516 | 908,971 | 19,418 | 9,504,388 |
| 1890 | 17,271 | 8,121,316 | 632 | 857,542 | 17,903 | 8,978,858 |
| 1889 | 15,629 | 6,973,837 | 585 | 518,071 | 16,214 | 7,491,908 |

The following statement gives the numbers and amounts of chattel mortgages in the different districts of the Province for 1898 and previous three years :

| Districts. | 1898. | | 1897. | | 1896. | | 1895. | |
|-----------------------------|--------|------------|--------|------------|--------|------------|--------|------------|
| | No. | Amount. | No. | Amount. | No. | Amount. | No. | Amount. |
| | | \$ | | \$ | | \$ | | \$ |
| Lake Erie | 2,999 | 886,162 | 2,999 | 1,062,301 | 2,644 | 1,083,750 | 2,934 | 1,066,587 |
| Lake Huron | 1,724 | 686,599 | 2,081 | 805,123 | 2,079 | 816,701 | 2,247 | 760,168 |
| Georgian Bay | 1,870 | 622,481 | 2,193 | 912,864 | 2,218 | 897,148 | 2,236 | 856,963 |
| West Midland | 2,559 | 1,277,880 | 2,935 | 1,448,824 | 3,113 | 1,451,764 | 3,209 | 1,582,895 |
| Lake Ontario | 5,093 | 2,810,410 | 5,281 | 3,212,610 | 5,585 | 3,151,305 | 5,724 | 3,320,257 |
| St. Lawrence & Ottawa | 2,939 | 1,480,645 | 3,259 | 1,952,957 | 3,317 | 1,698,551 | 3,302 | 1,878,788 |
| East Midland | 1,396 | 1,797,694 | 1,686 | 1,960,830 | 1,728 | 2,473,533 | 1,714 | 768,675 |
| Northern Districts..... | 1,229 | 2,720,436 | 1,142 | 2,026,686 | 1,105 | 1,989,964 | 1,025 | 1,077,987 |
| The Province..... | 19,809 | 12,282,217 | 21,526 | 13,332,195 | 21,789 | 13,561,716 | 22,391 | 11,012,320 |

More than one half the number of the chattel mortgages are registered against farmers. The following statement gives the numbers and amounts of chattel mortgages on record against farmers on December 31 of each of the years 1895, 1896, 1897, 1898 :

| Districts. | 1898. | | 1897. | | 1896. | | 1895. | |
|-----------------------------|--------|-----------|--------|-----------|--------|-----------|--------|-----------|
| | No. | Amount. | No. | Amount. | No. | Amount. | No. | Amount. |
| | | \$ | | \$ | | \$ | | \$ |
| Lake Erie | 2,019 | 456,533 | 2,015 | 499,701 | 1,601 | 473,418 | 1,980 | 476,720 |

SEVENTEENTH ANNUAL REPORT
OF THE
ONTARIO BUREAU OF INDUSTRIES.

PART V.

1898.

To the Honorable the Minister of Agriculture :

SIR,—I have the honor to present herewith Part V. of the seventeenth annual report of the Bureau of Industries for 1898, containing tabulated statements of statistics of population, assessment and taxation of the municipalities of Ontario up to December 31, 1898, and the financial statements of municipalities for 1897

I have the honor to be, Sir,

Your obedient servant,

C. O. JAMES,

Secretary.

TORONTO,

November, 1899.

PART V.

MUNICIPAL STATISTICS.

The following statement is compiled from the summarized tables and gives populations, total assessments, amount of taxes imposed for 1898, the amount of debenture and floating debt, together with the amount paid each year by all municipalities of the Province for interest for the twelve years 1886-97.

| Year. | Popula- tion. | Total assessment. | Taxes imposed for all purposes. | | | Debenture debt. | | Floating debt. | Interest paid on loans and debent- tures. |
|-------|------------------|----------------------|------------------------------------|----------------------|----------------------------|-----------------|----------------------|-------------------|---|
| | | | Total. | Rate per head. | Mills on the dollar. | Total. | Rate per head. | | |
| | | | | | | | | | |
| | | \$ | \$ | \$ c. | | \$ | \$ c. | \$ | \$ |
| 1898 | 2,001,350 | 809,184,833 | 12,222,966 | 6 10 | 15.11 | * | * | * | * |
| 1897 | 1,990,977 | 803,625,377 | 12,206,325 | 6 13 | 15.19 | 53,577,475 | 26 91 | 6,482,953 | 2,553,988 |
| 1896 | 1,972,286 | 814,917,633 | 12,122,785 | 6 15 | 14.88 | 52,948,275 | 26 85 | 6,261,394 | 2,588,759 |

| 1887 | 1,848,457 | 717,311,938 | 9,300,113 | 5 03 | 12.97 | 31,943,320 | 17 28 | 5,645,208 | 1,820,590 |
| 1886 | 1,828,495 | 694,380,659 | 9,009,385 | 4 93 | 12.97 | 29,924,863 | 16 37 | 4,841,717 | 1,715,620 |

* Statistics of debts for 1898 are not yet complete.

The following table shows the growth of population by municipalities for thirteen years :

| Year. | Townships. | Towns. | Villages. | Cities. | Total. |
|------------|------------|---------|-----------|---------|-----------|
| 1898 | 1,110,894 | 314,820 | 134,747 | 440,889 | 2,001,350 |
| 1897 | 1,113,530 | 312,947 | 133,560 | 430,940 | 1,990,977 |
| 1896 | 1,112,900 | 306,001 | 132,451 | 420,934 | 1,972,286 |
| 1895 | 1,109,631 | 300,655 | 130,889 | 416,215 | 1,957,390 |
| 1894 | 1,103,808 | 297,194 | 126,387 | 408,810 | 1,936,219 |
| 1893 | 1,096,984 | 292,285 | 123,125 | 397,665 | 1,910,059 |
| 1892 | 1,102,467 | 291,706 | 121,690 | 393,664 | 1,909,527 |
| 1891 | 1,116,347 | 287,854 | 122,691 | 395,229 | 1,922,121 |
| 1890 | 1,118,252 | | 410,530 | 388,762 | 1,917,544 |
| 1889 | 1,130,060 | | 400,890 | 375,951 | 1,906,901 |
| 1888 | 1,133,046 | | 393,461 | 353,338 | 1,880,145 |
| 1887 | 1,140,138 | | 377,389 | 330,930 | 1,848,457 |
| 1886 | 1,148,856 | | 360,005 | 319,634 | 1,828,495 |

In 1898 there were 493 organized township municipalities, 100 towns, 136 villages, 13 cities and 38 counties.

Following is a comparative table for thirteen years for total assessed values :

| Year. | Townships. | Towns. | Villages. | Cities. | Total. |
|-------|-------------|-------------|------------|-------------|-------------|
| | \$ | \$ | \$ | \$ | \$ |
| 1898 | 448,810,060 | 93,529,372 | 30,768,025 | 236,077,376 | 809,184,833 |
| 1897 | 444,722,478 | 91,438,546 | 30,497,707 | 236,960,646 | 803,625,377 |
| 1896 | 447,117,383 | 91,269,208 | 30,005,839 | 246,525,203 | 814,917,633 |
| 1895 | 448,417,259 | 93,646,835 | 29,711,010 | 249,691,062 | 821,466,166 |
| 1894 | 451,476,103 | 93,065,465 | 29,007,928 | 252,629,874 | 826,179,370 |
| 1893 | 451,629,103 | 94,213,304 | 28,463,366 | 251,224,279 | 825,530,052 |
| 1892 | 452,065,658 | 93,867,423 | 28,043,948 | 251,234,098 | 825,211,127 |
| 1891 | 454,070,364 | 92,555,085 | 27,820,773 | 244,401,222 | 818,847,394 |
| 1890 | 452,467,088 | 115,402,233 | | 230,746,950 | 798,616,271 |
| 1889 | 450,977,220 | 106,453,798 | | 204,474,798 | 761,905,816 |
| 1888 | 460,615,822 | 100,413,029 | | 187,625,719 | 748,654,570 |
| 1887 | 456,170,163 | 93,387,596 | | 167,804,179 | 717,311,938 |
| 1886 | 452,097,645 | 88,078,093 | | 154,204,921 | 694,380,659 |

The amount of taxes imposed for all purposes (general and local) in townships, towns, villages and cities is shown in the following, for thirteen years :

| Year. | Townships. | Towns. | Villages. | Cities. | Total. |
|-------|------------|-----------|-----------|-----------|------------|
| | \$ | \$ | \$ | \$ | \$ |
| 1898 | 4,461,474 | 2,095,791 | 570,912 | 5,094,789 | 12,222,966 |
| 1897 | 4,407,005 | 2,069,444 | 569,884 | 5,160,592 | 12,206,925 |
| 1896 | 4,292,741 | 2,005,132 | 557,003 | 5,267,909 | 12,122,785 |
| 1895 | 4,473,269 | 2,021,455 | 544,111 | 5,277,594 | 12,316,429 |
| 1894 | 4,579,044 | 1,955,980 | 526,813 | 5,258,475 | 12,320,312 |
| 1893 | 4,629,028 | 1,944,221 | 505,231 | 5,444,180 | 12,522,660 |
| 1892 | 4,599,442 | 1,876,420 | 499,575 | 4,828,133 | 11,803,570 |
| 1891 | 4,544,291 | 1,811,517 | 493,508 | 4,918,432 | 11,767,748 |
| 1890 | 4,473,108 | 2,161,644 | | 4,262,733 | 10,897,485 |
| 1889 | 4,507,717 | 1,993,623 | | 3,746,858 | 10,248,198 |
| 1888 | 4,494,780 | 1,884,918 | | 3,540,264 | 9,919,962 |
| 1887 | 4,431,720 | 1,759,248 | | 3,109,145 | 9,300,113 |
| 1886 | 4,388,401 | 1,670,848 | | 2,950,136 | 9,009,385 |

The next table compares the debenture debt outstanding in the various municipalities on December 31st, for each of twelve years :

| Year. | Townships. | Towns. | Villages. | Cities. | Counties. | Total |
|-------|------------|-----------|-----------|------------|-----------|------------|
| | \$ | \$ | \$ | \$ | \$ | \$ |
| 1897 | 2,917,091 | 9,850,615 | 1,160,285 | 37,846,377 | 1,804,107 | 53,577,475 |
| 1896 | 2,866,904 | 9,598,063 | 1,163,096 | 37,471,230 | 1,848,982 | 52,948,275 |
| 1895 | 2,992,643 | 9,090,368 | 1,175,803 | 36,452,914 | 2,184,263 | 51,895,991 |
| 1894 | 2,942,267 | 8,611,052 | 1,132,942 | 34,778,154 | 2,260,172 | 49,724,587 |
| 1893 | 3,039,823 | 8,222,289 | 1,032,476 | 33,399,063 | 2,339,523 | 48,083,243 |
| 1892 | 3,089,430 | 7,491,878 | 1,087,468 | 32,966,371 | 2,531,815 | 47,166,962 |
| 1891 | 3,118,639 | 6,775,715 | 993,945 | 30,253,043 | 2,747,511 | 43,888,853 |
| 1890 | 3,366,617 | 7,099,648 | | 27,110,712 | 3,144,008 | 40,720,985 |
| 1889 | 3,299,557 | 6,371,763 | | 26,096,152 | 3,220,860 | 38,988,332 |
| 1888 | 3,409,744 | 6,146,561 | | 21,769,261 | 3,403,961 | 34,729,527 |
| 1887 | 3,154,428 | 5,261,078 | | 20,080,923 | 3,446,391 | 31,943,320 |
| 1886 | 3,153,646 | 4,795,580 | | 18,469,893 | 3,505,744 | 29,924,863 |

The amount of floating liabilities of the municipalities on December 31st, 1897, was \$6,482,953, of which \$3,219,853 was for temporary loans.

STATISTICS OF
ONTARIO MUNICIPALITIES.
1897-8.

POPULATION, ASSESSMENT AND TAXATION.

TABLE I. Detailed Statement by Local Municipalities (townships, towns and villages) in the Counties of Ontario for 1898, of the population, the area, the assessed values and amount of taxes imposed for all purposes inclusive of schools, as shown by the assessment and collection rolls, together with the average rate per head of the resident population, and also the average rate on the dollar.

| Municipalities. | Popula- tion. | No. of acres assessed | Assessed values. | | | | Taxes imposed for all purposes. | | |

* Separated from county for municipal purposes.

NOTE.—The population in this table is from the assessment rolls taken in 1898. The assessed values on which the taxes imposed for 1898 are based are in many instances from the rolls taken in 1897, as provided by Statute. R.S.O. 1897, Chap. 224, Sec. 58.

* Taken from 1897 return.

† Increase caused by assessing the Lake Superior Power Co. and allied companies for \$750,000 for school purposes only, and striking a rate for schools for 1898 and also 1897.

‡ This is population for 1897, as it was not filled in on assessment roll for 1898.

§ No returns. The figures given are for previous year.

|| Organized in 1898, a portion being taken from the municipality of Alberton.

ASSESSMENT AND TAXATION.
